Weather Report for February.

The weather report of the Asheville Signal Station for the month just ended, and which is subjoined, shows a somewhat lower temperature than that recorded for January. On the other hand, however, a much greater rainfall, better humidity and exceptionally fair state of the weather is exhibited. Barometric indications also make a good showing, and upon the whole the report is fully up to the excellent average of preceding months.

KARL VON RUCK, B. S., M. D., Observer.

BULLETIN NO. 62.

Of Interest to Farmers and Dealers in Fertilizers.

Mr. H. B. Battle, Director of the North Carolina Experiment Station, announces that bulletin No. 62 of the Experimental Station will be issued during the present week, and will contain analyses of all fertilizers sampled by the official inspectors during January and February 1889. This list is issued nearly three weeks earlier than ever before, and will embrace analyses of nearly all the licensed brands of fertilizers as far as it is possible to procure samples.

The valuations for this season are higher than for last year, owing to the fact of an advancement in price of all ingredients composing fertilizers—so far as is known—independent of each other, and are:—For available phosphoric acid 7c per pound against 6c for last year, ammonia 17c against 15c, and 6c for potash against 5c for last year. These valuations are for the raw ingredients composing the fertilizers after cost of mixing, bagging, handling, etc., is added. The relative commercial value of the fertilizers therefore represent approximately the price at which the fertilizer can be bought at the ports in small lots, under five tons, for cash. Of course, at interior points, freight charges must be added to seaboard valuation.

Bulletin 62 will contain also a revised and correct list of all brands of fertilizers for sale in the State, together with date of expiration of each license; also regulations in regard to the fertilizer control, and other matters pertaining thereto, with which the farmers and dealers should become more fully acquainted.

Write to the Experiment Station for Bulletin No. 62.

The Avoca Health and Sporting Resort.

A charming prospect of unusual enjoyment is in store for us, by virtue of an invitation received yesterday morning from Hon. W. L. Saunders, Secretary of State, and Messrs. P. M. Wilson, R. S. Tucker and Octavius Coke asking us to be present at the opening exercises of the Avoca Health and Sporting Resort, on April 16, 17, 18 and 19.

This delightful resort is located on the Albemarle Sound, at the mouth of the Chowan river, and is famous as being the very best fishery in the waters of North Carolina.

We have long wished for an opportunity to inform ourselves of the fishing interests of North Carolina. The description of subjects worthy of note in this grand old State is a task requiring a better pen than ours, but no one can be found who more fully appreciates North Carolina from east to west, from "Pasquotank, where bullfrogs jump from bank to bank" to Cherokee, where we have another invitation to visit Chief Smith, of the Cherokee Indian reservation.

Our readers, we hope, will bear with us patiently when we return from both of these trips, for our heart will be fuller than ever with State pride; and, out of the abundance of the heart the mouth must speak.

Thanks, gentlemen; depend upon it, we accept the invitation most joyfully.

Waynesville Whispers.

[Waynesville Courier.]

G. S. Ferguson & Son, have opened a real estate office in the court house.

Waynesville's future is bright. With her natural superior advantages, she is bound to prosper.

Several cases were docketed in the magistrate's court last Saturday, against parties for failing to work the road.

Two or three old cranks have stopped their paper, thinking they can save $1.50 by borrowing from their neighbors.

Six inches of snow fell Friday night, covering old mother earth with a mantle of white. This is the first winter we have had this season.

If the David Allison State grant, covering 250,000 acres of land, can be stretched so as to make it cover more than 9,000,000, why not get our representatives to pass an act letting it reach over into Alaska and cover some of the fine gold deposits recently discovered in that dark corner of the public domain.

DISCOUNTS EXTRAORDINARY!

For those whose incomes are abundant to satisfy all demands on theft the following will have little interest, but—some of us belong in another category. For the remainder of the season a large discount on Clothing for Men and Boys, Overcoats, Wraps for Ladies, Misses and Children, Men's and Boys' Boots, and certain lines of Children's Stout Shoes. These embrace some very stylish goods, which consumers will get at a trifling advance on cost, while on some others—not so stylish—the price will be far below New York cost.
