BUSINESS LOCALS

PICNICERS. Remember no well regulated family will go on the picnic tomorrow with an old bucket or box to put their dinner in. No picnic is a success without a nice North Carolina Ham and a nice covered basket to put it in. At the only cash store in North Carolina, at Humphrey & Howard's old stand you can find picnic hams, picnic baskets and picnic buckets cakes and crackers for the picnic tomorrow.

PURE Paris Green and Laird Plaster certain death to potato bugs, for sale by GEO. ALLEN & CO.

SAY, HUSBAND, have you seen that tremendous crowd of customers at Hackburn's, The Grocer Well, the cause of it is, they are getting nicer goods for the same money than at any other Grocery Store in the city, and you know that it is what the people want. I declare I have not failed on my bread a single time since I have been getting that nice flour of his at only 3c. per lb., and *that* Butter is always sweet and nice and is perfectly delicious on those hot rolls.

This conversation is correct, that is just what I am doing. If you don't think so, come and try. Money refunded if goods not found as represented. To the smokers I will say that I have 25 cases more Tar Heel at 40c. per lb. in any quantity. Also the best 2 for 5c. Cigar in the world. may5

Greensboro Female College.

The commencement exercises of this institution will take place on May 30th and 31st. The annual sermon will be delivered on Sunday, May 27th by Rev. W. S. Creasy of Wilmington. The address to the Society of Alumnae by Bishop C. B. Galloway, D. D., of Mississippi, on Wednesday, May 30th at 11 a. m. The literary address by Rev. Thos. Hume, D. D., of the University of North Carolina, on Thursday, May 31st at 12 m. The annual concert, Thursday 8:30 p. m.

The graduating class numbers thirty-two, among them Miss Hattie L. Dail of this city, and Miss Lena M. Hudgins of Lenoir.

Chemical Labratory.

One of the useful institutions of New Berne is the well equipped labratory at Meadows' drug store operated by our young townsman, R. J. Gooding. Here, for a reasonable compensation, food adulterants, commercial fertilizers, marl, phosphates, mineral waters, etc., can be analyzed and the component parts carefully and truthfully ascertained. Mr. Gooding's analyses have on several occasions been compard with that of the State Chemist and always found reliable and carefully made. Here are some of the analyses made:

Ground fish scrap, nitrogen, 8 per cent.
Equal to ammonia, 9.71 per cent.
Total phosphoric acid, 6.65 per cent.

Cotton seed meal, nitrogen, 7.30 per cent.
Equal to ammonia, 8.69 per cent.

Ground bone, such as picked up from the yards and streets of New Berne and vicinity, ammonia, 5.10 per cent.
Total phosphoric acid, 19.32 per cent.
Acid phosphate, total phosphoric acid, 14.55 per cent.

It will be seen that the bones that are usually thrown away by our farmers as worthless, contain more than five per cent. more phosphoric acid, a valuable element in the make up of a good fertilizer, than the acid phosphate which they buy. These things ought to be considered by our farmers. They let go to waste tons of valuable fertilizers which might be saved with very little trouble.

Mr. Gooding is prepared to make accurate analyses of any soil or manures which farmers may bring him, and will do it at a reasonable charge for his work, and we are certain many farmers would be greatly benefited by such analyses, because by this they can learn the deficiencies of the soil and how to supply it for any given crop.

An iron tank containing 15,000 barrels of oil was struck by lightning at Oil City, Pa., last Saturday, setting fire to the oil which boiled over and caused the fire to spread with astonishing rapidity. Loss estimated at $250,000.

The steamer Gate City, from Boston to Savannah, collided with an unknown vessel two hundred miles northeast of Cape Hatteras in a dense fog at 2 o'clock Saturday morning. The steamer was struck on the port side forward. The vessel's bowsprit penetrated the steamer's side, tearing away the forward rails and part of the deck. The vessels rebounded, and came together again after the first shock of collision, and nothing was afterwards seen of the sailing vessel. The steamer remained as near as possible to the scene of the collision six hours, cruising and blowing fog whistles, and then resumed her voyage and arrived at Savannah on Monday afternoon. The passengers on the steamer were in a panic, but no one was injured.

A SOUND LEGAL OPINION.

E. Bainbridge Munday, Esq., County Atty., Clay Co., Tex., says: "Have used Electric Bitters with most happy results. My brother also was very low with malarial fever and jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Horse Cave: Ky., adds a like testimony, saying: He positively believes he would have died, had it not been for Electric Bitters.

This great remedy will ward off as well as cure all malarial diseases, and for all kidney, liver and stomach disorders stands unequaled. Price 50c. and $1 at R. N. Duffy's drug store.

THE A. M. E. Z. CONFERENCE.

Article VI.—Miscellaneous.

Sec. 1. The board of bishops, the general steward and three of the annual conference stewards, residing nearest to the meeting places of the annual sessions of the board of bishops, shall constitute a board of apportionment.

Sec. 2. It shall be the duty of said board to apportion all surplus of general fund according to their best judgment, as follows: First, the back salaries of the bishops due prior to June 1882. Second, to provide a fund for the transportation of students to Livingstone College, and to meet any deficiency in the running expenses of said college. Third, to increase the efficiency of the Book Concern and the Star of Zion. Provided that whenever any conference has raised an amount equal to $700 for each presiding elder's district in said conference, where there are presiding elders, or for each ten circuits or stations where there are no presiding elders, all the proceeds of the general fund in excess of that amount shall be appropriated to as many of the following purposes as the conference may determine: the superannuated and worn out ministers, the widows and orphans of deceased ministers, church extension, conference educational institutions, local missions and incidental expenses of conference.

Sec. 3. The collections taken to meet the bishops traveling expenses when on their regular episcopal tour shall be accredited to the church as general fund, provided that each bishop shall render an itemized account of the receipts from said collections and of his traveling expenses on the first Wednesday in January in each year. If there is an excess of receipts, he shall pay the same over to the general steward as general fund. If there is an excess of traveling expenses it shall be paid before the apportionment for the month is made provided further that the church as visited by the bishops shall raise a sufficient amount to cover their traveling expenses, which shall be accredited to said church as general fund. And provided further that the accounts thus collected by the bishops shall be counted as part of the amount appropriated for traveling expenses. Provided further that the general steward shall take no account of the apportionment for traveling expenses, except on the first Wednesday in January in each year. Provided further that no account be taken of the salary of the Superintendent of African missions until the semi annual meeting of the board of bishops, at which time all moneys received for foreign missionary purposes be applied to the payment of said salary to the amount of $400 and whatever deficiency there may be shall be met from the receipts on general fund for the current year as the pro rata will permit.

Sec. 4. It shall be the duty of the bishop in charge to see that all of the provisions of this plan are carried out as far as the law provides. Any one of them may bring charges against the general steward, if necessary, provided that he shall sit upon the trial of a charge signed by himself.

Sec. 5. The presiding bishop shall have power to fill any vacancy in the office of conference steward in the interval of the annual conference until the sitting of the same. And the board of bishops shall have the authority to fill a vacancy in the office of general steward in the interval of the general conference, should such necessity arise from any cause.

THIRTEENTH DAY.

The thirteenth day's session of the general conference of Zion Methodists was, after devotional exercises, called to order by Bishop J. W. Hood, D. D., and after the usual opening routine, the body got down to business.

A communication from P. Anstadt of York, Pa., publisher of the Zion church Sunday school literature, requesting an arrangement in future that would better protect his financial interest, was referred to the committee on publication.

Elder J. M. Hill introduced a resolution in regard to publications which was referred to the committee on Book Concern amid laughter.

Elder Geo. C. Scurlock introduced the following:

Whereas, It is the desire of many of the members of this general conference, that the business before it be finished up this week, in time to allow them to start for their homes; therefore

Resolved, That the resolution passed by this conference to set apart the last day of the session for the election of two more bishops, be rescinded, and that Thursday, May 17th, 1888, at 11 o'clock be substituted therefor; and at the hour named above on said day, we proceed at once by ballot to the election.

Bishop Hood in the chair, by a parliamentary strategy whirled the resolution to the committee on episcopacy so rapidly as to make Elder Schurlock's head swim.

An interesting communication was read from Rev. Andrew Cartwright, superintendent of African missions, giving an account of the progress of the work and its difficulties, and expressing the wish that Zion church would educate a native African boy and a girl at Livingstone College, for the field of labor. The report shows that at Brewerville, Liberia, there are 100 members, 67 Sunday School pupils and 28 volumes in the library, one elder, three deacons and one exhorter. The value of church property is $800. At Cape Palmas, Liberia, there are some forty persons and two local preachers who have called upon the superintendent to receive them into the connection.

A lengthy and important communication to the conference was received from Mrs. Carrie E. S. Cartwright, formerly of this city, and a well and highly respected member of St. Peter's Church, now a missionary in Africa.

Elder G. W. Offley of Pennsylvania, catching on to the missionary spirit infused by the reports from Zion's operations in Liberia, moved that each one of the members of the general conference contribute one dollar to be sent to Rev. A. Cartwright, as an expression of appreciation for his services and suffering, and that of Mrs. Cartwright in Zion's missionary cause on the west coast of Africa. Some seventy-five members came forward and put their dollars on the table. The roll will be kept open till the end of the conference until all have contributed their appreciation.

Elder W. H. Chambers of Kentucky introduced the following, which was adopted, after a very happy interchange of opinion:

Resolved, That our sister, Lucy in Africa, Rev. Andrew Cartwright, be empowered to select a native African boy and girl to be educated at Livingstone College, at the expense of the annual conferences of the A. M. E. Zion connection, each conference shall pay a pro rata share, [illegible] thereof, at the next annual session of the conference, [illegible]

Canady for several years and has proved himself well worthy of the lovely accomplished bride whom he has won. Accept best wishes of the whole Journal force.

At the last meeting of the returning board of town commissioners they voted the Mayor $200, and each commissioner $25 salary, which we learn is the full limit of the law. The new board have elected L. McCullen Secretary and Treasurer, and W. F. Stanley and S. H. Abbott street commissioners. They have employed J. A. Mewborne, sr., and W. T. Oast policemen. This business was not transacted until Monday night, May 14th, and our town was without street commissioners for several days during the rainy weather. But time and tide wait for no man. The rains fell and the floods came and overflowed Queen street opposite the court house. Things had gone yet till neither Pros. nor Antis could longer endure. As the water would stay it was decided last Saturday to charter a boat to navigate the waters. Cabbage Cox, being a man satisfactory to both wets and drys was chosen captain and John Coker, a good Salvationists, like the men of Galilee, was chosen to cast out his net. About the time all this was being put into effect, Mayor Hill became much concerned about the water and inaugurated his second term by taking the shovel himself and removing the obstructions, just before the drayman arrived with the boat. So this part of the town has gone dry, and our Mayor, though not very strong for Anti or Pro, is in full sympathy with the horney handed Democrat, not afraid to take the shovel and the hoe.
