Some of our merchants say trade is rushing—by the door.

It began turning cold in the afternoon yesterday and by night is was quite cold.

Remember the meeting at the rooms of the Y. M. C. A tomorrow night at 8 o'clock to organize for the Fair.

Every one that is interested in our Fair, and surely all in this vicinity should be, ought to commence now and see in what way they can aid to make it a success.

Our Aurora correspondent writes that the people of his section are desirous of a daily mail to New Berne. We ought to be closer related to that progressive little town.

Farmers are coming to town but very little now. Suppose they are making preparations for pitching the coming crop which we hope, even if it is before it is planted, may be a bounteous one.

Capt Davis of the Eaglet, of the E. C. D line, desires to thank Capt. Hand of the revenue cutter Stevens, for his timely and important aid in relieving him in distress on Thursday last.

The cold weather signal flag was flaunting to the cold northerly winds yesterday afternoon. Perhaps we will get a breath of the northwestern blizzard. Later—it begins to look blizzardly.

A few shad and a few herrings are being brought in by our fishermen. Fish dealers say that it is rather early in the season, but with a few days of fine weather, they think herrings will begin to come in abundantly.

Owing to repairs to be made to the "little store 'round the corner," J. F. Ives announces his disposal of goods, retail or wholesale, at cost for the next thirty days. This store is already one of the prettiest displayed in town.

Rev. Mr. Edwards built brought to our office last night a pretty little case of honey, or at least it was made by bees. Mr. Bull calls it persimmon jelly, as this fruit was about the only thing accessible out of which it could be made, it being September.

The inhabitants of the Northwest fear the visitation of another blizzard that has been predicted. The one just past was probably the worst ever known. More than one hundred people froze or died from the effects of the cold. The thermometer registered the unprecedented low mark of 62 degrees below zero.

A prize of ten dollars in gold was received by Howard & Jones, one of our business firms, yesterday. It was from the publishing house of the "Sunny South" of Atlanta, which is a readable paper. Mrs Mollie Lewis is agent for it here. She is agent also for a novel arrangement in the form of a patent shoe heel, which looks as though it might be worthy of adoption.

West End.

Some of the industrious citizens of that section of our city known as Five Points have come to the conclusion that in consideration of the improvement and progress which has been made in that part of the town, the name should be changed. "Five Points" has a rather disreputable sound to their ears. They say that section is getting to be as respectable as any part of the city. They want it to be called "West End." We think this is appropriate. Henceforth let it be called West End. Corresponding with West End, London, "you know."

Thrashed by a Boy.

A colored youth by the name of John Williams, hailing from Goldsboro, but who has been in New Berne long enough to be known to possess a bad character, was taken in by policeman Gaskill yesterday for stealing some bacon that hung on exhibition in front of C. E. Shover's store. He appeared before Justice Hancock and was remanded to jail.

Steamer Movements.

The Eaglet of the E. C. D line arrived yesterday morning with a cargo of merchandise and will sail Monday afternoon at 4 o'clock. The Vesper of this line will arrive today.

The Newberne of the O. D. line arrived last night from Norfolk and will sail on return trip tomorrow morning at 9 o'clock.

Personal.

Mr. Isaac Patterson returned from a trip to Philadelphia last night.

Mrs W J Street has removed from Goldsboro to New Berne.

O H Guion, Esq., made a business trip to Trenton yesterday returning last night.

Mr. Hill Humphrey returned last night from a trip to Snow Hill.

Music House Wanted.

There is not a regular place in New Berne where musical merchandise is kept. We believe that a house covering this trade opening on not too large a scale could be made to pay here. The person should be a musician themselves, practically, thoroughly understanding the repairing and tuning of all instruments. It does not require a trained ear to know that many of the pianos in New Berne are badly out of tune, and there is no one to put them in tune until some professional comes along probably only a tinker—who charges his own price, cleans up, never to return again.

How Incorrect.

The Lynchburg (Va) News says:

"The suggestion that a man can't eat thirty birds in thirty consecutive days is all nonsense. There is a New Berne N. C., man who has eaten six a day for sixty days and says he will keep it up as long as the birds are furnished without charge."

Six a day for thirty consecutive days, 360 birds. How preposterous. That is just twelve times as many as he did eat in that time. Thirty quail were eaten by a gentleman in this city in thirty days, but that takes a great deal of being 360. How some reports get abroad can hardly be accounted for.

A Craven County Farmer Visits the White House—Is Raised on the Toes of his Boots by the President's Grip, and Sees Wade Hampton

The Washington correspondent of the News and Observer gets off the following good one on one of our best Craven county farmers:

"Joel Kinsey, one of Representative Simmons' constituents, visited the White House the other day and shook hands with the President. By way of introduction, he told the President that he was a plain Core Creek farmer from North Carolina, that he had read his message twice and that he endorsed every word of it. The President made a second pass at his hand and gave it a grip that raised the Core Creek farmer on the toes of his boots. Leaving the White House, he went to the Senate to see Wade Hampton, who 'Bill Lane said was the biggest man in the country. He shook the distinguished South Carolinian by the hand with unaffected pride and admiration; told him 'Bill' Lane said that he was the best fighter in the Confederate army and the biggest man in the country, and added that 'Bill' Lane was good authority down his way. Kinsey said, on leaving the Senator, that he was not exactly ready to die yet, but he was much better satisfied to go, now that he had seen Wade Hampton."

Church Services To-day.

Christ Church—W. W. Shields, Rector. Third after Epiphany. Services at 11 a. m. and 7 p. m. Sunday School at 4 p. m. All people will be welcomed to the services of this church. Ushers at the doors.

Presbyterian Church—Rev L. C. Vass, D. D., Pastor. Services at 11 a. m. and 4:45 p. m. Sabbath School at 3:30 p. m. All are welcome at these services to worship the Lord together on his holy day.

There will be services in the Methodist Church at 11 a. m. and 7:15 p. m., conducted by the pastor Rev. L. W. Crawford. Pews are free. Ushers are always in the vestibule to receive strangers. All persons are cordially invited to worship with the congregation. Sunday school at 3 p. m., J. K. Willis, Supt.

Second Adventist Church—Elder Eugene Scott, Pastor. Services at 11 a. m. At 7 p. m. Rev. Mr. Bull will preach. The public are cordially invited.

Y. M. C. A.—Devotional meeting at the rooms of the Association on Middle street at 5 o'clock p. m. Subject: "Christian Daring." James Chas. L. Leader. C. E. Hancock.

Another Failure.

We regret very much to announce another failure in business. The well known firm of Dail Bros. who have for many years done an extensive business in Snow Hill, Greene county, with a branch house in this city, have succumbed to the stringency of the times and made an assignment of their property for the benefit of their creditors. The liabilities are reported at about $80,000, assets about $100 000. J. E. Exum is the assignee of Snow Hill stock and W. D. Wallace for the New Berne branch.

These gentlemen doubtless had sufficient credit to have continued their business without interruption, but it is presumed that they deemed it better to wind up their affairs than to bridge over until better times.

This failure is a great surprise to the people of Greene county, as well as in this city, where the firm has for years commanded the confidence of the people and a large share of their trade. We are not informed as to their future plans for business, but they have friends far and wide who still have confidence in them and will follow them with their patronage.

The Wilson and Rankin Troupe.

Owing to the late hour at which the performance closed on Friday night we were only able to give a hurried notice of the entertainment given by the above troupe in our theatre.

We wish now to add that this troupe, in addition to the excellent proficiency of the different artist employed, deserves a commendation to the public for the refined taste displayed in the selections and combinations to amuse. Not a word was spoken or act performed that the most modest could object to. In this particular we feel inclined to congratulate the managers and to commend them to public patronage. No now flung incendoes or smutty sayings occur in their very amusing entertainments while each and every one seems to be master of the part in which he appears.

Geo. Wilson is inimitable as a humorist. Master Duval is a phenomenon in the line of contortions, and Kelly and Ashby as acrobats were hard to equal. This company comprises an aggregate of talent seldom met with on the road.

List of Letters

Aurora Items.

Messrs. Tuttle and Hawkins are in town.

A daily mail to New Berne is the latest.

Who robbed my log carriage? is the cry. Echo answers, who?

Tournaments are in fashion. I hear the girls are having tournaments—leap year.

Rev J A Green, the popular pastor of the M. E Church, is having very interesting meetings on Wednesday night as well as Sunday and Monday nights.

A petition is being signed by our people to get a daily mail from Aurora to New Berne. We need a daily mail; we ought to have it, and we believe Major Latham and Mr. Simmons are the men to help us get it.

The exercises at Aurora Academy were very interesting. This Friday evening "anniversary of the birthday of R E Lee," a very fitting or suitable exercise for our children to keep in remembrance this truly great and good man. Prof. Bonner is the right man in the right place.

Wild With Enthusiasm.

COLUMBIA, C. S. Jan. 18.—In an election today, the city of Columbia, by a vote of fifteen hundred and seventy-six to thirteen, accepted a grant of the canal and will guarantee $200 000 of bonds for its completion. When it is finished, thirty thousand horse power will be available, and the canal will be used as a water way for steamboat traffic from Charleston to the interior of South Carolina, plying along the Broad and Saluda Rivers. The city is wild with enthusiasm over the prospect of becoming a great manufacturing centre. Cannons are booming, bands are playing and the streets are crowded with people. Steamers ply between Charleston and Granby, three miles below Columbia, and at Granby they will enter the canal when the latter is completed.

Always keep it on hand, as delay increases suffering, and if you feel sickness coming upon you, take a dose of Laxador. It can do you no harm, and may save you from the sick room. Price only 25 cents a package. Sold everywhere.

All that have once used it recommend Dr. Bull's Baby Syrup the best medicine known for the complaints of early childhood. Price only 25 cents.

EAST CAROLINA IMPROVEMENT.

A Coast Line of Railway.

NUMBER 12.

EDITOR JOURNAL:—Craven county has an empire of wealth in her waste lands. But a little over one fifth of her territory is improved land.

The county comprises 251 592 acres, of which 52 392 is improved, and 199 199 unimproved land.

Allowing for swamps and other unavailable land, she has doubtless 150 000 acres in all, capable of a high state of cultivation; so that there are today about 100 000 acres of good land actually at waste in the county, and upon which somebody is paying State and county taxes.

Unimproved lands are a drain upon the vitality of a country's industries. The life labor of many a modest, hard working farmer has been devoted to the paying of taxes on unimproved, non-productive land. Many estimable men of our acquaintance have employed the energies of a life time in adding to their already broad acres of waste land. We knew a magnificent fortune, running into the hundreds thousand to be finally eaten up and the estate left bankrupt by the acquisition and holding of unimproved and unproductive city property.

It is a crime against progress and the well-being of the people to encourage the perpetuation of the wilderness in an old settled community.

Every effort should be made on the part of all the people of an old community like ours to increase the population by bringing in new people to fill up and develop these waste lands.

But at the rate we are going on the prospect for building up our waste places is not of the brightest, and when one reflects that the people of Craven are paying taxes on five acres of land for every one that produces them a dollar the wonder is not so great that they should complain of taxes.

One would think however, that they would be only too ready to adopt any measure that would lead to the introduction of their unoccupied and waste lands to new people of means and industry who would buy, occupy and improve them thus lightening the common burden of taxation.

Turning to Jones and Onslow, we find that one-third of the land of the first and about one-fourth of the second is improved. The exact statement is Jones, improved 53 605 acres, unimproved 139 324. Onslow, improved 6,768, unimproved 215 932 acres.

Is it any wonder that these communities do not improve, that they grow no richer; that their real estate value has not increased a dollar in seventy-five years; that their population decrease; that the spirit of progress and enterprise is dead within them?

Suppose the taxes paid by the people of Craven, Jones and Onslow, on their unproductive, waste lands for the past seventy five years could be dumped down in one lump what a vast amount of wealth it would show to have been worse than thrown away?

Computed at compound interest what a sum of money it would represent as lost forever, to the people of these three counties?

Then if you please, make an estimate of seventy-five years' rent for these lands, supposing them to have been cleared and under cultivation, people these lands with a thrifty population, sum up the aggregate of their surplus productions for seventy five years, and adding the increased value of improved on unimproved land, and you have a grand aggregate of lost county wealth absolutely astounding.

Go on at the present rate another seventy five years, and *"what will the harvest be?"*

MORE ANON.

Speaker Carlisle Better.

WASHINGTON, D. C., January 19.—While Speaker Carlisle is very much improved today, and the indications point to his speedy recovery, his physician says it will be quite out of the question for the patient to undertake to keep his Atlanta and Macon engagements on the 23d and 26th of this month. Mr. Carlisle might go and the trip, but in the opinion of the physician it would be a hazardous undertaking. Dr. Sims says, also, that it will be some time before the Speaker can resume his Congressional duties.

Another Blizzard Predicted.

MINNEAPOLIS January 19.—A Pierre Dak. special says: The trains have been ordered to wait the abatement of the storm. The signal officer at Fort Sully reports another blizz from the north and predicts a terror. The mercury is now fifteen below and still falling.

Coal Selling Very High.

TAMAQUA, PA., January 9.—Coal is now selling at $4 75 per ton, or $4 at the colliery, the highest ever known in this section of the coal regions. Very little coal of domestic sizes can be had.

Biliousness.

We have tested its virtues personally, and know that for Dyspepsia, Biliousness and Throbbing Headache, it is the best medicine the world ever saw. We tried forty other remedies before Simmons Liver Regulator, but none of them gave us more than temporary relief; the Regulator not only relieved but cured us. H. H. Jones, Ed. Telegraph and Messenger, Macon, Ga.

Portraits.

In oil or crayon from life or small pictures done by Miss Aurora Mace, who is teaching drawing and painting by latest methods, at her residence on Johnston street. jan11dtf.

There were all the evidences of a coming storm; but when he drew from his pocket a bottle of Dr. Bull's Cough Syrup then came a calm, for the baby had the croup and would now get well. Little Willie screams and shrieks with a burn upon his arm. To little Willie joy is other by using Salvation Oil, the great liniment.

An Explanation.

When I advertised for Christmas Gifts and New Year's Presents, it was only a reminder to those who owed me little amounts to pay up. After due time I think I must have been dreaming, for they don't pay worth a cent.

A few good friends have paid—some good friends have not paid.

Well, they will, won't they?

I don't know; time will tell. I think it will be after we get the Railroad built from New Berne, through Jones county, to Onslow, and on to the sea. We will see.

P. S.—I will continue to supply all those in want of a good Cigar, Tobacco, Smoking Tobacco, Fine Cut, Chewing, Pipes, Stems, and smoker's articles generally, the best to be had, cheap for CASH.
