## VALUABLE LANDS FOR SALE.

I WILL sell 230 Acres of very good Farm Lands on the Cape Fear River adjoining the Walker Bluff Lands, known as the Brown Place. The Dwelling is quite a good log house, but in a most beautiful young oak grove; the Out-houses are very good. There are about 3000 Turpentine boxes on it, which were cut last winter. Scattered oak hogshead staves can be got on it, and a good deal short ton timber.—There is enough of this Plantation under cultivation to produce from 3 to 400 bushels corn up and low lands together. A very fine field could be cleared on it, of oak, hickory and dogwood land—besides there is a swamp of some ten acres of as rich land as can be found anywhere, though subject to overflow from the river. This place is more highly recommendable on account of its healthfulness, the Dwelling having been used for many years as a Summer residence; and I believe there never has been any sickness whatever on it. The Dwelling is within a mile and a half of the Bladen (mineral) Springs.

ALSO,

425 Acres of elegant Turpentine Land on the Colly Swamp, about 5 miles from the Cape Fear, and not so far from South River. There are about 7000 boxes now tending, and some very choice ton timber can be made on it. It lies near F. C. Lewis and others. I can be seen at my office any time.

The Clasical courses will preclude several of the foregoing English studies. Such of them, however will be retained as are most useful for practical purposes; for mental discipline the Classics being regarded equal to the exact sciences, and in formal Education, preferable.

Suitable apparatus for illustrating the principles of experimental science together with maps, charts, and globes, will be provided, as the wants of the institution may require.

By referring to the above course, it may be seen what amount of previous training is requisite to enter either of the four classes, and as no small an amount is required to enter the first class, no pupil will be permitted to enter the course without first standing an approved examination on Orthography, Reading, Writing, Arithmetic and English Grammar.

For such as may be found deficient in these primary studies, a Preparatory Department will be provided, in which these branches, together with the elements of Geography, History and Physical Science, will be carefully and correctly taught, at $15 per session.

A record of the General deportment of each pupil and of her progress and improvement in study, will be made at the end of each week, and forwarded to her Parent or Guardian at the end of the month.

The Principal, who has been long and familiarly known to the citizens of Raleigh, and extensively known in the Eastern part of the State, does not deem it necessary to make any further statements than that the Institution will be under his conduct and supervision; that he has been careful to engage the assistance of teachers, who, in their several departments, are of acknowledged abilities and long experience; and so far to interest them in its general management, as to secure their undivided attention.

Twenty young ladies can be accommodated with board in the Institution. Every attention will be paid to their comfort and to the formation of correct moral habits. Board may also be obtained in some of the most respectable families in the City.

THE ORIGINAL AND ONLY — GENUINE INDIAN MEDICINE.

SCARCELY has ten short years elapsed, since in a humble attempt was made to combine, in a suitable medical preparation, a few of the herbs of the Indian. All was dark at the time as to the result. The most that could be estimated was, that the principles adopted as the basis to build upon, were sound. So much reliance was placed upon calomel and the lancet, and the ill success of the experiment would have tended to confirm that reliance, while it shook the purpose of the projector.

Now, however, all doubt and difficulty are at an end. Every where this medicine has been greeted with welcome; every where has its use been attended with the most gratifying success. From small beginnings its sales are now counted by MILLIONS, and it is held in higher estimation at the present time, than when it was originally introduced.

CURE FOR FEVER AND AGUE

RUSSELVILLE, Putnam Co., Ia., July 17, '48.

*Dr. Wright*—Some time since, your agent left me a supply of your Indian Vegetable Pills. I have found said Pills to be in great demand lately, for the cure of Fever and Ague. Mr. James Boyd has a son who has been laid up with fever and ague, and had tried various other remedies, all of which proved of no avail. He determined to try your Indian Vegetable Pills, and by using one box, he is now sound and well. Mr. T. Spencer had a daughter, Mr. Hugh Groves a son, and Mr. Charles Nichols and three of his family were down at the same time with fever and ague, and had also tried the various other remedies without effect. Your Indian Vegetable Pills soon restored them to perfect health. I can assure you, from what I have seen, your Indian Vegetable Pills may be relied on for a permanent cure of fever and ague. Yours, respectfully,

JACOB DURHAM, P. M.,
Also, an acting Justice of the Peace.

This is to certify that I was entirely cured of the Chills and Fever, of several months standing, by the use of four doses of four pills each, of Wright's Indian Vegetable Pills, and after taking medicine from a regular physician for some time, and have had no symptoms of it since, which has been about one year ago. J. W. SPENCER.
Texas, Champaign county, Ohio.

This is to certify that I was cured of the Chills and Fever by the use of Wright's Indian Vegetable Pills, after having had three attacks of it.
