Round Hill News.

Rev. Ratchford preached a very interesting sermon last Sunday.

Some of our neighbors are trying to get a new road (or we understand have sent in a petition to the commissioners) between Mrs. Browns and C. T. Elliotts. There is no jury of men that would lay off a road in such a place; where it is not needed, and as it is very convenient to go around where there is a very good road. It seems that some of the people in this vicinity got to "kicking" and they just keep on without any cause whatever. We don't know what is the matter, unless it is that one of the committee didn't furnish everything and build the public school house free of cost. As the patrons all know that C. T. Elliott was the one who pushed the work of the house, losing about three weeks in all, and charging nothing for his time and work

When the house was near completion the committeemen met and agreed within themselves to sell the old rubbish for what it would bring. One of the committee, C. T. Elliott, bought it from the two, S. M. Poteet and Harvey Odom.

Some unknown scamp swept to Mr. C. T. Elliott's "between two lights" and stole about 300 feet of lumber, in the shape of a work bench which he bought among the old rubbish of the old school house This is not the first time that things have been meddled with that didn't belong to other people Behind prison walls would be the safest place to have such dirty sneaks, and a man that will do a trick like the above is dangerous to run at large. Why, simply because he is liable to pick up a corn crib or smoke house and walk off with it. So it would be advisable for the good people of this community to keep the key turned

If some people would talk less and work more much good could be accomplished, but as in most communities we have our scandal mongers and backbiters who seem to delight in the downfall of others. Let us work, guard our lips and watch that the evil one does not gain complete power over us.

PET.

Mr. J. E. Burleson, of Spruce Pine, a big mica dealer, has returned from a trip to Chicago and other western cities.

Mr. Calvin Wood, of Spruce Pine, was in town this week, returning home from Virginia, where he has been on a business trip. Mr. Wood says that the pork market has struck bottom, only bringing 3½ cents per pound.

A special from Knoxville, Tenn., says that James Gillenwater shot and killed Dan Cochran, mine boss at Fork Ridge, in Claiborne county. Cochran and Gillenwater were enamored with the same woman and Cochran forbade Gillenwater going with her. Last night she and Gillenwater were together and when Cochran heard of it he was thoroughly enraged. He went to the house, battered down the door, and when about to enter Gillenwater gave him both barrels of a double-barreled shotgun. Cochran fell dead.

A Louisville, Ky., man, who says he never drinks, tells of a farmer who has produced a breed of fur-bearing chickens, which sport in ice water and cackle briskly in the midst of almost eternal snow. This was accomplished by skin-grafting a selected cock and hen with rabbit skin, half an inch at a time. This process was painful, but succeeded admirably. Eggs of the new breed sell readily at $1.75 a dozen and are hatched out by ordinary hens, who invariably die of fright upon perceiving the strange appearance of their offspring.

The experience of Mr. R. D. Whitley, an influential and prominent citizen of Martindale, North Carolina, will no doubt be perused with interest by people in all parts of the country. For years he has been subject to violent attacks of inflammatory rheumatism; on the first of February he had an attack, which settled in one of his knees and caused almost unbearable pain for two days. He obtained a bottle of Chamberlain's Pain Balm from W. M. Houston & Co., merchants at Mecklinburg City, N. C. He writes that it gave almost immediate relief and gives Chamberlain's Pain Balm the highest praise and advises all persons troubled with like afflictions to use it and get relief. For sale by Morphew & White.

The Raleigh correspondent of the Charlotte Observer gives the following information as to what the fusion legislature will and will not do, which is claimed to be official: The superintendents of insane asylums will not be removed; the railroad commission will be abolished and recreated; the University appropriation will not be interfered with; the State Guard appropriation will be repealed; the bureau of labor statistics will be consolidated with the agricultural department and the Agricultural College; the penitentiary will be entirely reorganized and all the positions filled by fusionists; the charter of the Atlantic & North Carolina railroad so amended that the Legislature and not the Governor will make the appointments and fusionists will replace Democrats.

Congressional Matters.

WASHINGTON, Jan 22.—After six days consideration, Mr. Holman succeeded to-day in getting the Indian appropriation bill for the year ending June 30, 1896, through the House.

The House bill authorizing the appointment of cadets at Annapolis by Representatives in Congress whose districts now are not represented there, was taken up

Mr Crawford, Democrat, of North Carolina, moved an amendment so as to authorize the appointment of a cadet by a representative or Delegate whose district or territory was not represented at the Academy by a bona fide resident of the district.

For this amendment a substitute was proposed by Mr. Boutelle, Republican, of Maine, to distribute the appointments to those districts where the cadet was not a resident at the time of appointment. It was agreed to.

Mr. Sayers called up the conference report on the urgent deficiency bill. The Senate is recommended to recede from its amendment to the income tax provision, and the house to recede from its disagreement to the other amendments The amendment was agreed to.

On behalf of Chairman Wilson, who was unavoidably absent, Mr. McMillin presented the report of the committee on ways and means, recommending the passage of the bill to repeal the provision of the tariff law imposing an additional duty of 1-10 of a cent a pound upon sugar imported from a country which pays an export bounty on that article.

A bill was passed authorizing the establishment of a National Military Park at Gettysburg, Pa., and appropriating $75,000 therefor.

—THE RECORD and Atlanta Weekly Constitution one year for $1.40.

Labor Riots in Brooklyn.

The greatest strike known for some time is engaged in by street car employes in Brooklyn. The following telegraphic report from yesterday's Charlotte Observer, will give the reader some idea of the extent of it:

On Fulton street very serious trouble was threatened during the day. A mob of nearly 1,000 strikers and their sympathizers held that neighborhood in terror for several hours and only the timely arrival of a detachment of police and cavalry prevented bloodshed. At one time a small riot was in progress and the police were compelled to draw their revolvers. At the sight of the weapons the crowd scattered rushing into the side streets, but quickly returning at a different point. The tracks were piled up with obstructions. Near Patchen avenue a car was stopped, owing to obstructions on the track. The strikers crowded about the car and asked the crew to join them. They refused. The strikers then jumped upon the platform seized the men by the necks and threw them to the howling mob, where they were kicked and punched unmercifully. About a dozen cars had, in the meantime, come up and the police on the platforms drew their sticks and fell upon the crowd. They smashed right and left, generally landing on some unfortunate strikers head. The crowd retaliated with stones and for a few minutes the fight was hot, and only by hard fighting the crowd was dispersed.

There is good reason for the popularity of Chamberlain's Cough Remedy. Davis & Buzard, of West Monterey, Clarion county, Pa., say: 'It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough Remedy and they now recommend it with the rest of us." 25 and 50 cent bottles for sale by Morphew & White, Druggists.
