Dr. Paul C. Drago has the exclusive rights to perform the newest, most innovative Lipo procedure called *SmartLipo*.TM This new technique will zap away fat, better, faster and with less pain than traditional liposuction.

As seen on the "Today Show" and in "People Magazine", *SmartLipo*TM is the new laser lipo that is performed under local anesthesia, is minimally invasive with no scarring and no stitches. It stimulates production of collagen which can tighten the skin after the fat has been removed. You can resume work after two days.
