SALE OF THE LOTS OF CAROLINA CITY, at the terminus of the great Central Railroad of North Carolina on BEAUFORT HARBOR, on Thursday, November 12, 1857.
Carolina City is situated on an elevated plain, 214 feet above tide water, immediately on the waters of Beaufort Harbor. This location for a great commercial city, was selected by men of commercial experience, after a full examination of all the lands on the Harbor of Beaufort, in anticipation of the construction of the great Central Railroad, from said Harbor through the State of North Carolina, connecting with the lines of the Railroads of Tennessee, coming east from Memphis on the Mississippi; and also in anticipation of the construction of a Railroad from Carolina City, through the counties of Onslow, Duplin, Sampson, and the town of Fayetteville, to the Coal Fields on Deep River.
The Atlantic and North Carolina Railroad from Carolina City to Goldsboro', will be opened by the 1st of January next. The North Carolina Railroad is in operation to the town of Salisbury, from which point the construction of the great Western Railroad through the mountains to the Tennessee line, is steadily progressing. The Railroad through Fayetteville to the Coal Fields has come since occupied the attention of the State, and doubtless will eventually be put in operation, that part between Fayetteville and the Coal fields being in rapid course of construction. The completion of these great Railroads will carry the Agricultural and Mineral products of the State to one of the finest harbors on the southern coast, and must at an early day build up on its waters a flourishing city.
All the agricultural regions of the State not penetrated by said Railroads, have an easy communication with Beaufort Harbor by Navigable Rivers and Sounds.
Of the Harbor at Beaufort, we believe it is unnecessary now to speak; the depth of its waters, its proximity to the Gulf Stream, the high way of ships, and its capacity for all commercial purposes, are not only well known to every North Carolinian, but have attracted the attention of the country generally.
The Carolina City Co. believe that the advantages of the location, which they have selected, are many.—Their land is a high and level plain, looking Southward upon the Ocean, its wells and springs of the purest water, and the salubrity of the climate is so well known that Beaufort is believed to be the most healthy watering place on the southern coast.
At this location, the channel for ships bends in near the shore and runs parallel with it along the whole front of the City, making the construction of wharves cheap and easy; the Harbor and wharves at Carolina City, being a short distance from the mouth of Bogue Sound and Newport River, and immediately in front of the Inlet, are sheltered to the violence of storms, and yet a ship may sail from the Railroad wharf in Carolina City and in thirty minutes be at sea.
There are some of the advantages which determined the selection of the location of Carolina City, and no great confidence had the company in the superiority of those advantages, that they subscribed, and paid in $25,000 to the Capital Stock of the Atlantic and North Carolina Railroad Company, which was the only subscription made upon the faith of real estate on the Beaufort Harbor.
Plans of the Harbor of Beaufort, exhibiting the location of the Atlantic and North Carolina Railroad and Carolina City, may be seen at all the principal Hotels in the State.

BY GODDIN & APPERSON, AUCTS.-- TO THE PUBLIC.—ALLEGHANY SPRINGS FOR SALE.—Having determined to change my residence, I offer for sale, on THURSDAY, the 29th day of October, at the office of Messrs. Goddin & Apperson, at 11 o'clock, A. M., in the city of Richmond, one-fourth (my interest) of the Alleghany Springs Property, including Stock, Furniture, and everything connected with it. There are about 500 acres of land attached to the Springs, with Saw Mill, containing both mash and circular saws, about 7 miles distant. In advertising this Property, I deem it unnecessary to enter into a lengthy description of its value, as it is known to the thousands who have visited it, as the most valuable mineral water in the world. The improvements are such as will accommodate *five hundred* persons, and have been erected within the last four years. It lies in the county of Montgomery, within 2½ miles of the Va. and Tenn. Railroad, and is reached with ease from Richmond and Petersburg in one day. After the connection is made with the Tennessee Railroad, the only difficulty will be to have accommodations for the thousands who will flock in from the West. There has not been in the history of mineral water, any which within so short a time has gained so enviable a reputation, each season establishing its claims upon public favor. The virtue of this mineral water is acknowledged by all medical gentlemen who have seen its operations and effects upon persons using it.
Taking it for granted that persons having any idea of buying will either visit the place, or seek information in regard to it from such as are competent to impart it, I consider any further description unnecessary.
The Property will be sold at the time above mentioned, without reserve, unless sold privately before, and if sold, due notice will be given.
Any one wishing to buy the entire Property can do so privately, by application to me.
The terms of the sale will be: Ten thousand dollars the first day of January, 1858, and the balance in one and two years, with satisfactory security.
My address is Liberty, Bedford County, Va.
