

# Together We Have Begun

## CAMPAIGN TOPS \$5.2 MILLION DONORS EXCEED 700

The response to the latest campaign letter has been tremendous. As you can see by the list of new contributors to the campaign, our numbers are growing. The campaign is now **\$5,203,972** and we have **712** Donors.

If you have not responded to the letter, please do so now. I would be happy to talk to you about the Project and what you can do.

— Harry Swimmer

## Foundation Update ....

As major site work continues to move ahead at an excellent pace, so have contributions and the level of the capital campaign. Harry Swimmer, Capital Campaign Chair, proudly announced that the number of pledges has passed the 700 mark, "and seems to be increasing faster each day as people can see that construction is actually under way." The \$5.2 million still needs to increase to

\$5.6 million according to Swimmer, but he feels confident that, "our community will continue to show its support and do what is necessary to build everything we deserve to have."

As bulldozers and other earth moving equipment continue to clear the land and to shape the site for roads, play fields and the building location, the architects are rapidly completing the

drawings necessary in order to obtain bids on the building. "They are working almost round the clock," says Building Committee Chair, William Gorelick. "The results of their efforts are very encouraging. We are trying to share their ideas and plans with the many committee members who have been a part of the building process. We are all pleased with the flexible way in which

the firm of Dellinger and Lee has responded to our recommendations and made requested changes."

The schedule calls for the JCC outdoor facilities (tennis, athletic fields) to be completed in the fall of this year. The target date for completion of the entire facility is the late Spring of 1985.

The offices of the Federation and the Foundation are expected to move to the

Armstrong House on the property some time this Spring. "We want to be close to the work," says Marvin Bienstock, Foundation/Federation Director, "so we can both watch over the progress and make it possible for the community to see what is being accomplished first hand - right from the windows of the Armstrong House."

## Flash!!!

### ON THE SITE

1. The grading is proceeding
2. Pond is drained  
Will be compacted & filled to prepare the building pad for construction to begin.
3. Drawings & selections of materials almost complete.
4. Construction documents 90% complete.
