Workingmen's Meeting.

Last evening a large workingmen's meeting was held at Brook's Assembly Rooms, Broome street, near the Bowery. The room was packed with a dense mass of human beings. Mr. P. W. Groot was chosen chairman, and a long list of Vice-Presidents and Secretaries was appointed. The Chairman made the following address:—

FELLOW-CITIZENS:—We have met this evening under peculiar circumstances. The country we all love so well, the free institutions which were the pride of our ancestors have for the first time in our history received a staggering blow. Business is paralyzed. Our factories are closed, and gloom hangs over our city. Stout men willing to work cannot find it, and I state what I know to be God's truth when I say that starvation stands at the door of many a family. Why is all this? Well, an administration is coming into power which is hostile to one great section of the country, which threatens to use the general federal government, made for the benefit of all, to cripple and ultimately destroy the civil and domestic institutions of the Southern States, and these States with the just instinct of self-protection, which is the first law of nature, are rushing from their natural orbits as a terrified person flies from an approaching pestilence. (Cheers.) This party is a sectional party—they deliberately (on motion of General Jessup) struck the word "National" from their platform in Chicago when they nominated Lincoln, and we, who have stood by the Constitution in the *North*, have warned them for years that their sectional course would produce the very results we now see. We have prayed, begged, expostulated with them to stop their insane course, but to no purpose; and now, to add to the last of their outrages, to cap the climax of infatuated madness, they treaten to use the power of the Government to coercion sovereign State, than which, in the words of Alexander Hamilton himself, there could be no greater madness. ("They can't do it.") But, fellow-citizens, I believe that we, who belong to the laboring and manufacturing classes of this great city, have a word to say on this matter. ("That's so.") Our interests identical with that of the South, and if we had not the great and grand motives of patriotism to urge us to prevent civil war, we have the powerful incentives of wives and children appealing to us for protection. Let us only one moment notice the great interests of this city in southern productions of negro labor. This will show why business is paralyzed. We are losing to-day, gentlemen, from this city $20,000,000 per month in Southern orders. This, you know, is the dullest season of the year. How much, think you, if this state of things should last one short year, we in the North should lose through non-intercourse with the Southern States? Five hundred millions of dollars! Sufficient to paralyze the entire commercial and manufacturing interests of the North. That you might understand more clearly the exact commercial position between the two sections, here are figures taken from the census report of 1850, and the trade is now very much larger. The South purchases of Northern manufacturers one-third of all the manufactures of the North. She buys $240,000,000 of the results of your labor. She buys of imported goods which come mainly through this city, and upon which you all reap a profit in handling, $106,000,000. She pays your brokers, bankers, insurance agents and commission merchants, and the thousand and one laborers and workmen she employs here in the North, $63,200,000 a year more; and her Southern travelers who visit this great city, who support our great hotels, and dry goods palaces, &c., leave $53,360,000 money. (Cheers.)

And now, fellow-citizens, what is the proposition now before the people of the North? Why, after the political party which has, by exasperating our Southern brethren, by producing illfeeling between brothers, after by a series of abuse and outrage, they have succeeded in driving nearly all this trade from our city, and of turning out of employment thousands and tens of thousands, what do they propose to do next? Why, to commence civil war—that shall drive every dollar of it away. That shall produce such a state of feeling as shall render us such bitter enemies to our Southern brethren as to completely ruin us. Partial ruin does not satisfy these wicked politicians. If civil war comes those wealthy and careless men who have grown rich off the people, will of course clutch sufficient gold to save themselves and their families from starvation, but how upon them dependent upon labor, when the means of labor are swept away? They will turn them off with neglect, and the alms-house must reach forth its arms to save hundreds and thousands of hopeless women and children from the jaws of starvation. But I will not depict the sorrowful picture that must follow any attempt to involve us in civil war, the most horrible, the most terrible, the most fearful of all wars. ("That's so" and cheers.) We have met this evening, fellow-citizens, to enter our deliberate protest against civil war, and to demand, before the North shall talk about coercion, to place herself right and give the south her rights under the Constitution as they have been interpreted by the Supreme Court, the recognized according to our system. (Loud cheers.)

Dr. Sayre offered a series of resolutions, which were unanimously adopted.

Among them were the following:—

Resolved, That we demand that our representatives and servants, (and not our rulers, as some ignorantly style them,) both in our National and States Legislatures, shall at once initiate movements for a peaceable solution of our difficulties, so that civil war may be avoided, and the wheels of business may again begin to move and remunerating labor return to thousands now out of employment, and suffering from the stubborn refusal of the Republican party to grant the South her just rights under the Constitution.

Resolved, That the State Legislature be respectfully requested to convene the people of this State in Convention, for the purpose of securing an expression of public sentiment upon the new and startling issues which a few weeks have so rapidly evolved, and the Chair is directed to appoint a Committee of five gentlemen to present these resolutions and this request to the Legislature.

A resolution by Dr. Sayre, denouncing Greeley as a traitor, because of the sentiments expressed by his paper, was also unanimously adopted.

Anti-coercion speeches, in the spirit of the resolutions, were made by Levi S. Chatfield, P. W. McMahon and Marshal Rynders. The meeting adjourned to meet, at some time yet to be named at the Cooper Institute.

GRAND VIRGINIA DISCOVERY.

Some four months since our excellent townsman, NAPHTALI EZEKIEL, informed us that he had prepared a hair restorer, with which he was experimenting upon his own head, whose top was entirely bald. We saw him two days since, and on the place so bald four months since, a fine crop of hair has sprung up with a vigorous growth. So convinced is Mr. Ezekiel of the efficacy of his discovery, that he has named it "THE INFALLIBLE VIRGINIA HAIR RESTORER." Mr. E. is about going into an extensive manufacture of an article which is destined to prove of anxious interest to our bald pated friends.—*Richmond Enquirer, Dec. 12, 1850.*

This famous article can now be had of the principal Druggists. Those persons who desire a fine head of hair, have only to use the restorer according to printed directions on the bottle. Those who have any doubts of its efficacy can have them removed in a short time, by using the Virginia Hair Restorer Infallible, proving that it is all it is claimed to be.

A QUESTION FOR MATHEMATICIANS AND ECONOMISTS.

IF 1860 feet of gas is consumed through eight burners, in 9 nights, at a cost of $5 per thousand feet, how much is consumed by each burner per hour? at what cost, and what would be the cost of an equal amount of light obtained from Kerosene Oil? Answer: There is consumed by each burner, 25 feet per night, or 6 feet per hour, at a cost of 6 cents per hour per burner. Four Kerosene Lamps afford as much light as 8 gas burners; 4 gallons of Kerosene Oil will supply 4 lamps one month, which, at $1,20 per gallon, is $4,80 per month, or a cost of one cent per hour per lamp: therefore, by burning gas, the expense is only six hundred per centum greater than to burn Kerosene Oil, which, with Lamps, can be had at the RENDEZVOUS of the Inimitable CASSIDY.
