WILMINGTON, May 8, 1847.
THE undersigned, purchasers and dealers in Naval Stores in this place, with a view to adopt some general regulations which seem to them to be just in justice, and more in accordance with the customs of other markets, have agreed to establish for their future government, the following regulations, commencing on the 15th day of June next:
As no good reason is apparent to them for changing the size and weight of barrels of Turpentine, and it would perhaps be productive of incommodious to the makers; it will be purchased as heretofore, the gross weight of barrels to be 320 lbs. or 250 lbs. net. The turpentine to be delivered on yard for inspection at the expense of the seller; and as the purchaser and seller are equally interested in ascertaining the quantity and quality of the commodity sold, the expense of inspection shall be equally divided. Each barrel of the turpentine shall have 12 good hoops and hard 16; instead of deducting, extra as formerly one cent per lbs. bbl. will be deducted for cutting and packing, and two cents for each hoop deficient, together with the usual deduction for unmerchantable barrels, according the number taken to yard. Purchases made at the Rail Road depot will be subject to a deduction of two cents per bbl. drayage, thereby placing the sales by Rail Road on a footing with those by water. These regulations to apply to Tar, only so far as regards the expense of rolling, drayage and inspection. The custom adopted in reference to the condition of the barrels, it is supposed, must be free from all objection as turpentine put up in perfect order will only be subject to a deduction of one cent per bbl. instead of the former rates of extra.

MERCHANTS'
STEAM BOAT COMPANY,
OF FAYETTEVILLE AND WILMINGTON.
GREAT REDUCTION IN FREIGHT.
Averaging about 20 per cent.

New Steamer ROWAN, 17 inches,
Steamer WILLIAM B. MEARES,
Steamer COTTON PLANT,
Flat Boats—BEN BERRY,
ODD FELLOW,
MIKE CRONLY,
WASHINGTON,
T. J. CURTIS,
READY MONEY,
MARY ELIZA.

THE Proprietors of the Merchants' Steam Boat Company of Fayetteville and Wilmington, N. C., offer the above Line of Boats, on the Cape Fear River, to the shipping public, under the late revision and reduction of Freights.
The new Steamer ROWAN, now draws only 17 inches water. When she undergoes some alteration in machinery, her draft is calculated at 14 to 16 inches, which will make her the lightest boat navigating the waters of any river in the Southern country. The Company flatter themselves that they have it now in their power to offer the most complete line of Boats that have ever been on the Cape Fear, and one that will do the freighting business with regularity and despatch on all stages of the water. They have, in connection with the Henrietta Company of this place, reduced the freights to the tariff as in printed rates. Neither of the Boating concerns deemed themselves able to reduce the freights and still do the forwarding business in this place free of charge, and consequently this Company have given it up, with the conviction, that the Forwarding Merchants of our town can do it more justice than a boating concern.
Any Goods consigned to the Merchants' Steam Boat Company, Wilmington, N. C., will be forwarded through that place *free of commissions*—all other charges made to the shipper.
The new arrangement takes effect from the 15th instant.
Passage $1 each way.
The two companies will hereafter count all freight cash, or interest added.
