A Splendid Farm and Residence

IN THE COUNTY OF FRANKLIN

FOR SALE.

THE Subscriber, wishing to remove and devote his time to his profession, offers for sale, his Farm, lying on both sides of the road, leading from Louisburg to Warrenton, three miles from the former place, twelve miles from Jones' White Sulphur Springs and 15 from Shocco. The Tract contains

1500 ACRES

of as GOOD LAND as can found in the county, in a high state of cultivation, and admirably adapted, to the successful culture of the best Tobocco, Cotton Corn, wheat &c. The plantation is nearly equally divided by a never failing stream, irrigating about 300 acres of as rich land, as avarice could desire. The upland is agreeably diversified by hill and dale, easily cultivated, and very productive. In fact there are few locations in North Carolina offering as many inducements to the intelligent agriculturist as this. The improvements consist of a large and commodious MANSION HOUSE containing 9 rooms, well built, and in excellent order, enshrined in a beautiful grove of magnificent oaks, every necessary out house, Tobacco Barns, Stables, Carriage-house, negro houses, brick spring house and a *Spring*, at whose gushing fountain, Hygeia, herself, might delight to linger. Situated in a high heathful region of country, abounding in the best and purest of water, in a neighborhood proverbial for intelligence, refinement, and morality; convenient to the famous Male and Female Schools, of Louisburg, it is believed this location is unsurpassed in this region of the "Old North State.

The Subscriber invites the attention of persons wishing to purchase, assuring them, that the terms shall be satisfactory. PETER S. FOSTER,

FOR SALE!

EAGLE HOTEL, CHAPEL HILL, N. C.—The Proprietress of this well known and profitable establishment, having realized a sufficient income to warrant her in resuming the quiet of private life offers to the public generally the opportunity of bidding for its advantages.

The citizens of the State are so well acquainted with the advantages of its position, that but few remarks are necessary, to complete their information.

The Hotel, itself, possesses all the requirements of room and comfort, which its purchasers can desire. It has capacity for the accommodation of one hundred and fifty boarders, and the recent and rapid growth of the University, adjacent, makes it an easy matter to possess constantly *such* or *even* a greater number of students.

In addition to this, the frequent travel through Chapel Hill gives the Hotel, (being the only one in the place) a transient custom equal to any in the State.

The lots and stables adjoining are extensive and commodious and the country-market supplies abundantly and on profitable terms much of its provisions.

The terms of sale require one third of the price to be paid on taking possession. A note with safe security and time of payment suited to the convenience of the purchaser, are the reasonable demands for the remainder.

If further information be desired concerning the inducements to purchase, the President of the University or any other resident of the village, will furnish it.

Possession can be obtained at any time, after the 1st of May. Apply to

Important to Millers and Mill-owners!

THE Undersigned would respectfully inform those engaged in the Milling business in North Carolina, that he keeps constantly on hand, and will supply at the shortest notice, that almost invaluable article,

Young's Improved Patent Smut and Screening Machine.

The only Machine of the kind that has stood the test and given satisfaction to the public. It has supplanted every Smut Machine yet offered in the State, more or less of which have been taken down to make room for it. The public need fear no imposition, as there are now some 280 Machines running in North Carolina; and I wish to offer no other references than the gentlemen who are using them, whose expectations have been more than realized in their performance. It not only thoroughly cleanses the Wheat of Smut, but also purifies it of all other substances, almost to perfection. It takes up but 4 feet square in the mill and requires but little power. It is warranted for five years against breaking or wearing out, and also to retain its cleansing qualities for that time.

There are a number of these Machines through which 100,000 bushels of Wheat have been cleansed and they have never been out of order one day.

There was awarded to it the Premium of the Maryland State Fair, and a Premium with a silver medal, at the Fair of the Maryland Institute, at Baltimore, last Fall.

Machine For

CRUSHING, GRINDING, AND PULVERIZING,

Recently Patented in this Country and Europe.

COCHRAN'S PLANEOSPHERICAL QUARTZ CRUSHING AND PULVERIZING MACHINES are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These Machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and results, are justly entitled to the consideration of all parties engaged in grinding, crushing and

PULVERIZING QUARTZ,

Iron Ore, Zinc, Copper and Lead Ores, and all other Mineral Substances.

It is the peculiar feature of the economy of these Machines that that they are found capable of crushing and pulverizing into the finest powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completetely ground and pulverized, that the gold may be easily separated, and subjected to any process of amalgamation that may be necessary.

The Machines work and deliver wet or dry, as may be required, and run with little friction (being almost without machinery), requiring no lubricating. The principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being pulverizing, from those required by the DRUGGIST to those of the most extensive operations in CALIFORNIA and AUSTRALIA.

The machines are from 2 to 12 feet in diameter, with balls or spheres from 3 inches to 5 feet in diameter, each machine weighing from 250 lbs. to 20 tons each, and are sold with the right to use them, at from $100 to $5000 each.

They can be worked by Steam, Water, Horse or Manual power, according to their size, and by changing the velocity and proportioning the weight on the top of the balls, any amount of power may be used, from that of a single man or horse upward

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of those Machines over any other, for crushing, grinding or pulverizing heretofore offered to the public.

These Machines may be seen in operation at foot of South 8th street, Williamsburg, at the large Patent Block and Saw Factory of Messrs Burr, Waterman & Co, first street south of Peck Slip Ferry, every day, from 7 to 9 A. M. and from 4 to 6 P. M. For Particulars apply to
