REFLECTION.

Pure as glass, this bay reflects
The loveliest of dawn's effects,
With an echo, twice as bright,
Of every upflung ray of light.
Where neither island, cloud, nor tree,
Comes between the sky and sea,
There is nothing to delay
The triumphant rise of day;
And at sunset, heaven's glow
Lingers, magnified, below.
As water to each day can lend
Length and brightness at each end,
So, I think, sea-dwellers find
Extra clarity of mind
Where work days, quicker to begin,
Have time and room for living in.

Delays in Shipping Surgical Dressing Material Explained

The following letter was recently received by Mrs. B. A. Scott, chairman of the Red Cross surgical dressing room in Vance county, from Mrs. Cordelia D. Wolf, administrator of the Volunteer Special Services, Eastern Area, and will help to explain the delay in the shipment of surgical dressings here. The letter follows:

Some shipments of surgical dressings material have been delayed in reaching Chapters. This has brought about long distance telephone calls, telegrams, and letters urging us to assistance in speeding up delivery. This delay is of grave concern to our Area Office because we realize it handicaps the progress of the surgical dressings program.

National Headquarters has brought this matter to the attention of the Surgeon General, as the shipment of materials are handled by the War Department. A contact will be made by that office with the manufacturers, and we hope this will expedite shipments. Many problems confront manufacturers today—securing raw materials, labor conditions, and inadequate transportation facilities which make it difficult for them to fulfill contracts entered into last year. This is a situation we will have to face, probably for the duration, and we hope your plans can be adjusted accordingly.

Should it become necessary to close your workroom due to the lack of materials, please give your workers full explanation so they will be ready and willing to give surplus time when work can be resumed. The program is not designed to make work for volunteers, but the ultimate goal is to keep an adequate stock of completed dressings in the medical depots to meet the needs of the Army at all times.

B. H. Perry Is Speaker At Rotary Club

B. H. Perry, chairman of the Vance county War Food Committee, spoke of the aims of that committee before the members of the Rotary club at their weekly supper meeting Tuesday evening.

He stated that the aims of the committee is to have the all-out cooperation of everyone in the county to relieve the acute shortage of labor which now prevails. Mr. Perry said that critical problems now are and that the people of the county should do everything to keep agriculture, industry, and business going at full production, in order to win the victory on the home front and battle front, and that this can only be accomplished by all-out man-power, woman-power, and if necessary, child power.

The committee is now working on all problems of labor shortages that are expected to come up during this year, Mr. Perry stated. He said that in this immediate section labor will be needed for tobacco curing and marketing, for cotton picking and other vital crops, as well as in industry. Means of stress in the drive, he said, is being to reduce absenteeism and make everyone feel it an honor to be doing some kind of work every day, every day, every week, and every month, by stirring up enthusiasm in all persons of the county. Mr. Perry continued, it is hoped that we will not be met with shortages that lead to break down our efforts to wind victory for the United nations.

NEW YORK HOSPITALS SEEK WORKERS HERE

Dr. W. Henry Webster, representing the New York state health department, will be in the office of the United States Employment Service here, it was announced today by S. M. Watkins, manager of the agency, on Saturday to interview persons interested in employment in New York state hospitals.

Vacancies exist for white and colored persons between the ages of 18 and 60, of either sex. Compensation ranges upward from $70 monthly with full maintenance.

CLOTHING RATIONING TO BE UNNECESSARY

Washington, July 14.—(AP)—[illegible] production and sale policy [illegible] designed to make rationing of clothing "unnecessary for the duration of the war" was announced today by Chairman Donald M. Nelson of the war production board.

"We need not have clothing rationing in the United States," Nelson said in a statement accompanying his 16-point plan. "There is an adequate supply of textiles and we are prepared to meet all military essential civilian needs. The only problem is to see that the proper distribution of new is made."

A salient feature of the broad program will be an attempt by WPB to accelerate output of moderate-priced, low-priced clothing, reserving a point in the industry's [illegible] officials said has brought about a substantial increase in capacity of inexpensive dresses.

HEALTH QUIZ

	YES	NO
Do you have poor digestion?		
Do you feel headachy after eating?		
Do you get sour or upset easily?		
Do you feel tired—listless?		

Do you feel heavy, sour, upset or headachy after you eat? Is poor digestion robbing you of a lot of fun?

If you are taking soda, alkalizers or other artificial indigestion aids, perhaps that's why you don't feel better! You ought to give Nature a chance.

For medical science proves that four-fifths of all your food is digested after it leaves your stomach. Then Nature must provide about 2 pints of an alkaline digestive fluid each day to keep your food digesting properly. Otherwise it may lie heavy and sour within you.

Now Carter's Little Liver Pills increase Nature's own flow of this alkaline digestive fluid—often in less than thirty minutes. It helps digestion. It neutralizes acidity. And right away you're on the way to feeling best, sweet, comfortable and clear-headed again.

Get Carter's Little Liver Pills today at any drug store, only 25¢. Take as directed. Don't be fooled any longer on artificial indigestion aids when Carter's help after Nature's own order.

Tar Heel Farmers Meet Call For Increases in Production

planting by at least 30 per cent. A result, there were 105,000 acres planted compared with 45,000 last year. Total yield is estimated at more than eleven million bushels compared with less than nine million in 1942, despite a small decrease in average average yield.

The duty is about the same on sweet potatoes. Average acreage is from 74,000 to 85,000, average to be yield about five bushels per acre, but for an overall increase of nearly a million bushels.

Substantial increases in yield of cotton, soybeans and peanuts, all of which crops are sources of vitally needed oils, fiber and protein feed—and in hay were also noted.

April frosts just about ruined the fruit crop. Apples, peaches and grapes are far below last year and below the five-year average. The situation in peaches is worst of all. Production of peaches last year was approximately two and a half million bushels, this year the estimate is a little less than a quarter million bushels, about ten per cent.

Tobacco, the state's principal money crop, is expected to yield about 544,000,000 pounds of flue-cured leaf, which is about [illegible] per cent under the 1942 crop.

Significant gains in the report are with corn and potatoes, both vital food crops of which the government especially urged greater possible planting. The potato crop is almost harvested with conditions favorable to the growers that can be called nothing less than bonus. Hundreds of thousands of bushels of potatoes rotted in the fields last year because of demoralization in the market.

Corn has not reached harvest, but the crop is sufficiently advanced that fairly accurate estimate of yield can be made. Current reports indicate a serious shortage of corn.
