Coated Tongne Means Lazy Liver.

When your doctor looks to see if your tongue is coated, he is trying to find out if your liver is working properly. A few years ago doctors had to prescribe calomel—there Was nothing else to give.

Recently in many sections of the country Dodson's Liver Tone has practically taken the place of calomel as a liver remedy. Dodson's Liver Tone is mild, pleasant tasting and harmle s—which makes it a fine medicine for use when pour children become bilious and constipated. But the most remarkable feature of Dodson's Liver Tone is the fact that P. E. Davenport who sells, guarantees it absolutely. The druggist will return your money without argument if a bottle fails to give entire satisfastion.

Price, 50 cents. We suggest that you get a bottle today and have it ready for the next member of your family whose liver goes wrong. Ad.

Now Paint.

Strike when the iron is hot and paint when the property needs it.

They paint ships a dozen times a year; yes, some of them, every voyage. What for, do think? To look nice and get business.

A livery keeps its carriages painted and varnished and washed, to look nice and get business.

A man, with a horse for sale or to let, "does it up," and Devoe is the paint.

There's more in paint than to keep out water. Paint for looks and you needn't think about water. A fresh coat of paint once a year is about as good for his credit as paying his debt But the man whose buildings and fences look new very likely, has no debts.

DEVOE

J. C. Spruill, sells it.
