

It Starts With You.

Federation is your voice on behalf of 75,000 Ethiopian Jews living in Israel and struggling to make the transition to modern life. Struggling to find their way off the streets ... away from violence and hopelessness. Your dollars provide care, comfort and a future for thousands through early childhood programs, remedial classes and group homes, delivering psychological counseling and compassion and providing college scholarships and a vast array of social and cultural programming. Federation starts with you. Give generously of your time and resources.
