LARRY P. McCULLEN

In an interview with Larry P. McCullen today, he reminded the local newspapers of the upcoming Town Election in Warsaw, on Tuesday, May 2, 1961. Larry, the youngest candidate, is seeking office as Town Commissioner in this election. A Political Science graduate of the University of North Carolina Scoutmaster, Fireman, and active in many other civic activities, he is particularly interested in seeing a large turnout in this election. In a field of seven candidates, four having had experience, and three running for the first time, he feels the citizens of our town have an excellent choice in choosing a qualified Board of Commissioners. Keenly aware of the duties and obligations to represent all of the people, he is of the belief that with the wisdom and experience of the older members, combined with the energy and youthful views of younger members, will make an excellent combination of Commissioners that will work for the benefit of the town of Warsaw. Larry sees the potentials of our town as unlimited and whether elected or not, he says you can expect him to put forth every effort to make our town prosper and grow.
