Late Market Reports Complete

Cotton--Stocks--Grain--Provisions--Miscellaneous

New York Cotton

New York, Feb. 1.—The cotton market opened steady at a decline of 3 to 7 points on the old crop months, which were influenced by disappointing cables and 2 points higher on the new crop, which reflected support from Wall Street sources as a result of continued drouth complaints from the southwest. Recent buyers appeared inclined to take small profits, however, and the market during the early trading ruled barely steady with prices working off to a net loss of about 6 to 7 points on the old crop while October lost all but a point or two of the early advance.

The continued heavy receipts probably incurred part of the selling.

The selling was not aggressive, however, and the market during the late forenoon ruled steadier again on bullish Southern spot advices and further drought complaints with the old crop showing a net loss of only 3 or 4 points, while ne wcrop positions were relatively firm and 7 to 8 points net higher.

Spot quiet; middling uplands 14.95 nominal.

No fresh feature developed during the early afternoon with prices ruling steady at a net decline of about 4 points on old crop mouths, while the new crop held a net gain of 6 to 7 points.

Close New York Spots.

New Orleans Cotton

New Orleans, Feb. 1.—Cotton futures opened steady, 2 to 4 points down on the old crop months and 2 points up on the new. Cables were not quite up to expectations and this was felt by the old crops. The weather map still was dry and warm, indicating a continuance of the drouth in Texas and this caused the rise in the new crops. After the call the market was quiet and steady with trading professional in character, although commission houses received a few buying orders in the new crop months from outsiders. At the end of the first half hour of business the old crop months were 2 to 3 points down and the new crops were three up.

The market was narrow throughout the morning. The old crops at one time recovered to the level of yesterday's close, July making a net advance of 1 point, but later they fell off on selling out by scalping longs. The new crops displayed steady strength and were held above yesterday's close during the entire morning. Accounts of the seriousness of the drouth in Texas were offset by reports from other portions of the belt telling of advanced crop preparations and of large sales of mules and farm machinery. At noon the old crop months were 2 to 3 points under yesterday's close. At their highest the new crops were 6 points up but at noon they were 3 to 4 up.

Open New Orleans Futures.

New Orleans, Feb. 1.—Cotton futures opened steady. Feb. 14.83a86; March 14.98a99; May 15.16a17; July 15.27a28; August 14.71 asked; Oct. 13.52; Dec. 13.40a42.

Lifted 400 Feet Into the Air.

By Associated Press.

Santa Barbara, Cal., Feb. 1.—Lieutenant John Rodgers was lifted four hundred feet from the deck of the cruiser Pennsylvania yesterday by a man raising kites. The warship was steaming 12 knots against an eight knot breeze at the time and Rodgers, suspended from the kite cable 400 feet astern, made observations and camera views for 15 minutes. He signalled the results of his observations to the officers on the ship.

New York Stocks

New York, Feb. 1.—The stock market showed more strength at the opening today than any other day in several weeks. United States Steel opened with a block of ten thousand shares at 80 1-8 as against 80, last night's closing and rose to 80 1-4 on further heavy sales. Union Pacific was up 5-8 and Reading advanced 1-8 on ab lock of 7,500 shares. Northern Pacific gained 1-2 and Southern Pacific 3-8. Bethlehem Steel was strong, Republic Steel, preferred, gained a point. Other issues were generally strong with the exception of Wabash and Chesapeake & Ohio.

Selling after the opening depressed prices slightly but after a brief pause the market advanced again slightly. Northern Pacific resumed its leadership of yesterday and bounded up 2 5-8 points to 126 1-2. Reading also was heavily bought at an improvement of over a point, crossing 159 and other representative stocks also established high prices for the present movement. Some minor stocks also moved up bouyantly, including Pittsburg Coal preferred, which jumped 4 1-2.

The pronounced strength of the market during the morning session indicated that the improvement projects undertaken by the Harriman companies and the utterances of Chairman Gary in regard to present conditions in the steel trade had been accepted as events of unusual importance. This was reflected in material advances in all the leading issues, with Northern Pacific, which advanced 3 1-2 to 127 3-8, the feature. The further rise of this stock was not explained on any ground other than that probable financing by the company with attendant valuable rights to stockholders.

Bonds were firm.

The explosion which shook up the financial district was of more interest to traders than the movement in stocks and business fell off for a while to nominal proportions. Prices, nevertheless, continued to work upwards with pool buying a feature. United States Steel mounted a point to 81. Northwestern improved 2 3-8, New York Central, Distillers Securities and Great Northern, preferred, 2.

Bull operators had complete control of the market and punished the shorts severely. Northern Pacific continued to soar upward, the rise at 2 o'clock reaching 5 points, with all sorts of bullish gossip accompanying its advance. There was a steady absorption of stock at rising prices, the buoyancy displayed by the leaders stimulating operations by pools in various specialties. Sloss Sheffield Steel gained 3 3-8 and the railroad equipment stocks were strong.

London Stocks

London, Feb. 1.—American securities opened about unchanged today. Light buying followed and prices advanced but support was lacking and the market eased off near the end of the first hour. At noon prices ranged from unchanged to 5-8 above yesterday's New York closing.

Wall Street buying and reports of the proposed Union Pacific improvements strengthened the list and and the market closed firm.

JONES WILL BE FORCED TO ANSWER ALL QUESTIONS.

By Associated Press.

Danville, Ill., Feb. 1.—Judge Kimbrough in the circuit court this morning handed down a decision in the case of City Attorney Jones, who declined to answer questions regarding vote selling and buying which the grand jury put to him. The court instructed Jones to answer all questions.

Jones immediately went before the grand jury with instruction from his attorneys to answer every question.

This means that the investigation will continue until all the witnesses now summoned are questioned. The statement was made that the grand jury would finish its labor tomorrow and adjourn. It is said a large number of true bills have been voted but whether any are for vote selling is not known.

Convention of the Unemployed.

By Associated Press.

Chicago, Feb. 1.—Two parties from the colony of "Migratory Workers" wintering in Chicago left here for Milwaukee yesterday to attend the second annual national convention of the unemployed and brotherhood welfare association.

The first group, consisting of thirty of the more prosperous members of the association, traveled by steamer on tickets as first class passenger.

Their less fortunate brothers of the rank and file marched on the freight yards 1,000 strong to make the journey by the most feasible means. Each of the delegates wore a button on which was emblazoned the slogan of the wayfarers order, "I am an undesirable citizen."

Chicago Grain

Chicago, Feb. 1.—Colder weather in Russia today weant higher prices for wheat in Chicago. Grain shipping was reported as much interferred with by heavy ice. Similar conditions existed in Roumania, the Danube river being filled with drifting ice fields. A big decrease of the stock on hand at Liverpool tended further to help an advance in the market here. There was also complaints of hessian fly in Southern Illinois. The cash situation was still discouraging but smaller receipts were being looked for by many traders. The opening was 1-4 to 1-2 up. May started at 96 1-4 to 96 1-2, showing the same variation as the market as a whole, and steadying at 96 3-8.

Ohio reports that corn was not in shape for shipment gave strength to that cereal. May opened 1-8 to 1-4 higher at 49 7-8 to 50 and held around the first named figures.

Pronounced bearish views by a leading speculator caused a heavy tone in the oats market. May started a shade down to a shade up at 33 1-2 to 33 5-8 and fell to 33 1-4.

Packers were open sellers of provisions. The market eased off in consequence. First sales were 5 to 22 1-2 lower with May options at 18.07 1-2 to 18.15 for pork, 9.75 for lard and 9.70 for ribs.

Chicago Provisions.

Chicago, Feb. 1.—Butter steady, creameries 17a25, dairies 16a22.

Terrific Explosion

(Continued From Page One.)

vain for a blaze. Instead they found the streets dangerously crowded and the sidewalks covered with broken glass, while frightened store-keepers guarded their exposed wares. Meanwhile the place of disaster had been made known by the Jersey police.

The damage was heavy in many section of Jersey City and the result of the explosion resembled the blast and roll of an earthquake. Glass was blown out of windows of business places and private houses. In some buildings the ceiling fell and ornaments were shaken from mantelpieces.

The dynamite boat Catherine C was unloading at the Jersey Central pier when the explosion took place. Just what caused it may never be known.

Up to 2 o'clock police and firemen have been unable to determine the extent of casualties from the explosion.

Last Rites Administered to Five Men.

Father O'Reilly, of Jersey City, who was near the docks, said he had administered the last rites of the Catholic Church to five men and saw one headless body near the pier.

Inasmuch as each boat, which was believed to have picked up dead or wounded from the river went to a different wharf, it was impossible to learn the toll in dead and injured.

The ferry boat Somerville, of the Jersey Central line, with a big load of passengers on board, was close to the scene of the explosion when it took place and many of her passengers were injured.

DESCENDENT OF SIGNERS CHARGED WITH MURDER.

By Associated Press.

Los Angeles, Cal., Feb. 1.—W. L. Brent, who had his preliminary hearing in the police court yesterday on the charge of murder, is said to be a direct descendent of John Carroll, one of the signers of the Declaration of Independence. He is a son of Dr. William Brent, of Charles county, Maryland.

Rudolph Shreiner, a Santa Monica carpenter, was killed last Wednesday night by a bullet which, it is charged was intended for James McLean. The night of the shooting McLean, in company with Shreiner followed Brent and near his home accused him of having done him a wrong. The denial resulted in a fight and during this a shot was fired. Shreiner fell mortally wounded.

Paid All Debts and Was Pardoned.

By Associated Press.

Olympia, Wash., Feb. 1.—Having reimbursed his bondsmen and repaid thousands of dollars to depositors lost by them when his bank failed in 1893, J. K. Edmiston, president of the Walla Walla Savings Bank and the Security Savings Bank, of Seattle, who has been a fugitive from justice since his conviction in 1895, has been pardoned by Governor Hay and can now return to this country. It it not known where Edmiston is but he is believed to be in Honduras.
