Six Miles from Baltimore, Md.

REV. L. VAN BOKKELEN, A. M.,
Rector.

THE extensive buildings of this Institution are now complete, and furnish ample accommodations for 80 pupils, the limited number. They have been erected specially for their present purpose, and contain all the conveniences found in similar buildings in the Northern and Eastern States. The position is renowned for its salubrity and the beauty of its scenery. The grounds contain nearly 100 acres, 20 of which are a grove of Forest Trees, and afford sufficient space for the appropriate recreations and amusements of Youth. The course of instruction embraces every branch from the elements of an English education to a thorough preparation for the Sophomore or Junior classes of College, or for Mercantile life. The system of Instruction in the Classics is a modification of that pursued with such eminent success, by Rev. T. K. Arnold, of England. The Rector is assisted by experienced Teachers, who are graduates of our first Northern Colleges, and his effort will be to establish in Maryland a School of the highest grade for instruction and discipline. All the accomplishments consistent with a christian Institution can be acquired. Vocal and Instrumental Music receive special attention, and are taught upon very reasonable terms. Physical Education is systematized by regular periods for exercise, and the character of the exercise is adapted to a perfect development of the body.

Parents desiring a thorough education for their sons, are invited to visit the Hall and examine all its departments. The Rector will be pleased to have visitors pass a day in the School, and notice its management in every detail. Parents from the South passing through Baltimore and wishing to place their sons at School, are invited to visit St. Timothy's Hall, which it is thought will furnish all the advantages of institution and climate which can be obtained in any of the Northern States.
