WINE OF CARDUI

A SURE MEDICINE.

HANDSOM, VA., Dec. 8.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

McELREE'S Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

NEW SHORT STORIES

Lord Kitchener's Sense of Justice.

A sergeant of the Royal engineers who has just returned from the front tells the following story of Lord Kitchener's stern sense of justice. In the sergeant's company there happened to be a private who always did his duty in a quiet, unobtrusive manner, which gained for him a certain respect from his immediate superiors and companions. One morning this man presented himself at the office and reported that he was ill and unfit for duty. He was ordered to appear before Dr. X., the medical officer of the corps, who pronounced him in good health and ordered him back to duty.

Against this verdict there was no appeal, and the soldier returned to his work, which was preparing planks for a temporary bridge. He found it impossible to work and mentioned the fact to the sergeant, with whom he was on most friendly terms.

"Why not lay the case before Lord Kitchener?" said the sergeant. "He is in the office now."

"Oh, I dare not," replied the man. "He is too stand off and cold."

"Well, if you're afraid I'll do it myself," and he did.

"Order the man here at once," said Kitchener without looking up, "and also Drs. Y. and Z."

Each of these he made examine the patient in his presence. Dr. Y. reported "typhoid in a marked stage." Dr. Z. made the same diagnosis.

"Send for Dr. X immediately," slowly muttered Lord Kitchener.

"Please, Dr. X., examine this man carefully. He is either ill or malingering."

Dr. X. performed the commanded task and nervously said: "Sir, I fear that I have made a mistake. This man is in the early stages of typhoid."

"Have the man at once removed to the hospital," came in cold, passionless tones. "And you, sir, apply to the adjutant for your papers and at your earliest convenience return to England!"

Roosevelt's Devotion to Duty.

Senator Heitfeld of Idaho told a good story illustrating Mr. Roosevelt's trials and tribulations as presiding officer on inauguration day. After the vice president had taken the oath of office and the senate had been organized all in the chamber proceeded to the stand where the president was inducted into office and delivered his address. The inclement weather drove Mr. Heitfeld back into the capitol for shelter, and he aimlessly wandered into the senate

COLONEL ROOSEVELT STATED THE QUESTION

chamber. There sat Mr. Roosevelt alone. He occupied the presiding officer's chair and in reply to an inquiry stated that he had returned upon being informed that the senate had not adjourned, but had temporarily suspended proceedings to attend the inaugural exercises. "I came to his relief," said Mr. Heitfeld in relating the incident, "by formally moving that the senate adjourn. Colonel Roosevelt stated the question, announced it carried and declared the senate adjourned. He then vacated the chair."—Washington Cor. Chicago Record.

Had Them to Spare.

King Edward accompanied his parents during their historic visit to Paris in the August of 1855, and he and the princess royal had a most delightful time. Indeed it was said at the French court that the young prince so much enjoyed himself that he actually implored the beautiful Empress Eugenie, who had been so kind a hostess to her young guests, to ask permission for them to stay on after their parents had gone. When her imperial majesty remarked smilingly that Queen Victoria and Prince Albert would not be able to spare their two elder children, the little prince answered eagerly: "Not do without us! Pray do not think that, for there are six more of us at home. They can do without us quite well for a little while," a view which, however, did not find acceptance in the proper quarter.

Senator Depew's Success.

"A clown!"

Senator Depew gave one of his famous speeches in the senate one afternoon recently. The explosion came in the midst of one of Senator Bacon's most eloquent periods. It upset the gravity of the senate for fully five minutes, and the throngs in the galleries laughed so spontaneously that the presiding officer had to rap for order. A few of Senator Depew's speeches in a graphophone would make a fortune for the man who can bottle their musical expression for the delight of generations yet unborn.

It is contemplated to issue a new coin from the Fourth mint of the union of the continents. It would be practicable for the use of very good persons who would to side circuit to buy the equivalent of a farthing's worth.

He is a Wonder.

All who see Mr. C. F. Collier, of Cherokee, Iowa, as he is now, cheerful, erect, vigorous, without an ache, would hardly believe he is the same man, who a short time ago, had to sit in a chair propped up by cushions, suffering intensely from an aching back, it seemed as if he tried to shoot—all caused by chronic kidney trouble, that no medicine seemed able to cure. Doctors failed, he took Electric Bitters, and was wholly cured by three bottles. Just think! pain, disturbed Slumber, Nervousness, Loss of Appetite, all Kidney troubles, gone by use of E. E. Bradham's Drug Store.

When Horace Greeley Lost His Hat.

A very distinguished assemblage honored Grant's inaugural, which was held in the newly completed north wing of the treasury building. Elaborate preparations were made for dancing, the manager, by telegraphic communications, keeping the dance moving simultaneously on three floors. But the man who preferred eating to dancing and could not get even within the sight of food was not well pleased. Refreshments were served in the basement, in a room too small to accommodate the 5,000 guests, but large enough to contain the provisions, which were scarce indeed. In the cloakrooms the committee in charge lost their heads, visitors lost their hats, and it is stated on good authority that the sulphurous vapors which rose in the vicinity of the place where Horace Greeley searched for his hat during two hours were stifling.

It is recorded that one gentleman walked to Capitol hill, two miles distant, in dancing pumps and bareheaded and that many frightened women still cowered in the corners of the dressing rooms at dawn the next morning. So, in preparing Grant's second ball, the committee made elaborate arrangements in order that these unpleasantnesses should not again occur.—National Magazine.

Quick Eaters.

"Have you any idea," remarked the cashier of one of the largest lunch restaurants in New York, "how many minutes the average down town business man devotes to his midday meal?"

"At a venture," answered the reporter, watching the hurried play of knives and forks about him, "I should say 15 minutes."

"You set about the time usually estimated," returned the cashier, "but in reality half that time would be nearer right. The average time consumed for lunch by the patrons of this establishment is just eight minutes. The fact is," continued the cashier after the reporter had ventured a foreboding for New York digestion, "people find it such a trifling and unobtrusive matter just to get 'a bite of lunch' that few realize what a gigantic business it is merely to supply hungry people down town at noon, because few bring their lunches with them, and from the formation of the city none can go home.

"This establishment feeds 3,000 people a day, and the amount of food required to care for that patronage is enormous. For example, when we put hash on the 'specials' enough is made up actually to fill a wagon. We are not the largest lunchroom, however."

Pretty Children

"We have three children. Before the birth of the last one my wife used four bottles of MOTHER'S FRIEND. If you had the pictures of our children, you could see at a glance that the last one is healthiest, prettiest and finest-looking of them all. My wife thinks Mother's Friend is the greatest and grandest remedy in the world for expectant mothers."—Written by a Kentucky Attorney-at-Law.

MOTHER'S FRIEND

prevents nine-tenths of the suffering incident to childbirth. The coming mother's disposition and temper remain unruffled throughout the ordeal, because this relaxing, penetrating liniment relieves the usual distress. A good-natured mother is pretty sure to have a good-natured child. The patient is kept in a strong, healthy condition, which the child also inherits. Mother's Friend takes a wife through the crisis quickly and almost painlessly. It assists in her rapid recovery, and wards off the dangers that so often follow delivery.

CANCER SSS

THE ONLY CURE

The diseases most feared are those which are inherited—handed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grand children of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or pimple may develop into Cancer. From middle life to old age is the time when the slumbering poison is most apt to break out, a sore or ulcer often degenerating into Cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

The Cancer patient naturally grows despondent as one after another the usual remedies fail, and the sore shows no sign of healing. The impurities that have been accumulating in the system, perhaps for generations, cannot be eliminated nor the poisoned blood made pure by salves, washes and plasters. The proper treatment is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

S. S. S. goes directly into the blood, destroys the virus, stops the formation of Cancerous cells and cleanses the system of impurities. What we say of S. S. S. as a cure for Cancer is supported by the testimony of those who have tested it and been restored to health.

Mr. J. D. Arnold, of Greenwood, S. C., writes: "A tiny ulcer came, just under the left eye. It began spreading and grew worse rapidly, destroying the flesh as it went. As Cancer is hereditary in my family I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading druggists advised me to try S. S. S., and by the time I had taken the second bottle the Cancer began to show signs of healing, the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remains but a slight scar. I feel that I owe my life to S. S. S."

Begin in time, don't wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a taint in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book on Cancer which we will mail free. Our physicians are ready to help you by their advice and such direction as your case requires. Write us fully and freely—no charge for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.
