Poole's Medley

BY D. SCOTT POOLE

The wealth of the world was created by labor. The ships, housed munition, wearing apparel, food, men, wagons, trucks, guns, and ammunition, and whotever was used for any purpose whatsoever, and when it was destroyed, it was gone.

The loss of life in modern warfare is not so heavy as it was in the Civil War. History states that the number of dead in several battles were almost as many as were killed in either World War I or II.

An education really means gaining the ability to think. To get the meaning of things. If I am not mistaken, the men of 150 years ago were educated. Their speeches and writing indicated such.

What man in our country today can make a speech equal to Daniel Webster's speech on "My Country"? "I love my country. May it ever be the brightest star in the constellation of nations."

Some people who lived since I can remember studied no other book except Webster's Blueback Speller. Those who learned that Speller could go on a long distance in the pursuit of knowledge.

Some educated business men seem to think there is no scarcity of lumber, or of building materials that the annual growth covers all that consumed, destroyed by insects, fire, and storms. They are wrong.

I remember the valuations of property for taxation in the 1890's for I made several taxlists. There was almost as much property then as now, but it is valued much higher today. I made the tax list in Quewhiffle Township in 1910 and the lands were valued at from 50 cents per acre to $2.00 per acre.

It was in the newspapers that 55 of the total number of prison camps in North Carolina are now equipped with Television sets. Is that a necessary expense?

Help the helpless, comfort those who mourn, and spread smiles along the pathway of life, but guard against extravagence.

It was altogether correct in places, but I heard loud and boisterous singing at Pleasant Hill Methodist Church, where all denominations met and joined the sing.

Those Pleasant Hill meetings were from 1858 until 1880, that is, my part in it was. But it was soul stirring, and made many feel like shouting, and they shouted.

I have been wondering if the change in religious affairs are due to refinement or to a lack of warmth of religious zeal? The change is not an improvement.

There is much more enjoyment in living a life with a wise reference toward the unending eternity before us, sure to come to us sooner or later. It is coming sure.

None of us have any idea of the time and place from which we shall be called into eternity. Our future existance will not be ended ever, but one continued existance either in the most blessed happiness, or eternal unending misery and woe.

All manner of crime is being charged against men and women in responsible places—bribes, embezzlement, divorces, the marriage relation ignored. We are on our way down to the late-year condition in Russia where the marriage relation is ignored.

It is a worthwhile accomplishment to be a good speller, and a good singer, and a man free of ruinous, sinful faults. We would all enjoy life more if such comes.

Why it will PAY YOU to BUY ENOUGH FERTILIZER THIS YEAR

There is only one way to increase farm income in a year of rising costs—make the same land and the same labor produce more.

That takes fertilizer . . . and enough fertilizer to do an effective job. Skimpy applications may let you break even . . . but for profits, use the full amount your land and crops require. Check with your County Agent . . . follow his advice.

Fertilizer costs have actually gone up very little. Just look at what has happened to most things you buy . . . and compare the increase. Fertilizer prices still represent mighty good value.

OVERCOME HIGHER COSTS WITH HIGHER YIELD PER ACRE

feed your crops with NACO FERTILIZERS

save your crops with NACO INSECTICIDES

Good fertilizer is an investment . . . not an expense . . . and NACO makes good fertilizer. When you buy NACO you're sure of quality . . . sure of value. NACO uses only the best materials . . . NACO blends these materials with painstaking care . . . NACO makes sure that all fertilizers sold have been properly cured. NACO has consistently cooperated with Carolina experts in developing the right formulas for all Carolina soils and all Carolina crops.

As new pest controls have been developed, NACO has kept pace with progress, bringing you the best insecticides for all purposes. All are made the careful NACO way . . . all give you top value for the money you spend.
