FOR SALE!

EAGLE HOTEL, CHAPEL HILL, N. C.—The Proprietress of this well known and profitable establishment, having realized a sufficient income to warrant her in resuming the quiet of private life offers to the public generally the opportunity of bidding for its advantages.

The citizens of the State are so well acquainted with the advantages of its position, that but few remarks are necessary, to complete their information.

The Hotel itself possesses all the requirements of room and comfort, which its purchasers can desire. Its capacity for the accommodation of one hundred and fifty boarders, and the recent and rapid growth of the University adjacent, makes it an easy matter to possess constantly some of the greater number of students.

In addition to this, the frequent travel through Chapel Hill gives the Hotel, being the only one in the place a transient custom equal to any in the State.

The lots and stables adjoining are extensive and commodious and the country-market supplies abundantly and on profitable terms much of its provisions.

The terms of sale require one third of the price to be paid on taking possession. A note with safe security and time of payment suited to the convenience of the purchaser, are the reasonable demands for the remainder.

If further information be desired concerning the inducements to purchase, the President of the University or any other resident of the village, will furnish it.

Possession can be given at any time, after the 1st of May. Apply to

Machine For

CRUSHING, GRINDING, AND PULVERIZING.

Recently Patented in this Country and Europe.

COCHRAN'S PLANEOSPHERICAL QUARTZ CRUSHING AND PULVERIZING MACHINES are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical test proposed by parties interested.

These Machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and results, are justly entitled to the consideration of all parties engaged in grinding, crushing and

PULVERIZING QUARTZ,

Iron Ore, Zinc, Copper and Lead Ores, and all other Mineral Substances.

It is the peculiar feature of the economy of these Machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the gold may be easily separated, and subjected to any process of amalgamation that may be necessary.

The Machines work and deliver wet or dry, as may be required, and run with little friction (being almost without machinery) requiring no lubricating. The principle upon which they operate precludes the possibility of their being put out of order: nor do they heat any material while being pulverizing, from those required by the DRUGGIST to those of the most extensive operations in CALIFORNIA and AUSTRALIA.

The machines are from 2 to 12 feet in diameter, with balls or spheres from 3 inches to 5 feet in diameter, each machine weighing from 250 lbs. to 20 tons each, and are sold with the right to use them, at from $100 to $5000 each.

They can be worked by Steam, Water, Horse or Manual power, according to their size, and by changing the velocity and proportioning the weight on the top of the balls, any amount of power may be used from that of a single man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these Machines over any other, for crushing, grinding or pulverizing heretofore offered to the public.

These Machines may be seen in operation at foot of South 8th street, Williamsburg, at the large Patent Block and Saw Factory of Messrs. Burr, Waterman & Co., first street south of Peck Slip Ferry, every day, from 7 to 9 A. M. and from 4 to 6 P. M. For Particulars apply to

JUST received at the North Carolina Music Store a new and beautiful lot of Rosewood Pianos, with 6 6½ 6¾ and 7 octaves, selected by myself and which are warranted for five years. They are of superior tone, having the Iron frame which will last longer than those made with wooden frames and stand better in tune, which I will sell at low prices.
