First Mothers' March Is Planned Here Sunday

BY MISS J. E. HICKS

The Raleigh section of the National Council of Negro Women met at 5 p.m. Sunday at the residence of Mrs. Helen Starks, 806 E. Bragg St. The principal concern of the group was a discussion about the door-to-door registration sponsored by the group with the cooperation of other women in the city.

Because it is felt in the Black community that this election is crucial, the women are saying that this is a "Mother's March For Survival." Politics is everybody's business, for we are affected by the decisions made by the men we choose. In the county election we have the task and opportunity to elect as one of the Wake County Commissioners a black candidate, Mrs. Elizabeth Cofield, an educator and a mother who can represent us. We must rally around this local candidate. We must also vote for the best candidates running for other offices.

The following NCNW members present Sunday pledged to march in their respective neighborhoods or assist: Misses Beatrice Martin, Elizabeth Jordan, Almena Nunn, Willa McIver, Emma Foreman and Jeannette Hicks; Mesdames Roy Smith, Effie Young, Hazel Williams, Sarah Sharper, Beatrice Williams, Laura Wimberly, Merlyn Lytle, Eva Brown, Helen Starks and Registrar Jessie Brown. Mrs. Pearl McDonald, co-chairman will work with Mrs. Gila Harris.

McGovern Lashes At Pres. Nixon

National Black News Service

WASHINGTON, D. C. — Unemployment has more than doubled since Richard Nixon claimed the White House four years ago and 20 public housing agencies will be bankrupt by Christmas unless funds tied up by the Administration are released.

These charges and many similar accusations against the domestic policies of the Nixon Administration were made here in a campaign "white paper" released by Democratic Presidential nominee George S. McGovern.

"The root fact is that Richard Nixon's government has chosen to neglect the hard problems facing this nation at home for the more glamorous, headline-making trips abroad," the South Dakota Senator said in his sharpest attack to date on the domestic policies of the Nixon Administration.

McGovern's charge that public housing agencies in 20 cities were faced with the prospect of bankruptcy was affirmed in a statement released about the same time by New Orleans Mayor Moon Landrieu, chairman of the U. S. Conference of Mayors' legislative action committee.

Panthers See Businessmen In Georgia

BY MICHAEL D. PETIT
National Black News Service

ATLANTA, Ga. — The Black Panther Party is becoming increasingly visable here and it's making some local business merchants nervous.

"You name it, they want it," said Ernest Boyce, president of Colonial Food Stores, Inc.

Boyce was referring to face-to-face visits he and other Atlanta business executives have had from members of the Black Panther Party who are soliciting for weekly contributions of funds, food or clothing to carry on work among the city's poor.

Owners of food store and drug store chains, in particular, have been asked to "give in a regular manner so that we can plan the programs around the donations," according to leaflets left with businessmen by Panther delegations.

Warrenton Body Makes Statement

Editor's Note: Following are statements, made by Leon Perry, executive director of the Warrenton-based Economic Development Corporation of North Carolina:

WARRENTON - "As Executive Director of the Economic Development Corporation of Eastern North Carolina, I wish to voice my strongest disapproval and total condemnation of the recent comments of the American Jewish Committee in urging both major Presidential Candidates to speak out against the imposition of quotas in hiring for the Federal Government.

"Black citizens from the ghettos of this nation have long been suspect of the alleged brotherhood between the American Jew and themselves. One has only to view the lifestyle that exists in the ghettos to see clearly that those of Jewish background are in some measure responsible for the deprivation and exploitation which flourishes so freely.

"In our opinion, the American Jewish Committee has stuck its nose into a situation that does not directly effect it or its Jewish constituency. EDC and its governing Board would be extremely pleased if the cause of social justice and human rights could be advanced without the necessity of quotas. However, the Black experience in America has been such that we are convinced that without a quota system, our people will suffer another 300 years in seeking equality of opportunity.

"We find it inexcusable and an overt racist action on behalf of the AJC that will almost surely sound the death knell for the publicized "Philadelphia Plan." At best, the "Philadelphia Plan" enjoyed

From Raleigh's Official Police Files

Numerous individuals have requested that they be given the consideration of overlooking their listing on the police blotter. This we would like to do. However, it is not our position to be judge or jury. We merely publish the facts as we find them reported by the arresting officers. To keep out of The Crime Beat Column, merely means not being registered by a police officer in reporting his findings while on duty. So simply keep off the "blotter" and you won't be in The Crime Beat.

Appeals On Busing Are Accelerated

BY PAUL H. WYCHE, JR.

WASHINGTON — NBNS — Anti-busing parents in more than five states, in both the north and the South, have appealed for stays of school desegregation orders which force increased busing in their districts.

Parents in Augusta, Ga., Las Vegas, Detroit, Memphis and Prince George's County, Md., all attempted to have desegregation plans stayed until later this year or next. Only the Prince George's case was stayed until January, 1973.

Proponents of anti-busing legislation were dealt a severe blow last week when Supreme
