MARKET NEWS

NEW YORK MARKET DULL BUT BROAD

NEW YORK, Dec. 7.—Rails, shipping, steels, motors and oils were the features of today's dull but fairly broad stock market, pools abandoning specialties, notably tobaccos.

The demand for rails converged largely around low priced issues such as Texas Pacific, Missouri Pacifics and St. Louis and San Francisco common and preferred the former displaying especial activity at an advance of 3 points. Canadian Pacific was the only investment of high grade transportation to display more than moderate strength, other trans-continentals, grangers and coalers closing at nominal gains or losses.

Marine common and preferred and Pacific Mail featured the shippings, rising 1 to 2 points. United States Steel soon threw off its initial heaviness, gaining slightly over a point. Petroleums were steady to firm and Stutz repeatented the motors, gaining 1¾.

Utilities were irregular on the heaviness of American Telephone, Brooklyn Transit and Interborough Consolidated, and the better known specialties were dull, mostly at slight gains.

The bank statement presented no changes of striking interests, except for an increase of slightly more than $47,000,000 in actual loans and a gain of almost $6,500,000 in excess reserves, the latter, however, hardly offsetting last week's heavy contraction.

Further weakness in Liberty issues marked the trading in bonds, the fourth 4¼'s failing to a new low price at 95.82 and the 3½'s repeating the year's minimum at 97.20. Total sales, par value, aggregated $4,875,000. Old U. S. bonds were unchanged on call during the week.

WASHINGTON, Dec. 7.—Discount operations of the federal reserve banks this week resulted in an increase of $45,000,000 in bills on hand, while deposits of member banks rose $53,000,000.

NEW YORK COTTON SHOWS REACTIONS

NEW YORK, Dec. 7.—There were reactions in the cotton market today with January fluctuating between 26.50 and 26.90, and closing at 26.55 compared with 27.43, the high level of yesterday. The general list closed steady at net declines of 45 to 70 points.

The market opened easy at a decline of 43 to 55 points under realizing and hedge selling which was probably against the increased business reported in southern spot late yesterday. These initial offerings were readily absorbed by a broadening commission house demand and trade buying which was encouraged by talk of an improving export demand and bullish southern spot prices. December sold up from 27.80, the low points to 28.05, while march rallied from 25.25 to 25.83 with active months selling back to within 12 to 20 points of last night's closing figures. Realizing continued, however, and the market eased off again in the late trading, closing at about the lowest point of the day on most positions.

After the advance of nearly 3 cents per pound from the low level of last Monday, local brokers had anticipated considerable realizing for over the week-end and were disposed to attribute the decline chiefly to selling of that sort. Some attention was attracted by reports from the goods trade that French and Belgian commissions had purchased quantities of goods that had been held for the war department. Otherwise, reports from the goods trade were considered rather unsettling, as mill production was said to be curtailed in some section to prevent accumulations of goods.

Reports that the ship control committee of the United States shipping board have tendered resignations to take effect January 1, were considered a further indication of the gradual improvement in shipping conditions.

Sales reported at the leading southern spot markets on the advance of Friday showed a very substantial increase, aggregating about 27,000 bales. A southwestern authority issued a revised crop estimate placing the yield at 11,120,000 bales, excluding linters.

NEW ORLEANS COTTON.

NEW ORLEANS, Dec. 7.—Lower prices were caused in cotton today by liquidation partly the natural result of the bullish operations of preceding sessions of the week and partly stimulated by the small mill takings. On the first call the near months were 15 to 20 points up but after the call offerings increased and a quick break resulted. At the lowest levels the active months were 38 to 51 points under the close of yesterday, last prices showed net losses of 35 to 48 points.

Hester made mill takings of American cotton this week 342,000 bales against 434,000 this week last year. Bullish traders contended that this was offset by the insignificant increase in the visible supply this week and the fact that for the first time this season the visible is less than at the corresponding date last year.

Spots were marked up 25 points which carried middling up to 28.88. At the lowest of the day January traded at 26.10.

The strength of spots made for a steady tone on the close by stimulating a moderate amount of new buying for long account.

NEW YORK CATTLE.

NEW YORK, Dec. 7.—Beeves, no trading.

Calves steady; veals 20.00; western calves 9.50@11.62.

Sheep and lambs firm; lambs 15.00@15.75; culls 11.00; sheep 6.00@9.50; culls 5.00@5.50.

CLEARING HOUSE BANKS.

NEW YORK, Dec. 7.—The actual condition of clearinghouse banks and trust companies for the week shows that they hold $70,616,670 reserve in excess of legal requirements. This is an increase of $6,435,920 from last week.
