

# PERRY'S PAYS THE HIGHEST PRICES FOR YOUR JEWELRY AND DIAMONDS

## 12 PRIVATE OFFICES!

At our new location, Perry's now has 12 NEW private offices to better serve you. When you're selling your jewelry or coins, the difference between getting a good deal and getting taken is the quality of your appraiser. All our jewelry appraisers are accredited by the Gemological Institute of America. They all utilize the latest testing equipment and they stay current on the up-to-the minute precious metal pricing. Our two coin experts are members of the American Numismatic Association. Moreover, Perry's at SouthPark has been one of the most respected organizations in Charlotte for over 34 years. When it comes to appraising jewelry, we're the gold standard.

Bring your old gold jewelry, silver items, coin collections, or platinum to Perry's at SouthPark.

## WE HAVE 12+ BUYERS AND APPRAISERS WITH CREDENTIALS AS GOOD AS GOLD

At Perry's we have more than a dozen buyers and appraisers including graduate gemologists, rare coin specialists, and estate experts. No other jewelry store or gold dealer in the country has anywhere near the number of experienced and qualified buyers we have.

### Tips for Selling Your Jewelry

- Never send your jewelry to out-of-town buyers that promise the highest prices. Most have the highest rate of consumer complaints.
- Never sell your valuables at a counter in view of other customers, insist on using a private office for security.
- Always check the buyers' expertise and that they are graduate gemologists.
- If you have high value jewelry and/or coins, only sell to companies that sell that type of valuables.
- Don't sell your gold or silver coins unless the buyer has at least five years experience and is a member of the American Numismatic Association.
- Make sure the buyers are using the appropriate tools and the latest testing equipment.

*Perry's is now taking appointments!*
