

How I Shape The

Like a lot of families, **we chose Charlotte as our home** for many reasons.

When we moved here last April, we didn't have years of friendships built and close family to lean on. Plus, my husband was leaving that July to complete Army JAG school training until December.

So **we sought out a community** where we could bring our son and feel instantly connected to a new family. We took a tour of the J and immediately knew **we had found what we were looking for.**

camps

We had our "AH HA" moment. Since then, it has been a perfect fit. Our son has excelled in the J's many Early Childhood programs, my husband has found friends to meet after work for a quick game of racquetball, and I use the amazing JChildcare program to create some time for Pilates and J-Force.

Together we have shaped the J since April, 2012.

"The J has become a part of our family, and we've become a part of it."
