out in the stars

March 31 - April 13

by Charlene Lichtenstein
Special to Q-Notes

Let's check out April this week. If April showers are to bring May flowers, be prepared to dig deep into the soil and plant a big one where it will bloom. We expect the usual movement of the Sun gliding into Taurus but the additional bonus is Saturn which tips into wiry Gemini. Let's not be April fools; use taskmaster Saturn to make a reality from dreams.

ARIES (March 21 - April 20)

Although gay Rams are always more than willing to share their opinions with others, think carefully before you speak, especially after the 21st. Communication has an unintended effect and may take you out on a tangent from which you dare not return. Instead of jabbering on, absorb knowledge like a sponge. You'll have an opportunity to squeeze yourself out soon enough.

TAURUS (April 21 - May 21)

Cultivate aspirations, but be sure they mesh with your value system. All that you hold near and dear will undergo an inspection from unlikely sources this April. This is a cathartic, necessary change, so why ask why? Just keep an eye peeled for opportunity and be grateful to your gay guardian angel for any insights. Personal prospects open wide — go for it before the 21st, queer Bull!

GEMINI (May 22 - June 21)

Learn your lessons well, pink Twin, the planets emphasize relationships this month whether it's among acquaintances, with partners or friends. Don't be hampered by a Saturnian lack of self confidence - that's just not your bag anyway. Instead, reappraise how you appear to others and make some ... shall we say ... enhancements on perfection. Ahem.

CANCER (June 22 - July 23)

Balance is everything in this world, pink Crab. This April, as the Sun traverses Aries,

you are consumed by career and "getting ahead," by any means necessary. Then, just as you peter out, Sun in Taurus on the 21st helps you relax among compadres. Excellent timing! Immerse in the group-think to overcome any static that Saturn zaps your way. Crisis of conscience? "Fuhgetaboutit!"

LEO (July 24 - Aug. 23)

Although proud Lions are a fairly sociable lot, there are times when even you take friendships for granted. Saturn in Gemini has decided to focus the heat on your platonic support systems to strengthen the ties that bind. Who loves ya baby? Put all relationships to the acid test after the 21st. Radical transformations will separate the wheat from the chaff. Or so we hope.

VIRGO (Aug. 24 - Sept. 23)

Gay Virgos are not shy about rolling up their sleeves and working hard. Now, as Saturn strolls into Gemini on the 21st for a two year stint, your tireless efforts are recognized and rewarded. Can you simply accept the accolades? Time will tell. As the Sun enters Taurus, you may prefer to escape from the roaring crowd. Well, everyone in the crowd except one particular person....

LIBRA (Sept. 24 - Oct. 23)

Well, the good news is that your love life will pick up considerably as the Sun slips into Taurus on the 21st. The bad news is that legal entanglements will get you by the short hairs if you haven't done your Saturn homework. Study hard queer Libra; it's time to put your research and knowledge to the test, present it to the court and rest your case. Aha! The jury is out!

SCORPIO (Oct. 24 - Nov. 22)

Gay Scorps have intense physical desires. As Saturn turns up the heat mid-month, she teaches you a stern lesson on balancing your needs with the needs of others. Fight it and your future reads like a cheezy romance novel; Gay blade paints the town pink every night using every trick of the trade only to eventually discover that life is meaningless and lonely. Pack the kleenex, cousin.

SAGITTARIUS (Nov. 23 - Dec. 22)

A life of balance and harmony gets a dead weight placed on one side of the scale thanks to Saturn this April. Review your one-to-one relationships, gay Archer, and see if they are providing you with fulfillment. If you can cope in your present arrangement, be prepared to make some concessions. If not, toss off the extra weight and seek other, greener pastures.

CAPRICORN (Dec. 23 - Jan. 20)

The Sun entices you to play around but, April fool — Get to work, proud Cap! Saturn insists that there are lessons to be learned on the job, particularly in the way you treat underlings. The chickens have not only come home to roost, they are rotisserieed. You have been reviewing what is and is not important in your life. Now apply what you have discovered about yourself.

AQUARIUS (Jan. 21 - Feb. 19)

Parties losing their luster, Aqueerian? Indeed, with Saturn making the new rules around the 21st, everything having to do with fun and frolic will have an underlying moral lesson. How nice. At the same time, the Sun strides through Taurus and creates a haven of refuge in your home. Why not create a buzz close to the hive while Saturn pokes around? At least you won't need cabfare.

PISCES (Feb. 20 - March 20)

It's time to tackle unresolved family issues or household projects. Saturn stresses that anything needing repair or sprucing up must get your attention while the energy is hot. Guppies accomplish a great deal when they are motivated. Even Sun in Taurus gets into the act improving your communication skills and giving you elegance and panache. Ask and you shall receive, cousin. ▼
