IMPORTANT TO FARMERS.

MANY years experience in stock feeding has convinced farmers that all grain ought to be ground before feeding, but the difficulty of getting a cheap and efficient machine that would answer the purpose, has prevented many persons from commencing.

The subscriber in recommending

Leavitt's Portable Improved

Corn and Cob Mill,

For grinding fine meal for family ufe, crushing corn and cob together for stock, and shelling corn, and other purposes, does so in a full belief that it will answer the purpose for which it is intended. It has now been in use several years in the State of Virginia—over 700 are now in use in Virginia and North Carolina. Thousands are now in use in the Southwest and North. Hundreds will, on application, testify to their usefulness on a farm.

All we ask is to give them a fair trial. They are warranted to grind fine corn and cob meal; corn meal, from which two-thirds can be sifted for bread; hominy, coarse or fine; grinding of wheat, barley, rye, &c. and is a good corn sheller. Quantity varying according to power applied.

Having purchased from the Agent of the inventer the exclusive right of selling and using these mills in the county of old Edgecombe, we take pleasure in recommending them to the farmers in the above county; and from a desire to have them in general use, we will sell them at Forty-five Dollars as we receive them, or will put them up by adding the expense of labor.

BRANDRETH PILLS.

DR. BRANDRETH would here impress on his friends and the public generally, that however different may be the action of the Pills at different times, that such different action arises not from any alteration in the Pills, but from the state of the body; they should therefore be persevered with until the action is uniform; for they are an effectual assistant of nature, having the same kind of action on the human body that storms and hurricanes have upon the air, or that the tides have upon the ocean; they purify.

Wright's

Indian Vegetable Pills,

FOR the speedy, safe, and effectual cure of all diseases brought on by billiousness, impurity of the blood, and general derangement of the system—it is a widely, well known fact, that *Wright's Indian Vegetable Pills* are *the great Panacea.* The Southern people *particularly,* are indebted to the inventor and manufacturer of this popular family medicine in the cure of Fevers and colds, so common in the South. For sale by

Geo. Howard.

Dr. Spencer's Vegetable Pills

ARE the cheapest and most approved family medicines ever offered to the public. They are extremely mild in their operation, neither causing sickness of the stomach, nor any unpleasant sensation in the system, as is too frequently the case with medicines given to act upon the bowels; hence multitudes, who have been unable to take other pills or preparations of medicine, on account of their nauseating effects, use these pills without the slightest disagreeable feelings. All that is asked of those who have never yet become acquainted with them, is to procure one box, and the Proprietor's word for it, they will never call for any other kind of purgative medicine so long as Spencer's Vegetable Pills can be obtained.

Price 25 cents per box.

Also, Dr Hull's Vegetable Fever and Ague and Anti-Fever

PILLS.

AMONG all the advertised remedies of the day for Ague and Fever, or Chill and Fever, none seem to meet with such rapidity of sale, and give so much general satisfaction, as *Dr. Hull's celebrated Pills.* Wherever they have been introduced, all tonics, in whatever shape, all mixtures and pills, and preparations of every character, designated for this disease, have been discarded, and *Dr. Hull's Ague Pills* have been received as the *only permanent cure.* They stop the Chills and Fever the first day, and do not sicken the stomach or operate on the bowels.

Price 75 cents per box.
