THE way to suppress heresy is easy enough. Let the newspapers suppress the reports of heresy trials.

A SIMPLE solution of the World's Fair Sunday question would be to open both the Fair and the churches on Sunday. Every man would then be left free to go wheresoever he might choose, and would be exempted from the arduous duty of keeping tab upon his neighbor's conscience.—Philadelphia Record.

THE Populist governot of Kansas is very severe on rich people "riding in gilded carriages with liveried servants." A gilded carriage is certainly in very bad taste. Either the rich people of Kansas are devoid of taste, or, what is more likely, the governor doesn't know whate his talking about.

THERE is only one door into heaven; that door is faith. There is only one ship that sails for the skies, her name is Faith. There is only one weapon with which to contend with opposition; that is faith. Faith is the first step; faith the second step; faith the third step; faith the fourth step; faith the last step. We enter the road by faith, we contend against adversaries by faith; we die by faith; heaven is the reward of faith.

WOULD that my enemy write a book" has retired from business and has been succeeded by "Would that my esteemed contemporary aspire to a seat in the Cabinet." Editor Howell, of the Atlanta Constitution, laughs and waxes fat as he sits in has sanctum and watches the contortions of the Hoke Smith boom.

ALLIGATOR killing is one of the industries of Florida. They are killed for their hides. The United States Fish Commission reports that about 40,000 were killed last year. A Florida man who is versed in alligator lore says this means 1,000 more moccasins for every dead alligator, so it seems to be a question between the alligator and moccasin and Florida can take her choice.

REST is the deepest want in the soul of man. All men do not desire pleasure; all men do not crave intellectual food; but all men long for rest. It is this need which sometimes makes the quiet of the grave an object of such deep desire. There the weary are at rest. And it is this which, consciously or unconsciously, is the real wish which lies at the bottom of all others. O, for tranquility of heart, heaven's profound silence in the soul!—F. W. Robertson.

C. C. Green—White C oil.
D. Hassell—Important Notice.
Removed—Southern Express office.
C. E. Slover—Very best butter, etc.

Ice is cheap now. Dame nature is getting the best of the ice factories.

The Epworth League supplied about a dozen families with wood yesterday.

We are glad to see Rev. D. H. Petree, who has been sick, able to be out again.

Masters Henry and Adolph Nunn crossed Neuse river on the ice yesterday. They are very proud of the feat.

The thermometer got a little above the freezing point Saturday. It went up to 34. Friday night it was down to 10.

Between $400 and $500 were distributed to the poor yesterday. This was largely by colored societies to its members

It is hoped that the slight moderation is indicative of a break in the weather. The effect has caused a great suspension to business.

The weather forecasts would be of great interest—unusually so every day at this time, but for some reason they come only at intervals.

On account of the bad condition of Lowthrop Hall owing to the fire the usual drill of the naval reserve will be omitted tomorrow night.

The Southern Express office is to be repaired and better fitted up for serving the public. In consequsnce of which its business has been temporarily moved to the E. C. D. Line.

Mr. J. W. Stewart's little two year old daughter Sarah was seriously burned yesterday through the carlessness of the servant who left her for a short time where there was a fire.

The annual meeting of the Ladeis Benevolent Society will be held at the residence of Mrs. Susan Dudley Tuesday evening at three o'clock. The election of officers will take place and a full attendance is earnestly requested.

Two tug boats went to the bottom in Delaware river Thursday, having been crushed by the ice. Both vessels are regarded as total losses. Other disasters occurred to vessels but not severe enough to cause the destruction of any others.

A flock of about 20 wild geese lit and commenced feeding in Mr. J. L. Rhem's turnip patch yesterday, a quarter of a mile from his gin house. A boy fired at them and after circling around they went over to Mr. N. Tisdale's field. Being fired at again, they departed for other pastures.

The Y. M. C. A. has done a splendid work during the past week. With the means furnished them, they have distributed wood and provisions to about sixty families, and they have endeavored to be very cautious in knowing that every case was worthy of need. The city liveries were very kind is furnishing them team.

A Bridge for Trent River.

A bridge across Trent river, at the city, would be both a great convenience and advantage to the people on both sides of the river. People who now come in from the country have either to pay ferriage or drive well out of the way to Clermont bridge, both coming and going.

Not only would the bridge be an advantage in a business way, but as a means of pleasure also, as it would open up another way for good and pleasant driving. It is hoped the building of the bridge will speedily follow the granting of the charter for which application will soon be made to the legislature.

TUTTED BILLS pays the Salada.

Many Skaters.

A very large number of people enjoyed the skating yesterday. Numbers of them were on Trent river west of the railroad and that river was crossed by many it being only about three quarter of a mile wide.

The favorite resort however, was Neuse river at the foot of Broad street. Convenient to reach and well adapted in every way to the sport, the wide expense of frozen waters was thronged all day long with a hundred or two people. Business and professional men, young men and maidens, and children all getting the most fun possible out of the remarkably good opportunity afforded for this kind of pleasure. Some were going singly others in pairs, and others in greater numbers even up to lines of seven or eight with hands joined.

There were numbers of sleds and rockers out also—some propelled with pointed sticks by the occupants—some pushed or pulled by others. It was an interesting sight. No doubt very many would have treasured a photograph of the scene had one been taken as a prized souvenir of this memorable winter.

It the weather continues cold enough for the ice to remain good until tomorrow such a picture may be secured. Mr. J. P. Taylor photographed a number of places around the city Friday while they were beautiful with sleet and snow and if the skating is resumed Monday and a large crowd gathers he expects to take the animated scene.

Coming and Going.

Messrs. N. Schultz, E. Dannenberg and M. H. Sultan left yesterday to attend a wedding in Wilson, N. C. The two latter intend to continue their trip to the North on business.

Mr. W. D. McIver left for Chatham county to attend the wedding of his cousin ex-Senator Duncan E. McIver, of Sanford to Miss Katie Scott. The ceremony will take place in the Methodist church of Sanford next Wednesday at noon.

Mr. W. W. Clark and Misses Lalla Roberts and Jennie Hughes went up to Snow Hill to attend the dedication of the Episcopal church there today.

Lieut. F. Winslow left for Wilmington on a business trip.

Mr. Rom Nunn left to visit relatives in Lenoir county.

Mr. S. Z. Waters has returned from Pantego. He reports that a man by the name of Makely, drove a horse and buggy across an arm of Albemarle sound, on the ice, a distance of twelve miles.

Capt. F. R. McConnell of the Virginia Dredging Company passed through last night enroute to Cape Lookout via Morehead to get off two of their scows which broke loose from the tug on Sunday the 15th inst and were driven up on the beech. Other members of the company preceded him. Among the implements that they took down were 6 hydraulic jacks capable of lifting 30 tons each.

Crossed the Sound.

Two men came to New Berne Saturday from the opposite side of Neuse river shoving a flat bottomed boat on the ice. This is remarkable on a stream betwen one and two miles wide, but a more surprising bit of news is contained in a letter to Mr. J. B. Clark. It states that five Nothern hunters crossed Albemarle sound from Edenton to Mackey's ferry—(8 miles in width,) with a sleigh containing their baggage. Astonishing!

Another Society Helps.

Another colored society has taken action looking to the relief of its members and also to the assistance of others. It is St. Peters A. M. E. Z. Christian Aid Society, which has about 500 members. It met Friday night and appropriated funds to give 50 cents each to the poor of the society.

The society also gave $25 to the general relief fund. It looks well to see the colored people thus doing what they can to help themselves.

THE STATE ROAD CONGRESS.

An Important Meeting from Which Good Results May be Expected.

The State Road Congress called by proclamation of Gov. Holt met Friday in Raleigh at 11 o'clock.

Dr. H. B. Battle, as chairman of the committee of arrangements of the Raleigh Chamber of Commerce, called the congress to order and introduced Rev. Mr. I. McK. Pittinger, who offered prayer, after which Gov. Elias Carr officially opened the congress with an appropriate address.

Permanent organization being next in order, Mr. C. B. Watson, of Forsyth, was unanimously elected permanent chairman and H. B. Battle permanent secretary. The members of the press were called to act as assistant secretaries.

Governor Holt was loudly called for and spoke of the importance of the subject of road improvements, and his desire to see permanent good result from the meeting of this congress.

At the afternoon session the committee on the order of business made the following report, which was received and adopted:

The committee on order of business respectfully recommend that the following programme be adopted; that papers may be presented under each subject, to be read in full by the author, only if short, otherwise to be outlined by him. After presentation of papers, discussions to follow. Each subject to be concluded before the next one is taken up.

1. Is there any need at this time for the improvement of our public roads? The special reasons therefor.

2. The benefit of good roads and the values saved by the use.

3. The kind of roadways needed in various parts of North Carolina, and the best manner of keeping them in repair.

4. Ways and means for building good permanent public roads and maintaining them.

5. Suggestions for future organization and miscellaneous subjects. The committee further recommend that the first order of business be the presentation of a paper by Prof. J. A. Holmes, State Geologist, upon the Public Roads of the State.

The first order of business then taken up was the presentation of the paper by Prof. Holmes, which was outlined by him with brief extracts. The paper showed careful preparation and was a very instructive and valuable report on the materials for road construction in North Carolina, as well as giving the loss to the State on account of bad roads.

Mr. Chas. McNamee, of Asheville, discussing the subject of the benefit of good roads, read extracts from the report of the various United States Consuls abroad, gining the experience of other countries with good and bad roads. Mr. McNamee's words were listened to with much interest. Resolutions were then offered and referred to the committee as follow. Messrs. R H. Lewis, Dale, Gaster.

Mr. S. H. Hilton, of Mecklenburg, referred to the fact that his county had the first road law in the State and called on Capt. W. E. Ardrey, who had been largely instrumental in its passage to explain its provisions. After a very interesting description of the working of this law by Capt. W. E. Ardrey, which deserved and received marked attention, Mr. Hilton submitted a paper showing the detailed operations of the Mecklenburg road law, the means at hand for conducting the road improvement, and the practical advantages the system had proved to the people of his county.

Resolutions were then offered by Messrs. R. M. Douglass of Greensboro, J. Wooten, Ashley Horne, R. P. McAnally, and F. H. Busbee and were referred to the committee.

Prof. J. M. Bandy of Trinity College, presented a valuable paper on road construction.

Interesting debates were then listened to and participated in by Messrs. J. A. Bryan of New Berne, F. H. Busbee of Raleigh, R. N. Hackett of Wilkesboro, on the question of the comparative merits of property, poll and wheel taxation for the benefit of public road improvement.

JUST FOR TO-DAY.

Lord for to-morrow and its needs,
I do not pray;
Keep me, my God, from stain of sin
Just for to-day.

Let me both diligently work,
And duly pray,
Let me be kind in word and deed
Just for to-day.

Let me be slow to urge my will,
Unthinking say;
Set Thou a seal upon my lips
Just for to-day.

Lo, for to-morrow and its needs
I do not pray;
But keep me, guide me, love me, Lord,
Just for to-day.

The South Carolina Liquor Law.

The State Legislature of South Carolina has taken the liquor business out of the hands of the grogsellers and now the State is to have a monopoly of it. The legislature was elected to pass a prohibitory law, but instead has made arrangements for the State itself to go into the liquor business.

All the present saloons are to be abolished, and sale of liquor in club rooms or other places of amusement is prohibited. State dispensaries are then to be established, [illegible] there will be but one saloon [illegible] in the other counties of the State. [illegible] stores in the [illegible] will be [illegible] Liquor is not [illegible] which are not to be opened [illegible]

The county dispensaries are only to those where the [illegible] and who are not [illegible] or intoxicated. If the application [illegible] the endorsement of a responsible person must be secured. Severe penalties are provided for violations of the act. Towns which now have prohibition are excepted from its operation. We will watch the working of this new law with great interest.—Christian Advocate.

Application for a Charter for a Bridge Across Trent River.

Application will be made to the present General Assembly for a Charter to construct a Bridge across the Trent river from some point in the City of New Berne to some point in Duffyville.
