Shaping up NOW

—for the day when "Highways are Happy Ways" again!

Tomorrow's "dream bus" is much more than a dream. It is shaping up today, in full scale models that will soon be translated into gleaming fluted metal, curved plastic glass, new type chairs built for long-trip relaxation — many features of comfort and efficiency we can't even talk about now.

Super-Coaches like this are coming, sure as Victory. Greyhound will pioneer in their design and will make all possible speed in their construction—without relaxing, for one moment, its full-time job of carrying war manpower. These startling new buses will not only replace equipment overworked by heavy wartime travel — they'll give eleven million returning Service men and women (and travel-hungry millions at home) a more delightful way to see and enjoy "This Amazing America."

To Help "Shape Up" Victory

Give all you can to your local War Chest or Community Fund.

Speed enlistment in the WAVES, the WACS and the SPARS.
