

Come on in, feel at home, and have some fun.

Room for all to enjoy many activities and events

OUR GOALS

Sardis Gardens Adult Day and Health Care Center aims to bring purpose and pleasure into the lives of our clients, to promote their health, and to provide their families with peace of mind and respite from their day-to-day caregiving responsibilities.

OUR PHILOSOPHY

Founded on a conviction that medical treatment alone is not enough, our philosophy is to create both a beautiful environment and programming that reduces loneliness, encourages participation in life and personal care, as well as focuses on pleasure and possibilities. Still wanting to be sensitive to the challenges, losses, and pains often associated with aging, we want our health care component to work with clients' physicians to monitor changes, to administer medications, and to cooperate with other providers and community resources. All of this because we also believe that clients' families need help in sharing the caregiving.

OUR PROGRAM:

- nurtures personal independence
- cultivates emotional well-being
- reduces isolation
- enables the possibilities of living at home

Sardis Gardens Adult Day & Health Care Center

Hours of operation: Monday to Friday 8-5
(hours will change as our clients' needs changes)
