FERTILIZERS for Truckers and for Cotton Planters, at
GEO. ALLEN & Co.

JAMES REDMOND, WHOLESALE LIQUOR DEALER, has just received a good assortment of Native Wines and Brandies, and also some of the famous California Wine known as the "Angelica," made from the famous and delicious Angelica Grape. This Grape is only successfully cultivated in the Southern part of California; it is a very delicate grape and requires certain conditions of climate to bring it to excellence, which conditions are only met in that paradise of the United States. His native North Carolina Wines and Brandies from the vintages of Garrett & Co. and J. Wharton Green are of very superior quality and are very pure. fe2 1m

I have reduced the price of my Fine Butter to 35 cents per pound, it is extra nice and newly made.

My parched Coffees are just splendid. Try a pound and be convinced—25, 30 and 35 cents per pound.

THE Wilmington Messenger says: "The indications are that a number of Cape Fear people will attend the New Berne Fair the 19th, 20th, 21st and 22d insta."

TODAY is Bible Day in New Berne, and, for that reason, we surrender our editorial space to a beautiful article on "The Book of Books," taken from the Detroit Free Press. Read it and then put it away in your scrap-book.

"SECRETARY BAYARD and Attorney General Garland, at the request of the President, heard arguments as to the constitutionality of the Nicaraguan Canal bill. It is understood that they will report in favor of its becoming a law."

A WASHINGTON dispatch of the 14th says: It is said at the State Department that as there is not the slightest wish or desire on the part of the President or Secretary Bayard to embarrass the incoming administration with respect to its Samoan policy it is not at all likely that the present administration will arrogate to itself the selection of the American representative at the proposed conference at Berlin.

THE Progressive Farmer of the 12th, appears in new dress, enlarged, and otherwise improved. It has just entered upon its fourth volume, and now is a good time for those to subscribe to it who appreciate a first class industrial and educational journal. We congratulate the farmers upon having so excellent a representative, and we equally congratulate the Progressive Farmer on having such a people to work for.

IN the U. S. Senate on Thursday Senator Edmunds offered a resolution, which was agreed to, directing the Committee on Commerce to take into consideration the question of the expediency of the purcase by the United States, of the Dismal Swamp Canal in the States of Virginia and North Carolina, with a view to its being improved and made an adequate highway for commerce between Chesapeake Bay and the principal sounds of North Carolina, and with a view to the utilizing of the fresh water of the canal and its feeders in a basin for the metal vessels of the Navy.

Damaging Reports.

We have time again called the attention of the board of council to the incorrect mortuary reports of this city that appear in the Bulletin of the North Carolina Board of Health which is issued monthly from the city of Wilmington.

These reports purport to be from the city clerk and are therefore taken as official. The December report puts the population of New Berne at 5,000, and the death rate being estimated upon this basis makes it by far the largest of any town in North Carolina. It is well known in this city that this mortuary report represents nearer *ten thousand* population than five.

Why should such official (?) reports be scattered abroad? Is it any wonder that some life insurance companies refuse to take risk in this section? Who is responsible for it, the publisher of the Bulletin or the city clerk?

We believe in *correct* mortuary reports but we see nothing to be gained by publishing such notoriously absurd and false reports as that published in the January number of the Bulletin. Instead of the temporary annual death rate of New Berne being 33 6 per one thousand in the month of December, it would not be above 20 if the population was correctly published.

We think the city council owe it to the people of New Berne to see that these reports are correctly made or not made at all. They go out as from the city clerk, and are therefore taken as *official* and reliable, and are scattered throughout the country.

The Goldsboro Argus of yesterday states that the Goldsboro Rifles cannot attend Governor Fowle on his visit to the Fair unless he can arrange for a special train on Tuesday morning. We regret this very much.

Read the schedule of the Fair train which will be of great convenience in taking people out to the Fair grounds. The train stops within about one hundred and fifty yards of the grounds. J. W. Stewart will also have vehicles ready at all times to be run from Hotel Albert or any portion of the city.

The address by Mr. L. A. Coulton Friday night at the Presbyterian Church was in behalf of the Y. M. C. A. of New Berne. It was a good, plain talk, and full of sound argument showing the great progress being made everywhere by these Associations, and the importance of business communities rendering them aid.

Mr. Jas. F. Norman, keeper of Croatan Light, brought to this city yesterday for exhibition at the Fair a perfect model of that light-house. The structure, which is of a good size, was made by Mr. Meekins, the assistant keeper, and is indeed an ingenious and beautiful piece of handiwork. It will be an object of interest, especially to our up country visitors who have never seen a screw pile light-house.

MR. A. K. HAWKES, Atlanta, Ga.:
Dear Sir—You doubtless remember me getting a glass of you nearly three weeks ago. I had then given up all hopes of ever being able to read again. The last three weeks, however, with the use of your glasses my eyes have been wonderfully benefited, and I have been enabled to do a great deal of reading, the first I had done in two years, and moreover I have great hopes of their entire recovery in a few years. I cannot too highly recommend your glass to my friends. Yours respectfully,
