Avoid the Gay Penalty

Lesbian and gay couples may face two major problems that married couples do not have when it comes to retirement plans:

- The inability to roll over funds tax-free into an IRA when a partner dies.
- The loss of retirement plan assets, when a partner with an employer-funded plan dies.

Let us show you how to avoid paying the extra taxes when you cannot roll over your partner's retirement plan without tax and replace retirement plans in an employer funded plan.

"I finally found a religion that values freedom as much as I do".

"As a child, there was never any question that I would go to church. My problem was, once I got there, there was never an opportunity to

"So I grew up thinking all churches were like that, and that's why I gave up on religion – organized religion, that is. I always had my own set of beliefs, but until I discovered Unitarian Universalism, I never had a place to explore those beliefs with other people.

"Everyone - especially people like me who reject that 'authoritarian' approach - needs to know Unitarian Universalism exists.

"I mean, questioning your beliefs isn't blasphemy. Here, it's practically mandatory!"
