New Beginnings

By Dedee Goldsmith, director, Jewish Preschool on Sardis

"Coming together is a beginning, staying together is progress, and working together is success" -**Henry Ford**

September is a time of new beginnings and a time of coming together. In Judaism, Rosh Hashanah marks the new year. In education, September marks new classes, goals, and benchmarks. In terms of personal beginnings, I have The Jewish Preschool on Sardis, a new community with which to grow in the coming months and years.

In my new position as Director of the Jewish Preschool on Sardis, I wear a variety of hats and have a

variety of responsibilities. I approach these responsibilities with the head and heart of a teacher. What do I mean by that? I think that a school represents the community it serves; the children, the parents, the staff, the neighborhood. Children need a comfortable, safe environment where they can explore, create and share in a common space. Teachers cultivate that environment, adding the materials, the decor, and more importantly, the guidance and support to make each child successful. JPS is known to provide all these qualities and more. Our school is an environment where individuality and a sense of Jewish identity can flourish.

I also come to JPS as a mom. In Hebrew, the woman of the house is called "akeret habayit," the essence of the home. It is the female head of house that sets the tone and determines the character of the home. As my own children grow into their roles as members of the Charlotte Jewish community, my new position allows me to explore beyond my own home and into the community. Along with the staff, we will work together to set the tone at JPS, a place of

warmth, support, respect, and learning. It is my hope and wish to help the Jewish Preschool on Sardis and the JPS community create more opportunities for children to dream, create, and grow.

There is anticipation and excitement with each new beginning and I find that to be more true this year. Developing relationships with the children, families, staff, and the community at large will be my top priority. Through these relationships, we will create an environment that is not only developmentally appropriate, but also stimulating and nurturing. I know there is much to discover and I look forward to taking it all in and contributing to and building upon the solid foundation already in place.

As we all begin this new journey, let us come together, stay together and work together to

"I changed, you can too!"
