## $1,200,000,000 WATER PLANS

### United States Power Commission Tells of Immense Projects Contemplated.

Washington.—Applications for permits looking toward the development of more than 12,000,000 horsepower, sufficient to supply 20 cities the size of Chicago, had been filed under the federal waterpower act with the federal power commission up to December 18, the commission announces.

Completion of the contemplated plans as shown in the application, the commission estimates, will advance waterpower development in the United States by more than 40 per cent, and will involve an investment of $1,200,000,000.

The projects covered in the applications range from a small ten horsepower plant for a colony of summer cottages, to the storage of the waters of the Upper Colorado, and its tributaries in a huge reservoir.

Twenty-seven states, in addition to Alaska and the District of Columbia, are represented in the 129 applications. California leads in the number of permits, with 35; New York is second, with 13.

## MEXICAN OIL TRADE DOUBLES

### Shipments for Year 1920 Expected to Exceed 125,000,000 Barrels.

Mexico City.—Figures showing that oil shipments from Mexico doubled since the first of last year have been published by the department of industry and commerce, which records October shipments of 17,301,000 barrels, as against 18,061,289 barrels in January.

These figures are striking in view of the fact that in 1901 Mexico shipped out 10,345 barrels and in 1910, 3,634,000 barrels.

Shipments in 1919 totaled 87,072,954 barrels and there is reason to believe that this year's shipments will amount to more than 125,000,000 barrels.

Announcement was made recently that United States petroleum companies have just paid the Mexican government more than 8,000,000 pesos in taxes.

It is estimated that the petroleum industry in Mexico represents a value of $700,000,000 gold.

### MATTHEW HOUSTON INVOLVES WHITE YOUTH IN MURDER

MEMPHIS, Tenn., Jan. 26. — The police today were searching for a white youth who according to the alleged confession of Matthew Houston, 16 year old negro, witnessed the murder of five-year-old Frank Dailey, near here Monday afternoon, and who was said to have aided in carrying the body to a nearby field. Houston, against whom suspicion was directed, confessed, the police say, that he cut the child's throat but denied he slashed the tongue and otherwise mutilated the body.

The murdered boy was the son of a farmer and had been missing more than 24 hours before his naked and mutilated body was found in a field some distance from a clump of plum trees. Houston, who was first lodged in the county jail here, later was taken to Nashville for safety, when a mob bent on lynching him, was reported to be forming.

Houston was arrested last night and according to a statement made by Sheriff O. H. Perry, confessed that he slashed the child's throat with a knife after the little fellow had fallen from a second story window of the negro's home. The only explanation offered by the negro, according to the sheriff, was that he was "afraid the white folks would kill me," because the child was hurt. Houston is said to have denied that he mutilated the body.

### HARDING IS BASKING IN FLORIDA SUNSHINE

FORT PIERCE, Fla., Jan. 26.—Golf attracted President-elect Harding ashore from his houseboat, the Victoria, again today, the vacation party putting in here early in the day's run for a try at the Fort Pierce links. It was midday before the journey southward was resumed and indications were that the Victoria would not reach Palm Beach until tomorrow. So far golf has been the only recreation of the president-elect and his companions since they left St. Augustine Sunday.

Fishing is to be a big feature of the vacation trip before it is over, but for the present they prefer to spend their hours aboard their houseboat lounging on deck. It is likely that before turning northward on the return trip they will spend several days on the fishing grounds near Miami.
