NEARLY A FIRE AT APEX.—The Blind and Sash Factory of Mr. McEllington Apex this county, on the Raleigh and Augusta Railroad took fire on Saturday, upon the roof from a spark from the engine. The shingles were in a blaze but by the almost superhuman efforts of persons who quickly discovered it the flames were suppressed. Damage slight.

PERSONAL.—Cols. Folk and Armfield are at the National Hotel, and are in attendance upon the Supreme Court.

We were glad to meet with a former townsman and esteemed friend in the city to-day, Frank H Dewey, Esq., of Charlotte. He and his family are on a brief visit to home folks. He was shaking hands with many an old friend today, it being his first visit here for several years.

MAYOR'S COURT.—Milton Robinson and Mary Matthews, colored, drunk and disorderly—12 hours in the lock up.

Calvin Goodwin drunk on Winter's Row—locked up.

Harriet Strond arrested on suspicion of stealing a watch, was discharged.

Jennie Sumpter and Mary Thomas for loud talking, on the street, weat below in default of fine for 48 hours.

SUPREME COURT.—The court met at the usual hour, all the Justices present.—The following cases were argued.

F P Bedwell and vs R W King, from Alleghaney, No counsel for plaintiff, Hargrove & Furches for defendants.

Nancy A. Johnson *et al* vs John M Johnson from Wilkes. Caldwell for plaintiff, and Armfield for defendant.

A C Cowles admr., vs P Hays *et al* from Iredell. Armfield for plaintiff, McCorkle & Bailey for defendant.

R B Bryan vs A L Rosseau, from Wilkes; Furches for plaintiff, Armfield for defendant.

THE CORONERSHIP.—During the session of the Conservative County Convention in this city Saturday, towards the last of the proceedings when everybody, after five hours sitting, was pretty well heated and worried out, the life of the body was rejuvenated to a great extent, by the nomination of Woodson, of the "News," for Coroner, by a friend. Great merriment was created, and in a few seconds "Wood" was rising to explain, uttering various protestations. He only asked two votes of getting the nomination. Woodson for Coroner would invigorate the ticket much so! With Dave Lewis, the laughist, for Treasurer, and "Wood," for Coroner, the county would undoubtedly be safe.

WOOD AND COAL INSPECTOR.—The Legislature having passed an act authorizing and empowering the Commissioners of Raleigh to appoint an inspector of wood and coal, Mr. James J. Lewis has been elected by the Board of City Commissioners Inspector and he will enter upon his duties July first. The Commissioners at the same time passed an ordinance defining the duties and fixing the tariff fees of that officer. He is required to inspect and measure all wood and weigh all coal that may be sold within the city limits, except such as is exempted by the act creating said office. The office hours of said inspector will be from sun rise to sun set each day, except Sunday. The ordinance giving full particulars is being distributed to-day throughout the city.

For the Sentinel.

Mr. Editor:—Our county candidates are all right, and with a good canvass we will carry the county by several hundred. The colored party have distinctly drawn the lines. The last act on the board was the turning out of old man Holt at the City Cemetery at the last meeting of the City Commissioners and filling the place with a negro. Mr. Holt has given entire satisfaction for many years, and why they should oust the old man, none but the Commissioners can tell. We are of opinion that the lines of color were drawn and *civil rights prevailed*. We humbly ask why Osborne Holt was deposed as sexton of the city cemetery?

A LOT OWNER.

MORE KIRKIEM.—Tom Easterly, came to Hominy section this county during the war, refugeeing from the Kirk radical cutthroat of East Tennessee. He was a blacksmith by trade, and worked at his business in Hominy for some time, then moved to Liecester where he remained until about one year ago, when he returned to his old home in Tennessee. A few nights ago some men, supposed to have been his old enemies under the Kirk oppression, went to his home, took him out and hung him. Easterly was said to have borne a very good character—was industrious and peaceable.—*Asheville Citizen.*

A CASE OF SOMNAMBULISM.—We have a somnambulist in our office. Yesterday morning Mr. J. W. McCraney, a compositor on the *Observer*, soon after falling asleep, got out of bed and began knocking panes out of the windows with his fist. Some of the family heard him, and, running up, found him pounding away at the window glass. He was seized and dragged off, and it was found that his arm was bleeding profusely. ARE YOU GOING TO PAINT? The best is the Averill Chemical Paint. Because 1st, It has been thoroughly tested by chemists, and over 200,000 owners of residences throughout the United States for the last seven years, and pronounced by them to be the most durable paint known. 2nd. For beauty and retention of color it stands far ahead of any other. Buildings have been painted with it in part, and partly with the best of other paints, both in the interior and on the sea coast, and in no case has it been excelled for beauty or permanency of color. 3rd. It is economical, and its cost is no more than the best lead and oil, and being far more durable (it wears about twice as long as the best of any other,) and beautiful, warrants the assertion that for a period of twenty years it will save the consumer fully 50 per cent. 4th. It is in liquid form and all ready for use. Pure White, or any desired shade, can be obtained without subjecting the buyer to the annoyance of purchasing oil, pigments, coloring matter, dryer, &c. It is easily spread, flows freely from the brush, clings firmly to every substance it may be applied upon. For wood, brick, iron, or for any painting purpose where durability, beauty and preservative properties are requisite, it stands unrivalled. Though composed of the most indestructible materials known to science, an analysis of the Averill Chemical Paint shows it to be (unlike lead and most of the other paints) free from poison. It will not blacken or discolor by the action of the sulphurous gases so prevalent on our marshy rivers and coasts. 5th. Requires no skilled painter. Any one can apply it.
