

SWEET

When Fayleah Miller was two,

her mother became ill and couldn't care for her. Her grandparents, Helen and Don Miller, put aside the usual concerns of aging couples and made a home for her. Like an apple dipped in honey, they found themselves in a situation that was both sweet and sticky. So they turned to Federation.

A warm and loving community welcomed them and offered vital services, including a therapist for Fayleah and support groups for Helen and Don. "You feel like you have a family," Helen said. "The entire Jewish community just is that way."

As we celebrate the new year, your contribution to Federation provides relief and transforms lives, bringing sweetness to Jewish families in our own community and around the world.
