She Surprised the Undertaker.

On Tuesday, Dec. 5th, in Pennsylvania, Mrs. Samuel Remen died, and an undertaker was called in by the family. He measured the body, put crape on the door and next morning as it was necessary to keep the body until the arrival of some relatives, he prepared to use embalming fluid. He was busy about the room, when to his surprise the supposed corpse sat upright on the slab. The undertaker left at once. After he reached the street he regained his senses and kept on to a doctor's house. The physician hurried to the house and found the woman alive surrounded by her family. She was very weak, but he says she will live. The woman was only ill two days and was supposed to have died very suddenly.
