T. HANCOCK, - Local Reporter.

NEW BERNE, N. C., APRIL 16, 1891.

Entered at the Post office at New Berne, N. C. as second-class matter.

EDITORIAL NOTES

TIMES are hard with most people, but the soap makers live on the fat of the land.

SNOW fell all over North Alabama last Sunday; the first April snow in over forty years.

THERE is room for everybody in this big world. Friction comes from the fact that so many want the front room.

GEN. W. R. COX has been chosen as the orator on Memorial day at Raleigh. His subject will be Major-General Stephen D. Ramseur.

IT is not easy to decide who is making most headway in the contest for Speaker of the House of Representatives, but Mills, of Texas, is making the most racket.

COL. W. P. SMITH, Grand Commander of Virginia, at the instance of Lee Camp, has issued a circular calling on all Confederate Camps throughout the country to observe Sunday, April 26, as Memorial Day, in commemoration of the late Gen. Joseph E. Johnston.

IN the municipal elections held in Ohio last Monday the honors were evenly divided between Democrats and Republicans. Cincinnati elected Republicans, Columbus chose Democrats. At Zanesville the Republicans elected the mayor and the Democrats elected the city council.

THE correspondent of the Times at Rome says: "The arrival of the text of Baron Fava's first note showed a misunderstanding due to Mr. Blaine's interpreting a demand for trial as a demand for conviction. The ministry is indisposed to push the matter beyond a demand for the recognition of the principle of international justice. The excitement has entirely subsided."

THE Richmond Dispatch says: "Yet this sub-treasury scheme is said to be popular with the farmers and Farmers' Alliances in other States. In North Carolina it is so strong that Governor Vance was, it is said, compelled to promise to support it before he was last winter re-elected United States Senator. That is a mistake. Senator Vance was not asked to make such a promise, and did not make it. The legislature passed some resolutions of instructions, but they did not go to that extent.—News & Observer.

SENATOR GORMAN, of Maryland, has returned home from a Southern trip and declares that what he has seen in the South convinces him that its future development is beyond calculation. He says: "What I was not prepared to find, perhaps, struck me with especial force. It was that people who belong down South—the natives—are manifesting an activity in the development of this section of the country that has been lost sight of by many in the North. Northern capital is doing a great deal, to be sure, but it is not doing everything. Southern brains and Southern money are playing an equal, indeed, I can safely say, a greater part, in the industrial progress."

THE Savannah News says: "As long as Congressman Simpson confines his talk to Ingalls what he says will not command much attention, because the country never had very great admiration for Ingalls, but when he ventures to say that at least twelve of the Southern States will be carried by the Alliance in 1892 he shows that he does not know what he is talking about. The South is Democratic, and the Democratic party will remain in the ascendency in the South for a good many years yet. Congressman Simpson has not been long enough in public life to justify him in playing the part of a prophet with respect to political matters in the South. It is safe to say that if the Alliance puts a candidate in the field in 1892 its candidate will not carry a single Southern State. Congressman Simpson is an interesting sort of a man, and if he wants to make a reputation as a farseeing statesman he should confine his talk to things of which he knows something."

THE death of Governor Fowle, the distinguished Chief Executive of North Carolina, which occurred very late on Tuesday night, was an event that has caused very sincere regret among the people of Virginia, many of whom were acquainted with him personally, and to all of whom he had been long known by reputation, the very conspicuous part which he had for many years played in the public affairs of the great Commonwealth over which he was presiding at the hour of his passing away, having given him a prominent position among the public men of the South. In his death North Carolina loses a representative citizen as well as a useful and faithful public officer. It is to be sincerely lamented that a career which promised so much further distinction has been so suddenly cut short. Governor Fowle had hardly attained the age when the highest forms of political success are secured. He could justly have looked forward to still higher honors, for he enjoyed the respect of the people of his State in an unusual degree, and was in the direct line of promotion. This prospect has now melted away, for he has passed beyond the limits of earthly preferment. — Richmond Times.

DEATH OF GOVERNOR FOWLE

THE JOURNAL salutes Governor Holt.

Italy is assuming a more hostile attitude.

WISCONSIN town elections go Democratic.

SLIGHT snows at Greensboro, Charlotte and Asheville last Monday night.

ACTIVE war preparations continue in Germany, France, Austria and Russia.

OKLAHOMA City elected a straight Democratic ticket last Wednesday.

THE German Government has decided to remove the embargo on American pork.

AN alarming increase in the mortality in New York is reported, caused by the grip.

GEORGE F. EDMUNDS, the Vermont iceberg, has resigned his seat in the U. S. Senate

THE Mafias have not yet taken Pittsburg nor New Orleans. The suspense is becoming painful.

THE political situation in Europe is serious. There is much activity among Russian and French troops.

THE Indian trouble is now laid at the door of the Czar. However this is not so bad as having a bomb laid at his door.

THE sling shot fiends do but little harm to the birds at which they aim, but they are expert at bitting window panes.

IT is now practically settled that B. H. Nebecker, of Indiana, will succeed J. N. Huston, of the same State, as U. S. Treasurer

"IT would be the height of imbecility to allow a little thing like a Chicago election muddle to interfere with the world's fair."

EAST CAROLINA wants the Atlantic and North Carolina Railroad extended. How stands Gov. Hoke on the question of extension?

AGENTS of a steamship line have got themselves into trouble at New York by not obeying orders to return certain pauper immigrants.

LOCAL elections continue to be favorable to the Democrats. Denver, Col, has just elected a Democrat mayor by 2 000 majority.

FARMERS' are more hopeful. The weather has become more seasonable, and wheat has advanced on account of the failure of foreign crops.

THE Dry Goods Chronicle notes that in the South there is need of cotton bleacheries. It reports that Eastern capitalists will remedy this deficiency.

THE British troops have defeated the Manipurs, of India, in a pitched battle. The Manipurs say they are willing to submit to the British.

GOVERNOR HOLT is not the orator his predecessor was, but he is a man of affairs with executive ability and a large share of practical common sense.

THROUGHOUT the State the news of the death of Governor Fowle was received with profound sorrow. His praise was upon every lip and his worthy deed the theme of every tongue.

THE Washington Post says: "One by one the hopes of the farmers fail. Jerry Simpson has yielded to the seduction dress suit, and Gov. Tillman, of South Carolina, wears kid gloves."

THE number of immigrants landed at New York last Thursday is the largest for any one day since last Summer. There were 4 332 from six steamers, and 2 197 Italians too late to be landed.

THE Messenger says: "Two children of Mr. E. A. Barney, in Columbus county, were poisoned by eating yellow jessamine, and died from the effects. Do not touch these very dangerous flowers."

AN alliance of Massachusetts and the Pacific coast may be anticipated. The Pacific coast has 175.000 more men than women; Massachusetts has 70 000 more women than men. It is said that the Bay State is contracting with sister New England States for reinforcements before entering into the engagement.

DRINK is a bad thing. If Carrie Brooks had kept sober she might have succeeded in passing herself off as the widow of the New York millionaire, Loring Robertson. But she drank too much at a restaurant and talked indiscreetly. She was arrested and confessed that she was a bogus widow. Mrs. Brooks is in jail, and is doubtless bewailing the evils of intemperance.—Atlanta Constitution.

SPECULATIONS are on foot as to the policy of Gov. Holt. Some there are who assert that he will at once commence "laying wires" for his nomination to the office of Governor by the next Convention. We think this is premature, but, we nevertheless call his attention to Eastern North Carolina as a section of the State worthy of his distinguished consideration.

THE JOURNAL endorses the following from the Wilmington Messenger: "The selection of Capt Octavius Coke, of Raleigh, for Secretary of State, vacated by the recent death of the widely lamented Col. William L. Saunders, is no doubt a good one. He can well discharge the duties of the office and is a Democrat out and out. He is a brother of the able Senator Coke, of Texas. A Raleigh man was certain to get the place and the Messenger is satisfied that it has fallen upon Capt. Coke.

EDITORIAL NOTES

THE President has issued the Behring sea proclamation.

THE Italian Premier counsels moderation on the part of Italians in this country.

THE Governor of Tennessee has received the refunded direct tax for his State, $392 012.

SECRETARY PROCTOR is a candidate for the Senatorial seat vacated by Mr. Edmunds of Vermont.

THE Senate of Arkansas has passed a bill to prohibit the giving of a mortgage on crops, either planted or prospective.

MAJOR MCKINLY has converted a Rhode Island Democrat. As a political miracle this accomplishment is unparalleled. Mr. Watterson will please pass the cake to Major McKinley.

GOV. HILL is to give a reception to the members of the New York legislature. It is probably in honor of Senator Hill. The remarks of Governor Hill to Senator Hill will be very affecting to the audience.

THE jail at Kansas City Mo., was attacked by a mob of colored men, who wanted to lynch a murderer, but the rioters were driven off by a single guard who drew his revolver and threatened to shoot the first man who approached the door.

PRESIDENT HARRISON has appointed the negro, Hill, postmaster at Vicksburg, Miss., notwithstanding the fact that his nomination to that position failed of confirmation by the Senate because of the strong opposition of the Mississippi Senators.

THE *Italia* expresses the opinion that Americans have but one god—their strong box. It says father: "In this strong box we must strike them, demanding the largest possible indemnity. On their tongue is but one word, 'Dollars.' Let us take advantage of it."

CHARLES A. DANA receives a salary of $50,000 a year for editing the New York Sun. Charles Lord, managing editor, also receives $50,000 a year, and Mr. Laffern, the business manager, receives $25.000. A son of Mr. Dana gets $15,000 a year as one of the assistant editors.

FOREIGN Governments, editors and declaimers, have been attacking the Constitution of the United States. This is dangerous to monarchal systems. The more the Constitution is presented to the people of oppressed Europe the more restless they will become under the tyrany of their masters.

WE note with great pleasure the continued and growing prosperity of the Goldsboro Argus. It has just commenced the publication of volume 13, and every year of its existence has teemed with evidences of intelligent devotion to personal integrity, social refinement, material development, State agrandizement and national honor.

GOVERNOR HOLT has been graciously received by the press of the State. Every public man must be tried to ascertain his fitness for the position he holds. Governor Holt enters upon his gubernatorial duties strong in the confidence of the people, and will furnished for the high station to which, in the providence of God, he has been suddenly called.

IT has been ascerted that war with Italy, would be war with Germany, Austria and Italy, these powers constituting the Tripple Alliance; but such is not the case. The Alliance relates to affairs on the Continent, and to the maintance of the balance of power in Europe. Should Germany and Austria espouse the cause of Italy, Russia and France would at once become allies of the United States.

WE are not of those who are afraid of the Alliance. Alliance men are not the kind of people to fear. They are patriots, gentlemen and christians. Should they put a national ticket in the field the natural effect of their action would be to throw the election into the House of Representatives where the Democratic candidate for President would certainly be elected.

"THE times are out of joint." This has been the cry all along the ages and will be unto the end. Rev. Washington Gladden, in a sermon recently preached by him in New York said: "Our legislatures reek with bribery, and nearly every State legislature, and nearly every city hall is an Augean stable which cannot be cleansed without Herculian labors." Every sensible man knows that this is not true. It is proper for a minister to attack wickedness in high places, but such reckless utterences places the minister in the category to which he assigns others.

THE war-scar is over. It is remarkable that any serious fears were entertained by any one. Italy is bankrupt, and could not fight if she wished to; but if her finances were in the best condition she could inflict no injury on the United States. Though we have no great seaboard fortresses to drive off intruders, no foreign foe can enter a single harbor on our coasts with an armament sufficient to inflict serious damage. There is not a port on our seaboard whose approaches could not be barred to any formidable war ship in six hours. But suppose an army landed on these shores: what could it accomplish? Nothing, absolutely nothing. It could not penetrate a mile into the country.

Children Cry for Pitcher's Castoria.

INTENSE EXCITEMENT IN CHARLOTTE.

A Race Riot Precipitated by the Murder of an Italian.

CHARLOTTE N. C., April 13.—The result of the cold-blooded murder of the Italian, John Mocca Saturday night by the negro desperado Henry Brandhaun has been forty-eight hours of intense excitement in this city. Lynching was strongly threatened. At dark Sunday evening a mob of 200 or more moved to the jail with an intent to lynch the negro charged with the crime. The military was stationed in the jail and the mob frustrated. Hundreds of negroes and whites were engaged in a race conflict all night. The negroes opened fire on the military from the cupola of the negro church and the military surrounded the church and riddled it with bullets and scattered the negroes.

The feeling today and tonight has been intense. Such exciting scenes have never been witnessed here before. There are no new developments up to this hour 11:30 p. m. The military are in charge of the jail and 250 policemen are on duty. Men and boys are marching by, openly carrying guns. It is reported that the negroes will marshal their forces during the night and return to the mountains.

Chained to the Rock.

Prometheus was chained to the rock while vultures gnawed his entrails. So are many people chained to the rock of prejudice while all manner of vile patent medicines will be injurious upon their stomachs, offer them what inducements they may. They are apparently impelled to take them in the belief that by experience in the past they must keep dosing with drastic medicines. Unknown to them the action of these is powerful and expensive, they are not satisfied. They would discover a remedy of gentle action, however effective. Relief is sought by such purblind extremists as these, but the acknowledged merits of Hostetter's Stomach Bitters are recognized. That benign regulator of the stomach, the bowels and the kidneys appeals to the rational—not only appeals, but is awarded a just verdict. Constipation, liver complaint, dyspepsia and kidney troubles yield to its action. So also does malarial and rheumatism.

How are the Folks?

"Oh, they're all well, except Mother, she's about the same. Poor Mother, worn out by household cares, exposure and overwork. No wonder she gives up at last and takes to her bed. But oh! how much brighter the family fireside would be if mother's chair was not vacant. The doctors don't seem to be doing her any good. She says their medicines don't seem to go to the spot. She feels so weak and longs for strength. "Oh! give me strength," she murmurs. Why not give her the remedy her system craves? Her impoverished blood and shattered nerves are starving for just such ingredients as are contained in B. B. B. (Botanic Blood Balm). Try a bottle of this excellent remedy. It is truly woman's best friend. It quickly relieves pain and restores health, strength and functional regularity.

James W. Lancaster, Hawkinsville, Ga., writes: "My wife was in bad health for eight years. Five doctors and as many more different patent medicines had done her no good. Six bottles of B. B. B. has cured her."

For sale at wholesale by F. S. Duffy, New Berne, N. C.

Teacher: "Johny, give me the name of the largest diamond." Johnny: "The ace."

A Wonder Worker.

Mr. Frank Hallman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be Consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds, and at that time was not able to walk across the street without resting. He found, before he had used half of a dollar bottle, that he was much better; he continued to use it and is today enjoying good health. If you have any throat, lung or chest trouble try it. We guarantee satisfaction. Trial bottle free at F. S. Duffy's drug store.

How is Your Blood?

I had a malignant breaking out on my leg below the knee, and was cured sound and well with two and a half bottles of S. S. S. Other blood medicines had failed to do me any good.

WILL C. BEATY, Yorkville, S. C.

TRADE S.S.S. MARK

I was troubled from childhood with an aggravated case of Tetter, and three bottles of S. S. S. cured me permanently.
