GOLDSBORO, N. C., Jan. 24, 1901.

CAUSES OF THE EPIDEMIC.

A great many causes are assigned by the learned and the unlearned for the epidemic of influenza or grip which extends over the entire country and is giving incessant employment to doctors and nurses. The first cause assigned for the prevalence of the disease is the unusual weather; but there have been other winters in which the weather has been quite as unfavorable without giving rise to an epidemic. Bad water and malarial conditions are assigned as causes of the disease in some quarters, but it rages in others where the water is good and where there is little or no malaria.

There seems, however, to be a general conspiracy of silence concerning a potential and universal cause of the great increase in the number of victims of colds, pneumonia, influenza, rheumatism and kindred diseases in the present season—namely, the compulsory decline in the wearing of warm and pure woolen clothing among the mass of the American people. To state the case in the broadest terms on the official evidence, cotton, shoddy and other adulterants constitute more than half of the materials of what are sold as American woolen manufactures for clothing.

During the year 1899 the total consumption of wool, domestic and foreign, in the United States amounted to 334,832,204 pounds. This was little more than 4½ pounds of raw, unwashed wool for each inhabitant of the United States. The total was but little enhanced by a slight importation of woolen goods at an average duty of about 100 per cent. on their value. In the total also is included all the domestic and foreign wool consumed in the country in 1899 for blanketing horses and making carpets.

During the three full years of the Wilson act (1895, 1896 and 1897) the average annual consumption of pure wool, domestic and foreign, amounted to 533,626,529 pounds. This amounted to upward of seven pounds of pure wool for each inhabitant of the country. To this must also be added large importations of woolen fabrics under moderate rates of duty, which have now been checked by the Dingley tariff. Without entering into further detail, it may be stated that the consumption of pure wool for clothing among the American people is not half as great to-day as it was when the Wilson tariff was in operation.

Is it imagined that such a revolution can have been wrought in the clothing habit of the American people within a brief period without affecting their physical well being?

A VALUABLE PUBLICATION.

The North Carolina Year Book, just issued by the Raleigh News and Observer is complete in every detail and is an encyclopedia of valuable information to all North Carolinians, and is a valuable acquisition to all libraries. It contains the name and address of every public officer in North Carolina; the name and address of every lawyer, doctor, preacher; the heads of all State and educational institutions; the organization of all fraternal and other organizations; figures showing the State, county and city debts; in a word, a mass of interesting matter carefully collated that is invaluable to those who wish to know anything about North Carolina. Every house in North Carolina should possess a copy.

THE announced determination of the cadets now at West Point to discontinue hazing in all its forms is very well as far as it goes. It will for a time, no doubt, bring to an end the physical brutalities that have been the subject of military and Congressional inquiry. But boys are boys, and full of inborn cruelty. The older cadets will find some new method of taking the conceit out of the juniors despite regulation. There are other ways of breaking in raw recruits besides breaking their bones. Investigation, however, will not have been fruitless of good result if barbaric practices shall be abolished. The fault has been largely the result of inefficient supervision.

THE Legislature is hammering away on a bill to tax dogs. The Concord Standard is of the opinion that if the time has come that legislators dare strike the dogs of the State without having their heads snipped off, there's getting to be some hope that the homestead wall may be torn down so that creditors may reach the non-debt paying class that is crouching behind it.

The Congressional Apportionment.

The Burleigh Congressional Apportionment bill, which passed the House of Representatives last week, having passed the Senate without change, the representation for the different States will, after March 5, 1903, stand as follows:

Alabama	9
Arkansas	7
California	8
Colorado	3
Connecticut	5
Delaware	1
Florida	3
Geargia	11
Idaho	1
Illinois	25
Indiana	13
Iowa	11
Kansas	8
Kentucky	11
Louisiana	7
Maine	4
Maryland	6
Massachusetts	14
Michigan	12
Minnesota	9
Mississippi	8
Missouri	16
Montana	1
Nebraska	6
Nevada	1
New Hampshire	2
New Jersey	10
New York	37
North Carolina	10
North Dakota	2
Ohio	21
Oregon	2
Pennsylvania	32
Rhode Island	2
South Carolina	7
South Dakota	2
Tennessee	10
Texas	16
Utah	1
Vermont	2
Virginia	10
Washington	3
West Virginia	5
Wisconsin	11
Wyoming	1

This gives a membership of 386 against 357, as at present, an increase of 29. Under this bill none of the States lose any representation, while the following gain: New York, Illinois and Texas, three each; New Jersey, Pennsylvania and Minnesota, two each; Arkansas, California, Colorado, Connecticut, Florida, Louisiana, Massachusetts, Mississippi, Missouri, North Carolina, North Dakota, Washington, West Virginia and Wisconsin, one each. The Crumpacker bill providing for a reduction of representation in the South in proportion to the number of negroes disfranchised got its quietus in the House by a vote of 136 against to 94 for it.

Reflections of a Bachelor.

Women's colleges were invented to enable girls to forget how to cook boiled potatoes.

A man is generally said to be "hounded" by his creditors and just plain "dogged" by his wife.

If women were all bald they would probably still buy hair pins so they would have them to put in their mouths.

You never seen anything sadder in life than the husband of a woman who has a theory that men have to be "managed."

The older a man grows the harder it is for his wife to get him to a church entertainment where there isn't going to be any supper.

The main disadvantages about being married is that a man never dares to brag any more about what his ideal woman is like.

A woman will always tell you that the way she has to put her hair up now on account of the style isn't near as becoming to her as the way they used to fix it.

His Efficiency Is Recognized.

Raleigh Post, 16th.

It was a pleasure to have a call yesterday from Mr. C. J. Rivenbark, the efficient Goldsboro correspondent of the Post, who came over to attend the inaugural of his distinguished fellowtownsman, Governor Aycock. And we were reminded that it was just one year ago yesterday that Mr. Rivenbark entered the service of this paper for his city and section. No paper ever had a more faithful and effective representative, nor one whose work was more thoroughly in accord with the object of his employment, to reflect through the Post the daily doings in and about Goldsboro. Our large and growing list of subscribers in that locality attest the success of his efforts.

Let "Called Meetings" Be Called Off.

Mount Olive Advertiser.

If the Board of Commissioners of Wayne county will make an earnest and honest effort to earn their salaries, they should not find it necessary to hold any extra meetings. Let them perform an honest day's work for an honest day's pay, and the taxpayers will be saved an amount sufficient to balance the loss of that printing contract.

Queen Victoria, of England, died at Osborne Castle, Tuesday evening at 6:30 o'clock. Her son, the Prince of Wales (Edward VII) is now King of England.

STATE OF OHIO CITY OF TOLEDO, } ss
LUCAS COUNTY.

Husband and Wife Dead.

After a four-days illness with grip combined with heart failure, Mrs. John Smith, of near Indian Springs, breathed her last Thursday morning at 10 o'clock, aged 75 years. Deceased was a lady of very high esteem and was loved by all who knew her, and was a consistent member of the Primitive Baptist church. The interment was made in the family burying ground Friday at 2:30 p. m.

Sunday afternoon at 3 o'clock, Capt. John Smith, husband of deceased, departed this life after one week's illness with grip, aged 80 years. Mr. Smith was a man of sterling character and everybody who knew him was his friend. He too was a member of the Primitive Baptist church, and lived up to his church obligations till the end. His funeral services were conducted by Elder James Woodard, of Wilson, at his residence on Monday from 1 to 2 p. m., and the interment was made in the family burying ground beside his wife, in the presence of a large gathering of sorrowing relatives and friends.

Mr. and Mrs. Smith left the following children to mourn their demise: Messrs. William Smith, of Sleepy Creek; C. W. Smith, Charles A. Smith, John R. Smith and McD. Smith, all of Indian Springs; and Mrs. James M. Wood, of near Beston. Our heartfelt sympathy is extended to the bereaved.

M. E. Robinson & Bro., J. F. Miller's Drug Store, Goldsboro; and J. R. Smith, Mount Olive, guarantee every bottle of Chamberlain's Cough Remedy and will refund the money to anyone who is not satisfied after using two-thirds of the contents. This is the best remedy in the world for la grippe, coughs, colds, croup and whooping cough and is pleasant and safe to take. It prevents any tendency of a cold to result in pneumonia

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Home of Swamp-Root.

SPECIAL BUSINESS LOCALS.

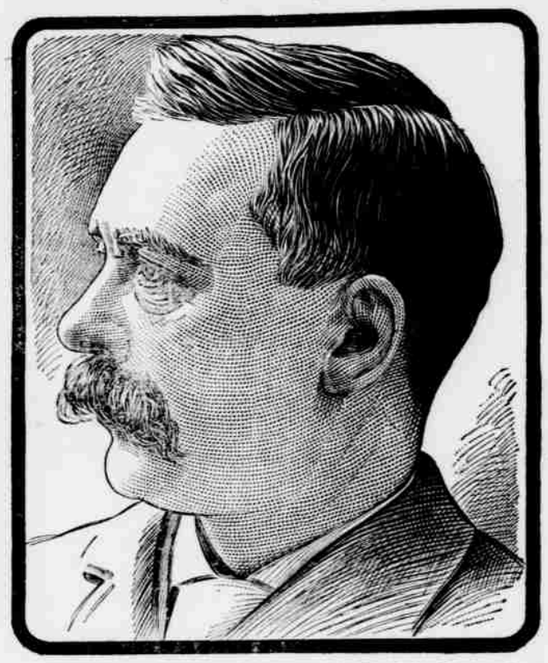
Standard-Keeper's Notice.

All persons using weights and measures are by law required to bring the same to the standard-keeper of the county and by said standard-keeper to have all their weights, measures, etc., tested and sealed, as the law directs. For a non-compliance with said law subjects each and every person so offending to a misdemeanor; and in every such case (of non-compliance) it becomes the duty of the standard-keeper to return the same to the court. The law must be respected. J. W. HAM, Standard-keeper Wayne County.

THE TRUTH AND NOTHING BUT TRUTH.

Hundreds of Clergymen Praise Paine's Celery Compound.



When, several years ago, New York's great Presbyterian minister made the public statement that it was due to the use of Paine's celery compound that, after a winter of exhausting work, he was able to carry on his duties through the enervating springtime with unusual ease and comfort—

And when, a little later, the learned Bishop of Burlington, Bishop Michaud, published an indorsement of this great remedy, saying: "Hoping that my words may inspire those readers who need health and strength with faith to try Paine's celery compound and prove to themselves its worth"—

When, about the same time, the public statement was made by the superintendent of the largest Woman's Christian Association in the country that "those who have been taking Paine's celery compound are greatly benefitted and desire to continue its use"—

When the Rev. J. G. Laird of London, Out., who wrote to the proprietors that, if he had only known Paine's celery compound when he was first afflicted with nervousness, he would never have been placed on the list of retired ministers—

When these and hundreds of other unsolicited testimonials have come from ministers of every denomination, there is no shadow of a question of the sincere regard in which this greatest of all remedies for blood and nerves is held by those who have used it.

Zealous work, with no thought of their health or nerves, causes the retirement of a large number of clergymen every year.

It is possible, however, to work hard and yet keep well, if one will but pay the proper attention to the benefits to be derived from Paine's celery compound.

The Rev. Thomas A. Uzzell, pastor of the People's Tabernacle Congregational Church of Denver, Col., whose portrait appears above, says "Gentlemen: I have used but one bottle of Paine's celery compound, and am much pleased with its effect. My extreme nervousness has been diminished, my appetite increased, sweet sleep to a great extent restored. I shall continue its use."

And here is a letter from the pastor of the Curtis Bay Baptist church, the most influential church in South Baltimore, the Rev. William T. Bailey: "Gentlemen: I propose to do what I can to let people know of your Paine's celery compound, the remedy that has done me so much good. For six years my wife was an invalid. Many doctors have first and last attended her, but one bottle of Paine's celery compound has done her more good than the other remedies. I have myself taken the compound and been immensely benefited. I have given money to many poor people in my church to purchase the compound. You may use my name if you wish, and I will with pleasure answer all inquiries. I believe Paine's celery compound is the best remedy in the world."

The Rev. A. K. Sanford, pastor of the Thirty-fifth Street M. E. Church, New York City, says: "Paine's celery compound restored my health."

The Rev. H. J. Grandlenard, pastor of the French Presbyterian church, New York City, says: "I have frequently been relieved of nervous affections by Paine's celery compound."

The lesson to be learned is plain. Attend to your health and that of your family. Take no chances of miraculous recovery when your nerves begin to show signs of breakdown.

Paine's celery compound, which is within the reach of every family where there is an afflicted member, cures rapidly and permanently.

GREAT CLEARING -:- SALE! AT EPSTEIN BROS.

We will take Inventory February 1st, 1901, and from now till then all goods are marked down. We do not intend to carry anything over that we can sell before Feb. 1st
