A.A.A Stops Work On Issuing Cards For Cotton Quotas

The Vance AAA committee today received telegraphed notice to stop work on all work in connection with issuing marketing cards and other work in connection with 1943 cotton quotas in accordance with recent decision of the war food administrator to suspend marketing quotas on this year's cotton crop.

Decision to lift the quotas was made after an Agriculture department crop report estimated the 1943 acreage at about 8,000,000 acres less than the 26,000,000 acres which farmers could have had in cultivation under the AAA program.

As a consequence, farmers will be free to sell all the cotton they harvest this year without regard to penalty. Under quotas excess sales were subjected to a penalty of about eight cents a pound.

CEILING ON TOBACCO WILL BE SET JULY 27

Columbia, S. C., July 14—(AP)—A ceiling price on the weed tobacco will be set July 27 and will continue for the selling season, OPA director Prentiss M. Brown, has informed Governor Olin D. Johnston.

Johnston protested to Brown two weeks ago what he terms the setting last year of a ceiling price for South Carolina market that was lower than that in other leading tobacco producing states.

The Governor said Brown told him there'll be no discrimination against South Carolina tobacco growers this year."

The Governor said Brown did not disclose the ceiling price.

Brothers Are Fined In Liquor Case

Jury Probes Mine Strike

ing production at government-operated mines.

District leaders of the United Mine Workers of America have insisted that miners work stoppage since they were ordered back to work by the UMWA policy committee June 22 was illegal.

Meanwhile, President Roosevelt's statement yesterday that the mines would be returned to private owners as soon as possible recalled the warning of UMW President John L. Lewis that the truce under which the miners returned would "automatically terminate" if the operators took charge before signing a contract with the union.

Martinique Joins Allies

the fold today and placed its ships and resources at the disposal of the United Nations.

It was significant to many observers that the formal transfer of allegiance comes on the 154th anniversary of the storming of the Bastille—a revolutionary act that marked the birth of French freedom.

Henri Hoppenot, delegate of the French Commission of National Liberation, was due to arrive at Fort de France today and formally take over from Admiral Georges Robert the authority he formerly exercised as French high commissioner of the Antilles.

Important primarily as a consolidation of the French front for liberation of the motherland, the adherence of Martinique to the United Nations cause was a source of satisfaction in this country too: for the French Antilles (Martinique and Guadeloupe) are in the front yard of the Panama Canal. What does on there cannot be a matter of indifference to Washington.

Most important of the naval vessels now at Martinique is the 22,000-ton aircraft carrier Bearn. Also at Fort de France are the fast cruiser Emile Bertin, the training cruiser Jeanne d'Arc, various auxiliary vessels and a number of tankers.
