HOME AFFAIRS.

GRAHLEY AND BROWN CANVASS IN WAKE.

Geo. V. Strong, Esq., Hon. Sion H. Rogers, Capt. S. A. Ashe, F. H. Busbee, Esq., and probably Hon. W. N. H. Smith, will address the people of Wake and Orange at the following times and places:

Franklin's, Monday, October 28.
Auburn, Tuesday, Oct. 29th.
Morrisville, Wednesday, Oct. 30th.
Durham, Wednesday, at night.

COTTON MARKET.—Reported by Lynn Adams, Grocer and Commission Merchant, South Market Street:

RALEIGH, Oct. 26.

Price of cotton in our Market to-day:	
12 m.	17 3 4 cents.
4 P. M.	17 3 4.
Sales,	125 bales.
Receipts,	125 "
Tone of the Market, firm.	

LOCAL DOTS.

Raffling for meerschaum pipes is now popular.

Wyman, the Wizzard, is heading this way.

The Board of County Commissioners meet on the 4th prox.

The Mayor's court had no cases to deal with on Saturday morning.

Wesley Whitaker, Esq., has resigned the office of County School Examiner.

The Board of City Commissioners meets on Wednesday evening next.

The devotees to billiards in this city must be numerous. All of the various saloons seem to meet with large patronage.

The rads had a pow-wow in the court house Saturday night. The great S. P. and other lights were present and jawed a little.

Col. T. P. Rundlet, representing that well known and staunch house of S. Collins & Co., of New York, manufacturers of printing ink, is in the city. This firm was favorably known all through the South years before the war.

A little common wax rubbed on the sole of one's shoes makes one's feet glide smoothly over the heaviest carpet.

The Associate, with a face as bright as this Indian summer sun, left Saturday morning for a brief respite from his arduous labors, on a visit to his family in Oxford.

A novel custom has been introduced in some of our fashionable houses. When a visitor calls and finds the family out, he is requested to write his name in a handsome visiting book.

The numerous typographical errors occurring in the local column of our last issue must be attributed to the hurried manner in which the proofs were read. Other duties demanded the attention of the proof reader.

Yesterday (Saturday) morning, on Wilmington street, two white men, with full cargoes of benzine on board, had a scratching bout. A little blood and a good deal of hair pulled was the result.

We exhort friend Green, of the "Tobacco Plant," to keep the peace at Durham. If a man give another the "lie," it is not always best to make him try the *lie-on*.

There is complaint about cows running at large in the city during the night. Some serious depredations have recently been committed by them on gardens, &c. Our enterprising sister city, Charlotte, forbids them the liberty of the streets by day. Cleanliness requires it here also. They are a great annoyance to the market wagoners and to our merchants. What say our city Commissioners.

PEACE INSTITUTE.—This building is now complete. No pains and expense have been spared to make it one of the most conveniently arranged and attractive buildings of the kind in the South. The entire building, externally and internally, has been minutely described in these columns before. Messrs. Burwell & Son, the lessees of the building, now have a highly successful Female Seminary in operation, and heartily join the Directors of the institution, Rev. J. M. Atkinson, D. G. Fowle, T. McGee, W. H. Crow and R. S. Pullen, in an invitation to the ladies and gentlemen of the city to visit the premises this (Monday) evening between the hour of 8 and 10 o'clock, as the building will then be illuminated.

A lady asked a gentleman who was suffering from influenza, "My dear sir, what do you use for your cold?" "Five handkerchiefs a day, madam."

THE ANALYSIS.—Coroner Magnin has received a letter from Prof. Genth, of Philadelphia, stating that the analysis of the stomach of the late Rev. Dr. Smith and of the sugar, and remnants of the Soldeitz powder of which he drank, has been completed. We trust in a few days to be able to lay the result of the analysis before our readers.

We gratefully recognize the spirit of a true man and worthy confrere in the following generous words from the Pee Dee "Herald":

Most people like to have a good, staunch political paper, and we advise all our Democratic friends who want a good paper, to subscribe for the Raleigh SENTINEL. The SENTINEL is one of the best Democratic papers published in the State or in the South. Let us make Mr. Turner's late calamity turn to his own benefit in a pecuniary view. We publish the terms of the SENTINEL elsewhere.

PUBLIC SPEAKING.—Hon. A. S. Merrimon and other distinguished friends of reform, will address the people of Chatham county, at the following times and places:

Egypt, Thursday, October 31st.
Merry Oaks, Friday, November 1st.
Buchanan's, Saturday, November 2nd.
Let there be a full turn-out of the friends of reform.

DISGRACEFUL.—On Saturday about 1 p. m., a couple of U. S. soldiers, a little worse for liquor, had a difficulty near the market house, and, one or two friends interfering, it was decided to settle the matter *a la* Heenan, elsewhere. So the parties repaired to the old Gales lot, just in rear of this office, and proceeded to adjust matters after the most approved pugilistic manner. But before the fight had been decided the police, at the instance of a gentlemen who happened to be near by, separated the combatants and marched them off to the guard house. Quite a crowd collected to witness the affair, and the disgraceful scene seemed to be much enjoyed by them.

LIGHT FOR OUR STREETS.—Now that the dark, long nights of winter are close upon us, it is the duty of the Board of Commissioners to see to it that our streets are lit up. The people of Raleigh demand it and it should not be put off any longer. If one of our citizens desires to visit his neighbor he is forced to take his own lantern in order to keep out of the ditches, or he must testify his devotion to his friend by wading through mud, or perhaps breaking his neck. It is more especially, however, in the name of the young men of Raleigh, "the bloods," that we call upon the Board of City Commissioners for a more faithful discharge of their duties. When night has approached they (the young men, not duties) can no longer be kept from the side of those fair ones whose bright glances have overthrown what little reason they possessed. The burning love and ardor in their bosoms tell them to "forward march." What a predicament are they in? The muddy and nearly impassable streets tell them to stay at home, but the eagerness and impatience of the lover hurry them out. With no light to guide them and bereft of reason, they are exceedingly fortunate if they arrive whole and sound in the presence of the fair ones. But even then how lamentable is their condition? Their vanity is not only exceedingly hurt by the unsightly condition of their "unmentionables," but they are even exposed to the suspicion of having been on "benders." The very proof of their devotion is changed into condemnation. They point to their pants for proof of their love, which is straight accepted as proof of whisky straights. We call upon the Board of City Commissioners to save our young men from such a fate. They are known to be the most deadly enemies to "whisky straights," and should the ladies of Raleigh ever suspect them of a partiality for drinking, the Board of City Commissioners will have the satisfaction of knowing they have ruined the character of a most exemplary set of young men. As their characters all that most of them possess, we feel certain that the Board is not hard-hearted enough to deprive them of that.

LOCAL ITEMS are scarce. Nothing of any interest seems to be going on. Times are exceedingly dull except at breakfast, dinner and supper, then we are convinced that there is "life in the old land yet."—The Local is in utter despair and only his conscientious regard for the 6th commandment prevents his murdering some one simply to fill up with. If our local columns are not particularly lively, the citizens of Raleigh have only themselves to blame. We are ready, willing and waiting to record their actions whether noble or otherwise. Our pen is raised, will they act? Out of pity to us we hope they will get up a free fight or do something or other in order that we may fill up our column. It is exceedingly hard to write upon nothing.

Eureka! Eureka! Here we were exceedingly low spirited when some one came in with a report of some one else's having cried murder in western ward on Friday night last. From the bottom of our soul we thank that man, woman or child, whichever it may be. He, she or it, shall be more diligently sought for in order to express our gratitude, than even the man who struck Billy Patterson. We thank that man, woman or child for that cry of alarm and could only have been better pleased by the blow having greater effect. We had hoped to have recorded sanguinary deeds, but the cry is good as far as it goes.

WAYSIDE APHORISMS.

Always during things—A hammer.

The most useful thing in the long run—Breath.

The Hard Tea—Coals at thirty six shillings.

Even the best of cutlers steel their material.

Persons who never complain of "short crops"—Barbers.

The moment the day breaks set yourself at once to save the pieces.

Even the derided organ-grinder has his good point. He supplies to the pent up poor one of the greatest luxuries of life—a change of air.

A lay lyric—If your neighbors hens are troublesome and steal across the way, don't let your angry passions rise. Fix a place for them to lay.

"I can't drink liquor," said Bob; "it goes right to my head." "Well," said Bob's friend, "where could it go with less danger of being crowded?"

Mr. Styles is struck with the foolishness of employing a coroner's jury to find out why women take poison. He says they do it to kill themselves.

SPEAKING AT HENDERSON.—Ovide Dupre, Esq., assistant elector for the State at large will address the citizens of Henderson, Granville county, on Monday. Our friends in that locality will please turn out and give Mr. Dupre a large audience and a hospitable reception.

POLITICAL NOTES.

Governor Booth, of California, offers a reward of $100 for every conviction of parties for violating the election laws.

In New Hampshire, the Grant men say the State will not go 1,000 either way; while the Greeley men claim it by not less than 2,000.

The Philadelphia *Inquirer* (Administration) doubts "if General Grant receives half the majority in Pennsylvania Hartranft has."

The official returns of the election in Indiana are now all in but two counties. Supposing them to go as reported, Hendrick's majority will be about 2,200.

General Banks, who has been feeling the pulse of the people out West, says, on his return to New England, "No human power can defeat the Liberal cause."

Morton thinks Grant's administration the purest he has ever known. The Chicago *Times* thinks he ought to know, seeing that he "puts in" so much of it himself.

The Union League of Philadelphia is sending out dunning letters to make up its deficiency of funds. It is a hopeful sign for the Democrats when the Radicals are out of money, for they can do nothing without it.

Vox Populi was supposed in the past time to be the most potential agency in determining the course of public affairs. Under the Administration of Grant, Cameron & Co. it seems to have become, *ex, et proterea nihil.*

The name of A. T. Stewart is not found among those of the fifty-seven so-called business men and firms of New York glorifying the financial policy of General Grant and recommending his re-election. The absence of such a name is full of significance.

The President has within a few days, sent troops to certain portions of Georgia, Alabama, and Louisiana, to oversawe the Conservative voters. The reason is, there is a prospect of an immense majority against him in all the above mentioned States.

The famous Buffaloe Bill, who accompanied the Grand Duke Alexis in his hunting trip, is elected a member of the Kansas Legislature. His colleagues had better look out for their scalps. In case of an animated discussion Bill may take a fancy to "lift hair" from some adventurous opponent.

A sharp fight is going on inside of the party between the aspirants for the contingently vacant seat of Henry Wilson in the United States Senate. Boutwell is by no means to be allowed to walk over for the much-coveted prize. Butler, Dawes, and Loring assert their own claims. There are too many great men in Massachusetts.

WILMINGTON, October 25.

Cotton steady; middlings 18 1-4.

FROM NEW YORK.

NEW YORK, Oct. 25.—The weather this morning is very damp and foggy.

The horse disease is now spreading to every stable in the city. Symptoms of the contagion are visible on almost every horse on the streets. The stage and street-car lines are continuing to lessen their trips. At about eight last evening there was not a stage on Broadway. This morning that thoroughfare seems to be almost without vehicles. It is altogether calculated that about 18,000 horses are now afflicted. The animals attacked day before yesterday have generally exhibited worse features, and it seems evident, that dating cases from Monday or Sunday, the crisis can yet hardly be said to have arrived. The continued working of afflicted horses is beginning to tell in rapid increase of dangerous cases. Not many deaths have been reported as yet, but it is known that deaths are occurring.

It is the opinion of veterinary surgeons that perhaps the cases may not prove fatal, but that horses will suffer some time from weakness. The Sanitary Committee reported to the Board of Health yesterday that the disease, though general, is not fatal or contagious. The course of it seems to be, say, Friday the animal appears sick, Saturday worse, Sunday malady attained its climax, Monday the horse improves, and on Tuesday is almost fit for work.

The effect on business is noticed to have been very severely felt, and already the cost of draying and cartage in some instances has arisen to war prices.

ROCHESTER, N. Y., Oct. 25.—The horse disease shows no abatement. Reports from various stables are that the horses are much worse than they were yesterday.

FROM PENNSYLVANIA.

PHILADELPHIA, PA., Oct. 25.—An investigation of all the stables show that the malady is not here. Every precaution has been taken to prevent its spread if it appears.

CORRY, PA., Oct. 25.—The horses of the Railroad and Express Companies are laid up.

FROM WASHINGTON.

WASHINGTON, Oct. 24.—The health of Chase is improved.

The agricultural report for October says the corn crop promises to be the largest ever grown.

Mary Ann, daughter of a New York millionaire, who married John Dean, her father's coachman, died in a hovel here. The inquest discloses signs of violence, but the woman died from protracted dissipation.

FOREIGN NEWS.

FROM PRUSSIA.

BERLIN, Oct. 25.—Otto Russell, while visiting Bancroft, congratulated himself upon the settlement of the San Juan boundary. Russell said the last cause for a difficulty between England and the United States was removed. The meeting was very cordial.

The Emperor William's decision on the San Juan question was communicated simultaneously to-day to both American and English embassadors.

Thiers has forbidden the sale of caricatures of Napoleon and family.

THE HORSE MALADY.

ST. LOUIS, MO., Oct. 25.—The horse doctors announce the appearance of the horse malady here.

LEWISTON, ME., Oct. 25.—Several hundred horses sick, but few deaths.

SUPERVISORS OF ELECTIONS.

The New York papers are discussing the powers of Election Supervisors appointed by the Federal Courts. Here their powers sank into insignificance before the lawless violence of the Deputy Marshals. The Court appointed reputable citizens as Supervisors, of whom we have heard little complaint for any positive acts—their defect was in their tolerance of wrongs perpetrated by others. In fact, the Supervisors were paralyzed and subjugated by the Deputy Marshals. These fellows said, like the man in the play, "You shall be King, but I will be Viceroy over you." In the Sixth precinct of the Tenth ward of this city, the United States Supervisor objected to the "repeating" which was going on openly before him, whereupon the Deputy Marshal dragged the Supervisor out of the precinct house and locked him up in a police station! Everywhere the Deputy Marshals were the open protectors of every kind of fraud, and made the election the scene of open, reckless villainy. They turned the police stations of this city into private jails, into which they thrust their victims till the election was over, and then let them loose without process, warrant or license from anybody.—*Phila. Ape.*

DR. TUTT'S SARSAPARILLA & QUEEN'S DELIGHT.

No remedy possessing so many valuable Medicinal Properties as this combination of Roots, Herbs and Barks. The Queen's Delight is acknowledged by physicians to be the most powerful remedy known for Impure Blood, Liver Complaints, Nervousness, Female Complaints, Constipation, Rheumatism, Diseases of the Kidneys, Syphilitic Affections, Skin Diseases, Chronic Complaints, &c. But in this preparation it is combined with other vegetable products, which renders its virtues doubly valuable. Most diseases have their origin in the blood, and as a Blood Purifier the Sarsaparilla and Queen's Delight has no equal. It requires but a trial to convince the most sceptical.

For Female Complaints, whether in young or old, married or single, at the dawn of womanhood or the turn of life, Dr. Tutt's Liver Pills are an acknowledged remedy.

Dr. Tutt's Hair Dye is the best in the World.
oct 23-deod1w&wlw

UNDEVELOPED VIGOR.

The feeble and debilitated usually fancy they are in a more hopeless condition than they really are. The sources of nature are not easily exhausted. Even when strength and appetite fail, when the eyes are heavy and lustreless, the complexion pallid, the nerves tremulous, the body attenuated, and the mind depressed, there is generally a reserve of latent power behind such palpable evidences of weakness. Various modes of treatment are resorted to by physicians in the hope of developing and rendering available this store of slumbering vitality, but the surest, and indeed the only thoroughly safe and reliable means of awakening the dormant energies of the system is a course of Hostetter's Stomach Bitters. Electricity, shower baths, the flesh brush, sea bathing, &c., may be well enough in their way, as auxiliaries, but they do not reach the source of the evil. All physical debility proceeds either from a derangement of the functions of the assimilating, secretive and vital organs or from a sluggish constitution. In either case, and also in cases where both causes exist, the Bitters will invariably produce an immediate and salutary change in the condition of the patient, and eventually effect a complete cure. None of the dangerous alkaloids, too often administered as tonics, can be otherwise than deleterious under such circumstances, and to give mercury is positively criminal. The direct effect of the great vegetable specific will be manifested in an improved appetite, a more cheerful frame of mind, a gradual return of strength, an increase of flesh and a healthier complexion. Meanwhile, however, the constitution, if inert and feeble, will have been roused and renovated by the subtle elements of invigoration contained in the Bitters.

oct 23-tf

BOTTLES FULL OF BEAUTY.—Ladies, if you would have beauty by the bottle full, all you have to do is to purchase HAGAN'S MAGNOLIA BALM. That peerless beautifier of the complexion not only heightens natural charms but renders even the plainest countenance exceedingly attractive. It recalls to the pallid cheek the rosy tinge of health, removes pimples, blotches, roughness, sallowness and other blemishes, and imparts to the skin a most delicate fairness and softness. It smooths the furrows caused by time or care, and gives face, neck and arms the plump and engaging appearance of youthful beauty. All this is accomplished by the most natural means, viz: by gently and naturally stimulating the circulation in the capillary blood vessels. Besides being the most effectual aid to beauty known to modern science.

PIMPLES, ERUPTIONS, ROUGH SKIN.

The system being put under the influence of Dr. Pierce's Golden Medical Discovery for a few weeks, the skin becomes smooth, clear, soft and velvety, and being illuminated with the glow of perfect health from within, true beauty stands forth in all its glory. Nothing ever presented to the public as a beautifier of the complexion ever gave such satisfaction for this purpose as this Discovery. The effects of all medicines which operate upon the system though the medium of the blood are necessarily somewhat slow, no matter how good the remedy employed. While one to three bottles clear the skin of pimples, blotches, eruptions, yellow spots, comedones or "grubs," a dozen may possibly be required to cure some cases where the system is rotten with scrofulous or virulent blood poisons. The cure of all these diseases, however, from the common pimple to the worst scrofula, is with the use of this most potent agent, only matters of time. Sold by all druggists.

This is strictly a

HOME LIFE COMPANY.

Its officers and Directors are citizens of the State, of high character for business capacity, enterprise and probity. It offers every

SUBSTANTIAL BENEFIT

that Northern Companies do, with the great additional consideration that the capital is kept within the State, and, therefore, helps to build up and foster home institutions.

Another important fact to be considered is, that the Wilmington Life has thus far obtained a very much larger interest for the money invested at home, than any of the New York Companies receive for their investments, according to their sworn statements before the Commissioner of that State.

These unquestionable facts should commend this Company, above all others, to our people. Let it be borne in mind that millions of dollars received for Life premiums have been sent North since the war, which at once drains the South and enriches the plethoric capitalists of the North. If there was no other consideration, safety, fairness and cheapness being equal, why North Carolinians should insure at home, this were more than sufficient.

THE WILMINGTON LIFE

has excellent special features.

It places no restriction on residence or travel; it makes no extra charge for female risks; and its Policies are incontestable after Five Years.

Its business is managed economically. Its risks are taken with great caution. Its investments are made judiciously.

Its motto is:

ECONOMY, PROMPTNESS, FAIRNESS.

Agents wanted in every county in the State, with whom the most liberal terms will be made. Apply to

JAMES N. TOWLES,
sept 6-1w Agent.

MEDICAL.

BALTIMORE LOCK HOSPITAL.

BALTIMORE, MD.

OFFICE—7 SOUTH FREDERICK STREET.

DR. JOHNSON,

Graduate of the celebrated Institution, discovered, when in the Great Hospitals of Europe, viz: England, France and elsewhere, the most certain, speedy, pleasant and effective remedy in the world for all stricture or obstruction of the system.

Weakness of the Back or Limbs, Stricture, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Dizziness, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Diseases of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—excess and solitary practices more fatal to their victims than the song of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or intuitions, rendering marriage, &c., impossible, destroying both body and mind.

YOUNG MEN

Especially, who have become the victims of Solitary Vice, that terrible, that destructive habit which annually swaps in an untimely grave thousands of young men of this most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or young men contemplating marriage, aware of Physical Weakness, Loss of Procreative Power (Impotency), Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Physical affliction, specially relieved.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS

Immediately Cured and full Vigor Restored.

This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are led to commit excesses from not being aware of the dreadful consequences that may result. Now, who that understands this subject will pretend to deny that the power of procreation is not accompanied by those exciting ideas in improper habits than by the resolute? Another, being deprived of the pleasure of having offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility and Wasting of the Frame, Cough, Consumption, Decay and Death.

A CURE SPEEDILY WARRANTED.

Persons ruined in health by unlearned pretenders who keep them filling month after month, taking
