A Monster Lemon Raised in This City Shows What Can be Done.

The possibilities of the lemon culture in this section is nicely demonstrated by a fine sample of the fruit now on exhibition at Bradham's drug store. It was raised by Mrs Sallie E. Dugald at her home on Metcalf street. The tree is kept under shelter during the cold months but being kept in a box it can easily be removed to the open air in favorable weather.

The fruit is a wonderful specimen of the "Ponderosa" variety. At the time it was picked it weighed 1 pound, 9½ ounces; yesterday when weighed it had shrunk one fourth of an ounce. The circumference, measured both ways, was 15 inches. The quality is superior to the smaller lemon. The fruit is more juicy and rind thinner. It is estimated that there is the equivalent of three lemons in this one specimen.

It is clear from the figures represented that when such fruit can be raised here, that there is something in the nature of the climate and soil to make the lemon culture a successful industry. Other fruit peculiar to tropical countries has been raised here with good results and there is reason to believe that lemons will grow here too.

VOICE OF THE PEOPLE.

Concerning the Draw, Neuse River Bridge

As a frequent traveler over the Neuse river county bridge, I have the following suggestion to make to the County Commissioners.

A bar or gate should be arraged at the opening which occurs when the draw is in position for the passage of boats. This gate or bar should work automatically upon the opening of the draw.

I have had quite an unpleasant experience on two occasions and had the conditions been slightly more unfavorable I probably would not be alive to write this suggestion.

I know that the law requires the keeper to open the draw upon signal from boats, and with a restive horse one is sometimes in considerable danger of going into the river if close to the draw when suddenly opened.

I think that an arrangement as above suggested would reduce the danger to the minimum.

An Educational Mass Meeting.

There will be an educational mass meeting at the Court House, Monday night January 18, 1904.

Donations have been asked from several millionaires in the North who are watching the results of this meeting. Dr Chas F Meserve, President Shaw University Raleigh, N C, will be principal speaker and will make recommendations to Northern philanthropists according to the necessity of the real need of the educational work. It is hoped that enough of the white and colored friends who are interested in the educational advancement of this community will be present to bring a sufficient amount of influence to bear upon the Doctor so that the New Bern Collegiate Industrial Institute may receive at the hands of his recommendations not less than $25,000 for which appropriations have already been made. The left-hand side of the court house will be given exclusively to the white people.

A Good Thing to Have Around is a keg of ale in the cellar—especially if it's of that pure brand, the Budweis. Fine thing to have a pitcher for meal times, when guests come in and just before retiring at night Budweis, ale aids digestion and induces sound slumber, if taken as a "night cap."
