Supporting the Country Paper

By publishing the many notices that are being sent by different government departments to the country papers, the publishers are giving the public information which the government desires them to receive in the only possible way it can be given without putting the government to an enormous expense. The publisher receives nothing but grtitude from the government for his services, and that is all he expects from the government. But the publisher has a right to expect the support of his community the same as a soldier at the front expects and deserves it.

High government officials, from the President of the United States down to the officers of the state, have expressed their thanks to the country publisher. "The country publishers are doing more to win this war than any other class of men," is a statement often made by high officials.

Almost every reader of the country paper and every advertiser is doing all he can for the boys at the front. We are sorry to say there are a few who don't appreciate the service rendered by our soldiers.

Almost every reader of the country paper and every advertiser is doing something to support the country paper. But again, we are sorry to say there are also a few who don't appreciate the service rendered.—Renwick (Iowa) Times.

SPANISH INFLUENZA GETS DEATH BLOW

Health department about six weeks ago advertised its willingness to give free vaccination and began the use of a new vaccine known as the Rosenow vaccine, developed by Dr. Edward C. Rosenow, professor of experimental medicine of the University of Minnesota.

The old serum treatment was open to serious objection, but the new Rosenow vaccine, containing 5,000,000,000 dead in the arm with a hypodermic syringe without pain, danger or inconvenience and has been found to afford immunity characterizing vaccination for smallpox and typhoid fever.

On 20,000 cases of free vaccination the subject was admonished to report subsequent influenza or pneumonia if it occurred. No one case of influenza or pneumonia has been reported from the 20,000 vaccinated.

St. Louis is divided into seven sanitary districts. In the West End and other fashionable districts in the last two or three weeks new cases of influenza amount daily to an average of 100 or more from each district. In one district alone the average of new cases of influenza has been only ten or twelve daily. The district which is relatively free of influenza, populariy known as the Gheto district, where congestion and insanitary conditions prevail, is the one district where the people have resorted freely to vaccination.

The Gheto district sent 30,000 people to the city health department for vaccination. Other districts until quite recently, contributed very few candidates for vaccination. It was facetiously remarked that those living in the Gheto took most anything that they could get free.

Vaccine Effective

It is now seriously remarked that the 80,000 vaccinations in the Gheto, reaching most of the susceptibles, have solved the problem of influenza preventative and have proved the effectiveness of the vaccine treatment.

Since this striking showing has become better known the fashionables have been swarming to their physicians for vaccine preventative treatment to which the enlightened medical opinion of this city has lent its unqualified endorsement. As the smallpox of the Middle Ages and the typhoid of the Boer and Spanish-American Wars yielded to vaccination, so Spanish influenza, in the view of leading St. Louis medical men, bred on the battlefields of Europe, will now succumb to influenza vaccine wherever that vaccine finds its way under the skin of the individual.

The International Life of St. Louis duly impressed by these figures, is hastily preparing a bulletin for its agents, medical examiners and 75,000 policyholders, pointing out the urgency of vaccination as a preventative. Impressed by the fact that life insurance companies in the United States during the year 1917 paid out $265,000,000 in death claims and that the same companies during the year 1918 are paying out no less than $500,000,000 in death claims, the difference attributable to influenza, the Internation is sending its bulletins to all other life insurance companies throughout the United States and to the Life Extension Bureau at New York, comprised mainly of life insurance men, but headed by former President Taft.

Randolph County Teachers Meeting

The teachers of the County met in the court house January 4th, with a good attendance and an interesting program.

The meeting was led by Mrs. T. E. Johnson, Salisbury, member of State board of examiners. She discussed with the teachers "The Reading Circle Work" for teachers for the year 1919. The following teachers attended the meeting:

Joseph G. Reddick, Iinna Presnell, [illegible] Barker, Johnsie Newlin, Mary [illegible], Mary Allen Bulla, Ruby [illegible], Maggie Trogdon, Laura Sum[illegible], Anna Maness, Mary Moon, Troy [illegible], J. A. Ledbetter, Geo. W. Spen[illegible], W. Fogleman, Glenna Floyd, [illegible] Newby, Clara Briles, Beulah [illegible], Myrtle Cox, F. W. Cook, [illegible] Allred, Thomas H. Elder, Mrs. [illegible], Lola Pritchard, Mrs. C. [illegible] [illegible]

Mrs. Thomas Sink of Randleman Dead.

Mrs. Thomas Sink died at her home in Randleman last week following influenza and pneumonia. Mrs. Sink was the daughter of the late G. P. Allred. She is survived by her husband and four children.

Notice

The first Quarterly Conference of Richland circuit will meet at Giles church January the 18th. Preaching at 11 o'clock p. m. I trust every official will be present.

Joel B. TROGDON.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make This Beauty Lotion Cheaply for Your Face, Neck, Arms and Hands

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

UPSET STOMACH

Pape's Diapepsin at Once Ends Sourness, Gases, Acidity, Indigestion

Undigested food! Lumps of pain; belching gas, acids and sourness. When your stomach is all upset, here is instant relief—No waiting!

The moment you eat a tablet of Pape's Diapepsin all the indigestion pain, dyspepsia misery, the sourness, gases and stomach acidity ends.

Pape's Diapepsin tablets cost little at any drug store but there is no surer or quicker stomach relief known.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't ose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR, SOFT, GLOSSY, WAVY

A Small Bottle Destroys Dandruff and Doubles Beauty of Your Hair

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as [illegible]

666 cures headaches, biliousness, loss of appetite, foul breath, of that tired aching feeling due to malaria or colds. It removes the cause.

Stomach Troubles

If you have trouble with your stomach you should try Chamberlain's Tablets. So many have been restored to health by the use of these tablets and their cost is so little, 25 cents, that it is worth while to give them a trial.
