A Handsome Woman

Every woman may not be handsome, but every woman should keep with care the good points nature has given her. No woman need have sallow skin, dull eye, blotchy complexion, who pays proper attention to her health. Where constipation, liver derangements, blood impurities and other irregularities exist, good complexion, a bright eye and sprightly movements cannot exist. Internal derangements reveal themselves sooner or later on the surface. Headaches, dizzy things around the eyes, sallow skin, a constant tired feeling—these tell the liver and digestive organs are needing tone and correction. Chamberlain's Stomach and Liver Tablets give this necessary help. They work in nature's own way. They are mild and gentle in their effect. Sold by all dealers.

Made To Fit The Best One.

A gentleman and brave and very eccentric Virginia planter named Hill Carter, said that there were 44 soldiers in the United States navy, had a bond to hang pirate at Kerrufle one day with his plantation overseer and came off second best. He therefore challenged the overseer to a formal duel, but the latter declined on the ground that, being a husband and father, he was under obligation not to risk leaving his family destitute. Carter at once removed that objection by settling upon the family a comfortable annuity. Then everything was got ready for the fight, but just as the two men faced each other the sheriff arrived on the scene, took them into custody and had them bound over to keep the peace. Mr. Carter did not, however, change the deed of gift with which he had provided for the overseer's family, remarking that he might wish some time to resume the interrupted fight and hence would rather keep everything in readiness for prompt action.—New York Post.

Consul King David.

This amusing anecdote of Lamartine is related by the Baroness Bonde in her volume of letters. Shortly after the revolution of February he wrote on the blank leaves of his pocketbook the names of his proteges and sent the list to be provided with places immediately. Previously, however, it seems, he had scribbled "David" on the page, and the head of the cabinet appointed the said David consul at Bremen. The postulant, however, never came forward, and, though the poet did not like being disturbed, M. Hetzel was obliged to ask who was the David on his list.

"He who danced before the ark," was the answer.

"Oh, dear! I have gazetted him to Bremen!"

"How very singular! I meant him for a subject for meditation, not for nomination. But you can cancel it."

The monitor registered the change, but few knew that the last consul appointed to Bremen was King David!

BEST TREATMENT FOR A BURN.

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This Salve is also unequaled for chapped hands, sore nipples and diseases of the skin. Price 25 cents. For sale by all dealers.

Economy.

Husband—Excuse me, dear, but don't you cook much more for dinner than we can use?—Wife—Of course! If I didn't how could I economize by utilizing leftover dishes?—Cleveland Leader.

Not New.

"Electricity isn't a modern discovery. It is as old as the flood."

"How do you make that out?"

"Why, didn't Noah have to have ark lights?"

Better a blush in the face than a blot in the heart.—Cervantes.

IT SAVED HIS LEG.

"All thought I'd lose my leg," writes J. A. Swenson, of Watertown, Wis. "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it, sound and well." Infallable for Skin Eruptions, Eczema, Salt Rheum, Boils, Fever Sores, Burns, Scalds, Cuts and Piles. 25c at all druggists.

Our Elastic Globe.

Nothing seems more rigid than the crust of the earth, but scientific men tell us that it bends and buckles appreciably under the pull of the heavenly bodies. Careful observation has also shown that the shores on opposite sides of a tidal basin approach each other at high tide. The weight of water in the Irish sea, for instance, is so much greater at that time that the bed sinks a trifle and consequently pulls the Irish and English coasts nearer together. The buildings of Liverpool and Dublin may be fancied as bowing to each other across the channel, the deflection from perpendicular being about one inch for every sixteen miles. It has been shown, too, that ordinary valleys widen under the heat of the sun and contract again at night. We live not on a rigid but an elastic globe.

Children Cry FOR FLETCHER'S CASTORIA

Speaking of desirable neighborhoods of course we all desire to live on Easy street.

Money talks, but what the "coppers" says may not be worth two cents.

A clever, popular Candy Cold Cure Tablet called Preventics—is being dispensed by druggists everywhere. In a few hours, Preventics are said to break any cold—completely. And Preventics being so safe and toothsome, are very fine for children. No Quinine, no laxative, nothing harsh nor sickening. Box of 48—25c. Sold by Bradham Drug Co.

The Cow.

"Johnny," said the teacher, "write a sentence containing the word 'contents.'"

After a few moments' hard labor Johnny submitted the following: "The contents of a cow is milk."—Chicago News.

KILL THE COUGH AND CURE THE LUNGS WITH DR. KING'S NEW DISCOVERY

Dr. Pierce's Favorite Prescription

is the best of all medicines for the cure of disease, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly educated physician—an experienced and skilled specialist in the diseases of women.

It is a sure medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine on account of its GREATER PROFIT to the dealer. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. *See that you get what you ask for.*

A Sailor's Resolution.

A gentleman, resident of Harrow, made frequent complaints to the masters of the great school there of his garden being stripped of its fruit, even before it became ripe, but to no purpose.

Tired of applying to the masters for redress, he at length appealed to the boys, and, sending for one to his house, he said: "Now, my good fellow, I'll make this agreement with you and your companions. Let the fruit remain on the trees till it becomes ripe, and I promise to give you half."

The boy coolly replied, "I can say nothing to the proposition, sir, myself, but will make it known to the rest of the boys and inform you of their decision tomorrow."

Next day came and brought with it this reply: "The gentlemen of Harrow cannot agree to receive so unequal a share, since Mr. —— is an individual and we are many."—London Sketch.

Mistake of a Comma.

This instance of what a mistake of a comma can produce has been noticed:

"Lord Palmerston then entered upon his head, a white hat upon his feet, large but well polished boots upon his brow, a dark cloud in his hand, his faithful walking stick in his eye, a dark menacing glare saying nothing."—Circle Magazine.

Quite So.

"There seems to be a strange affinity between a darky and a chicken."

"Naturally. One is descended from Ham and the other from eggs."—Housekeeper.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by all dealers.

The Scotsman's English.

A true specimen of the highlandman's difficulties with the English language:

Farmer (who had instructed his Gaelic shepherd to look for a number of sheep that had wandered from the fold)—Well, Donald, have you found them?

"Aye, mister."

"Where did you get them?"

"Well, got two by itself, one together and three among one of McPhearson's."—London News.

GOOD FOR BILIOUSNESS.

"I took two of Chamberlain's Stomach and Liver Tablets last night, and I feel fifty per cent better than I have for weeks, says J. J. Firestone of Allegan, Mich. "They are certainly a fine article for biliousness." For sale by all dealers. Samples free.

The River Tinto.

There is in Spain a river called the Tinto, which has very extraordinary qualities. Its waters, which are as yellow as a topaz, harden the sand and petrify it in a most surprising manner. If a stone falls into the river and rests upon another they both become perfectly united and conglutinated in a year. It petrifies all the plants on its banks as well as the roots of trees, which it dyes of the same hue as its waters. No fish live in its stream.

A Creature From the Fire.

Aristotle believed that some creatures were capable of supporting life even though conducted to the devouring element. He says: "In Cyprus, when the manufacturers of chalcitis (limestone) burn it many days in the fire, a winged creature something larger than a great fly is seen emerging from the stone and leaping and walking about in the fire. These creatures perish immediately upon being removed from the furnace."

The Doctor's Bad Memory.

This story is told of Dr. Pirrie, the great Scottish surgeon, in "Recollections of Fifty Years:"

"Once when a lady patient entered his consulting room he received her with effusion, crying:

"'My dear madam, I have done nothing else but think over your case. I could not get a wink of sleep all last night for thinking of you!'

"The lady accepted it all as gospel truth, and after some professional questions and answers she innocently remarked:

"'Was it not a dreadful thunderstorm last night, Dr. Pirrie?'

"'So I am told,' he naively answered, 'but I'm such a sound sleeper that I didna hear a clap o't!'"

Thunderstorms.

A thunderstorm in hot weather travels at the average rate of thirty miles an hour.
