BOTANIC BLOOD BALM

Kenesaw, Ga., Sept. 11th.

B. B. B. Company: My Dear Sir—I take pleasure in adding my testimony to the great benefit my wife has derived from your great and wonderful medicine, B. B. B. For two years she was a great sufferer from scrofula, or a blood disease which had lain dormant all her life. We had attention from some of the most skillful physicians in the country, but all to no effect, until we had despaired of her ever recovering. Her mouth was one solid ulcer, and for two months she could not hold her body, was broken out with sores, and she lost a beautiful head of hair, almost golden and even brown; in fact she seemed to be a complete wreck. Now comes the great secret which I want the world to know. That three bottles of Blood Balm medicine has done the work which would seem incredible to any one who did not know it to be so. To-day my wife is perfectly healthy, and free from any scrofulous taint, and she now has a three months old baby, also perfectly healthy. Very respectfully, H. L. CASSIDY.

NEXT OF THE WAR SHIPS.

The Cruiser Raleigh to be Launched at the Norfolk Navy Yard.

The next of our new war ships to be launched is the steel cruiser Raleigh, now awaiting that ceremony at the Norfolk navy yard.

The Raleigh is a twin screw, protected steel cruiser, having a length on load line of 300 feet, and extreme breadth of 43 feet and a mean draught of 18 feet, says the New York Sun. Her displacement is 8,185 tons. The aggregate indicated horse power of her engines is to be 18,000, and this is to give her a speed of 19 knots, while it is possible it may be nearer 20.

The engines are triple expansion, vertical, inverted and direct acting, with a high-pressure cylinder 36 inches, an intermediate 55 inches and two low pressure 57 inches in diameter, the stroke being 33 inches. The collective horse power of these and the smaller engines is 10,000 at 164 revolutions. The condensers have each 7,000 feet of cooling surface. There are four double-ended and two singled ended boilers in water tight compartments. Two of the main boilers are 13 feet 4 inches in diameter and 20 feet [illegible] inches long, and the other two are 14 feet 6½ inches by 20 feet [illegible] inches long. The two auxiliary boilers are 11 feet 2 inch in diameter by 9 feet ½ inch in length. The working pressure is 160 pounds. The total heating surface is 19,392 square feet and the grate surface 587 square feet.

Turning now to her armament, the main battery of the Raleigh will consist of one 6 inch rifle and ten 4 inch or else 5 inch rapid fire guns. Originally the latter were to be 4 inch guns weighing about 1½ tons each, and the substitution of 5 inch guns, which has since been reported, would require a reduction of about fifteen tons in the weights elsewhere in the ship. The 6-inch gun is mounted on the forecastle, and the others are distributed as shown in the illustration, all being on center pivot mounts, protected by steel shields. The secondary battery will consist of eight 6 pounder and four 1 pounder rapid fire guns and two gatlings. There are also six torpedo tubes, about four feet above the water, one fixed in the bow, one in the stern and the other four, which are training tubes, are on each broadside.

Depot With all its Contents Burned.

Salisbury Herald: About 12 o'clock last night the depot house at Catawba station was burned. Agent Reister who had his sleeping room in the building narrowly escaped with his life. The fire had made a strong headway and had almost reached his bed room before he woke up. The freight in the building was all consumed. The flames were discovered too late to save anything. Fortunately for the company no cars were standing on the side track. Origin of the fire not known by our informant. This morning's train was delayed a few minutes on account of the fire.

Colored Men Prepared to Protest.

CHICAGO, Jan. 17.—The colored men of United States have been engaged for some time in preparing a protest against the loan or appropriation of $5,000,000 by the Government in aid of the World's Fair. This protest will be presented when the matter comes up before Congress. R. A. Dawnson, of this city, who was at one time a member of the Arkansas legislature, has the matter in charge. He said to-day: "The Fair is run as a close corporation and we are preparing to prove it. We were refused representation upon the board of directors and national commission. We will not stand such treatment."

The Northern Pacific Exonerated.

At the inquest of the bodies of Mrs. Edward Andrews and Miss Lillie Wallace, killed in the Brainerd disaster, the jury returned a verdict completely exonerating the Northern Pacific Company and its employes from any blame in the railroad accident of Friday morning. All the injured are resting well and will recover.

Archbishop Ireland Sails for Havre.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Burwell & Dunn, wholesale and retail, and by Jordan & Scott's, wholesale drugstores.

MOVING UPON WASHINGTON.

Delegates to Urge Claims for the Democratic National Convention.

INDIANAPOLIS, Jan. 17.—The delegation which will represent the claims of this city before the national Democratic committee on Thursday next and try to secure the national Democratic convention, comprising seventy-five of the most prominent citizens and business men, left this city in two special cars over the Pennsylvania road to Washington.

The party was accompained by a number of the State's most distinguished men, including Senator D. W. Voorhees, Hon. Charles L. Jewitt, John E. Lamb, and Judge J. C. Nelson. They left with high hopes of success. The committee goes prepared with statistics to show that it is abundantly able to take care of the convention as to providing hotel accommodations and with the plans for a convention hall which will seat 15,000 people.

DETROIT, Mich., Jan. 17.—Detroit does not propose to stand idly by and see some other city get the Democratic convention. So far, $30,000 has been subscribed and enough pledged to make it $50,000.

A committee of twenty-seven will leave Monday for Washington, headed by Gov. Winans, ex-Congressman Mayburry, W. E. Quinby, of the Free Press, Mayor Pingree, and other prominent men.

Considerable comment has been occasioned by the fact that President Cleveland's Postmaster General, Don M. Dickinson, who aspires to Senatorial honors in Michigan, has taken no part in the work, and is not one of the committee.

Facts Worth Thinking About.

THE RIGHT IN THE LIFE

☞ FIRST

Learn that all diseases are the result of fermentation and decay caused by living germs in the human system and whatever remedy will remove the cause and build up the health and strength of the patient is the one to use.

☞ SECOND

Don't forget that Wm. Radam's Great Discovery is the original and sole relia ble Microbe Killer (of which other similar sounding preparations are but feeble imitations) has cured more diseases than all other proprietary medicines put together.

☞ THIRD.

If you are sick or diseased, don't trifle with your health, but hold fast and insist on having Wm. Radam's MICROBE KILLER, which has cured thousands of all manner of diseases, such as Consumption, Catarrh, Indigestion, Rheumatism, Bowel, Kidney, Bladder and all manner of blood and skin diseases, &c., quickly, permanently and at a small cost.

When you have thought over these facts send stamp for full particulars and certificates of wonderful cures and investigate the virtues of this great wonderful remedy, which for years has stood alone and in advance of all other remedies ever placed before the public. It never fails when properly used. Try it and be convinced that it is the greatest remedy ever given to the world.

OPENING OF FALL SEASON, 1891

By the ever talismanic 3 P's { PUSH, PLUCK, and PERSEVERANCE,

I am enabled to lay before a kind public, which is ever ready to applaud "success," a comparative statement of cases and bales of goods sold and shipped by me during the months of June and July, for the three years respectively of 1889, 1890, and 1891:

1889,	June,	313	cases and	bales;	July	680.
1890,	"	461	"	" " ;	"	1017
1891,	"	519	"	" " ;	"	1459.

An increase in 3 years of over 100 per cent; and as these figures speak more eloquently than anything I could say, I simply point to them and say, "These are my jewels." And now a word to those merchants who have not yet bought:

Do not go North to buy—the times will not warrant it—but buy nearer home and often. I offer you as good a selection of goods as, and warrant prices with, any market.

My lines are all ready for inspection. Send for quotations, or come in person, or let me send one of my salesmen to you. Respectfully,

S. Wittkowsky.
