

# THE DOLLAR IS SHRINKING. THEIR HUNGER ISN'T.

In the former Soviet Union, more than 188,000 elderly Jews live in abject poverty. Thanks to Federation, they get food, medicine, homecare—and human warmth. But the value of the dollar has declined sharply, so our money buys less and less. We are determined not to cut services that make such a profound difference in people's lives. With your help, we won't have to.
