THE SENTINEL.

THE CONSTITUTIONAL AMENDMENTS.

In order that the people may vote understandingly on the amendments to the constitution, at the ensuing election, we deem it necessary to give in full the eight clauses in that instrument proposed to be altered, together with the alterations themselves.

FIRST: IN RELATION TO THE PUBLIC DEBT.

The present constitution in Article I, Declaration of Rights, provides as follows:

"Sec. 6. To maintain the honor and good faith of the State untarnished, the public debt, regularly contracted before and since the rebellion, shall be regarded as inviolable and never be questioned; but the state shall never assume or pay, or authorize the collection of any debt or obligation, express or implied, incurred in aid of insurrection, or rebellion against the United States, or any claim for the loss or emancipation of any slave."

This section is amended by striking out the first clause down to and including the wort "but," so that the amended clause in in Article I will then read:

"Sec. 6. The State shall never assume or pay, or authorize the collection of, any debt or obligation, expressed or implied, incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave."

Another alteration in regard to the public debt is provided for in the same amendment, by striking out section 4, Article V of the present Constitution, which is as follows:

"Sec. 4. The General Assembly shall, by appropriate legislation and by adequate taxation, provide for the prompt and regular payment of the interest on the public debt, and after the year 1880, it shall lay a specific annual tax upon the real and personal property of the State, and the sum thus realized shall be set apart as a sinking fund, to be devoted to the payment of the public debt."

So that the above section will be entirely stricken out and the amended Constitution will not make it compulsory on the Legislature, by express language, to provide for the payment of interest and principal of the public debt.

SECOND: IN RELATION TO THE OFFICE OF SUPERINTENDENT OF PUBLIC WORKS.

Article III, section 1, of the present Constitution names among the other officers of which the Executive Department shall be comprised, a Superintendent of Public Works, who shall be elected for a term of four years by the qualified voters of the State, at the same time and places, and in the same manner as members of the General Assembly.

The amendment proposes to strike out the words "Superintendent of Public Works" wherever they occur in the Constitution, thus abolishing that office.

THIRD: IN RELATION TO THE STATE CENSUS.

In the present Constitution, Article II, the following provision is made for taking a State Census:

"Sec. 5. An enumeration of the inhabitants of the State shall be taken under the direction of the General Assembly in the year one thousand eight hundred and seventy five, and at the end of every ten years thereafter; and the said Senate Districts shall be so altered by the General Assembly, after the first session after the return of every enumeration taken as aforesaid, or by order of Congress, that each Senate District shall contain as near as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The amendment proposed to this article is to strike out all that precedes the words, "the said Senate Districts," in section 5, and to strike out the phrase "as aforesaid, or," the parts so stricken out relating to the census, so that the section as amended will read:

"Sec. 5. The said Senate Districts shall be so altered by the General Assembly at the first session after the return of every enumeration taken by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The object of this amendment is to do away with the unnecessary expense of taking a State census under the direction of the General Assembly, inasmuch as the same work is done by the National Government.

FOURTH: IN RELATION TO EXEMPTIONS FROM TAXATION.

The present constitution, Article V, Revenue and Taxation, provides as follows:

"Sec. 6. Property belonging to the State or to municipal corporations, shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, literary, charitable or religious purposes; also wearing apparel, arms for muster, household and kitchen furniture, the mechanical and agricultural implements for mechanics and farmers, libraries and scientific instruments, to a value not exceeding three hundred dollars."

The amendment proposes to change this section by inserting after the word "instruments," the words "or any other personal property," so that the section as amended will read:

"Sec. 6. Property belonging to the State or to municipal corporations shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, literary, charitable or religious purposes; also wearing apparel, arms for muster, household and kitchen furniture, the mechanical and agricultural implements of mechanics and farmers, libraries and scientific instruments or any other personal property, to a value not exceeding three hundred dollars."

FIFTH: IN RELATION TO THE UNIVERSITY.

The present constitution, Article IX, has the following on the subject of the University at Chapel Hill:

"Sec. 3. The University of North Carolina, with its lands, emoluments and franchises, is under the control of the State, and shall be held to an inseparable connection with the free public school system of the State."

The amendment proposes to strike out this section entirely, thus severing the University from the common school system, and insert the following in lieu thereof, so that the amended constitution shall read:

"Sec. 3. The General Assembly shall have power to provide for the election of trustees of the University of North Carolina, in whom when chosen shall be vested all the privileges, rights, franchises and endowments heretofore in any wise granted to or conferred upon the trustees of said University; and the General Assembly may make such provisions, laws and regulations, from time to time as may be necessary and expedient for the maintenance and management of said University."

The followinging sections of Article IX, relating to the University, are also stricken out:

Sections 13, 14 and 15, relating to the appointment of trustees by the Board of Education, and the officers powers and rights of the trustees. These matters will hereafter devolve on the Legislature, if the amendment relating to the University is ratified.

SIXTH: IN RELATION TO THE SESSIONS OF THE GENERAL ASSEMBLY.

The present constitution, Article II, Legislative Department, provides as follows:

"Sec 2. The Senate and House of Representatives shall meet annually on the third Monday in November, and when assembled shall be denominated the General Assembly."

This section is to be amended by striking out the word "annually," and inserting in lieu thereof the word "biennially," so that the section shall read:

"Sec. 2. The Senate and House of Representatives shall meet biennially on the third Monday in November, and when assembled shall be denominated the General Assembly."

This amendment also strikes out the word "annually" in section 6, article III, and inserts the word "*biennially*," in reference to the requirement of the Governor to communicate to the General Assembly each case of reprieve, commutation or pardon.

SEVENTH: IN RELATION TO THE CODE COMMISSION.

The present Constitution, article IV, Judicial Department, makes the following provisions concerning the Code Commissioners:

"Sec. 2. Three Commissioners shall be appointed by this Convention to report to the General Assembly at its first session after this Constitution shall be adopted by the people, rules of practice and procedure in accordance with the provisions of the foregoing section, and the Convention shall provide for the Commissioners a reasonable compensation.

Sec. 3. The same Commissioners shall also report to the General Assembly as soon as practicable, a code of law of North Carolina. The Governor shall have power to fill all vacancies occurring in this commission.

The amendment proposes to strike out both these sections, abolishing the Code Commission.

EIGHTH IN RELATION TO FEDERAL AND OTHER OFFICE-HOLDERS.

The present constitution, Article XIV, provides as follows:

"Sec. 7. No person shall hold more than one lucrative office under the State at the same time: *Provided*, That officers in the Militia, Justices of the Peace, Commissioners of Public Charities and Commissioners appointed for special purposes, shall not be considered officers within the meaning of this section."

The amendment proposes that this section shall read as follows:

"Sec. 7. No person who shall hold any office or place of trust or profit under the United States, or any department thereof, or under this State or any other State or Government, shall hold or exercise any other office or place of trust or profit, under the authority of this State, or be eligible to a seat in either House of the General Assembly: *Provided*, That nothing herein contained shall extend to officers in the Militia, Justices of the Peace, Commissioners of Public Charities or Commissioners for special purposes."

There were eighteen amendments originally proposed, but the eight above specified were all that passed the General Assembly by the requisite two-thirds majority.

These eight amendments are to be submitted separately for ratification or rejection, at the election to be held on Thursday, the seventh day of August. Any person qualified to vote may vote for or against each amendment, with a written or printed ticket with the words "For Amendment," or "Against Amendment." The amendments that receive a majority of the popular vote will be duly ratified. A part or all of them may be either ratified or rejected.—*News.*

WILSON'S AMMONIATED SUPER PHOSPHATE OF LIME.
We are prepared to introduce more extensively than we have ever been the above named valuable FERTILIZER. We propose to place the same in the hands of good and reliable merchants at various accessible points, where we can feel that a reliable standard fertilizer can and will be appreciated.
We have sold and used this fertilizer for the past four years. It has no superior now in use, being not only cheaper than the genuine Peruvian Guano, but far superior. We shall be pleased to open correspondence with good and reliable merchants at various points in our agricultural districts, where fertilizers are a staple in farming and of the same they pay. With proper efforts to make their farms pay.

DIAMOND SPECTACLES.

The Spectacles are manufactured from "Minute Crystal Pebbles" melted together, and are called Diamond on account of their hardness and brilliancy. It is well known that Spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent. less heated rays than any other pebble. They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles. Manufactured by the Spencer Optical Manufacturing Company, New York. For sale by responsible agents in every city in the Union.
H. Mahler, Jeweler and Optician, is sole Agent for Raleigh, N. C., from whom they can only be obtained. No peddler employed.

SWAMP LANDS FOR SALE
The following Swamp Lands in North Carolina are offered for sale:
Big Swamp in Robeson, 14,000 acres;
White and Brown Marsh in Columbus and Bladen, 24,000 acres;
Holly Shelter in New Hanover, 36,500 acres;
Angola Bay in New Hanover and Duplin, 30,000 acres;
White Oak in Jones and Onslow, 85,000 acres, subject to the right of the Planter's Railroad Company, to alternate sections thereof upon completion of the railroad through said swamp;
Open Ground Prairie in Carteret, 5,000 acres;
Dover Swamp in Craven, 75,000 acres;
Cut Fish in Craven, 8,500 acres;
Bay River in Beaufort and Craven, 45,000 acres;
Swamp Lands in Dare county,—Roanoke Island, 7,000 acres.
Sealed bids will be received for any one or more of the above named Swamps, until the 15th day of September, 1878. The land will not be sold in small parcels.
Each bidder should state all the terms of his bid—how much he will pay cash, and the time within which the deferred payments will be made; whether he will survey the land himself and pay a certain price per acre, or pay a fixed price for any one or more swamps without survey, or require the board of Education to make the survey.
Every letter containing a bid should be addressed to the undersigned with the words "Bid for Swamp Lands" endorsed upon it.

DOUBLE ACTING FORCE PUMPS.
KITCHEN BROS.
(SUCCESSORS TO CAROLINA PUMP COMPANY, LOCATED IN RALEIGH)
ARE PREPARED TO FURNISH AT short notice the Kitchen Pumps of various sizes with Porcelain Cylenders which can't injure the water. This is a submerged deep well pump, now in use 2½ years without even the expense of new packing. We make 4 sizes, capacity 50 to 150 gallons waters per minute, working in every conceivable way and by the use of hose which can be attached in half a minute, these pumps at once become a hand Engine of great power, throwing water on the roof of three story buildings, with one man, and they will stand four to six men safely. We have not heard of one of them being overcome by fire and yet they have been tested by over fifty fires, saving over $500,000 worth of property. For ordinary use children work them easily if set up by our printed directions, and if so set we warrant them 12 months. Our Double Suction and Force Globe Pumps, also invented by J. L. Kitchie is capable of being used as a drive well pump and is well adapted to steamers and vessels of any class, one man can throw water on the roof of 3 story buildings. But it has a double ended lever and with four men is a very superior hand Engine. The No. 2 Globe Pump is 12 inches in Diameter with 1¼ suction and 1¼ discharge pipe and throws 80 to 100 gallons per minute, according to speed. The No. 3 Globe 7 inches in Diameter, 1 inch suction and 3/4 of an inch discharge pipe, capable of 25 to 60 gallons per minute. These Globe Pumps we make of castiron for common use, brass for salt water and block tin for the inside of boilers for drinking water. They lift the water 25 feet perpendicular, and you can sit in the house and draw water from springs or wells at great distances.
All kinds of steam and water pipes fitted at short notice; hose, hose pipes and couplings furnished here, &c.
Send for price list. The entire depth of wells with good references must accompany all orders.
Some few of these pumps have not given satisfaction but in each case it has been attributable to the maker and not the principle of the pump. We are now employing the best mechanics only and determined to have none other.
