

DOMESTIC SCIENCE CLASS IN COLORED SCHOOL

our town, of which we are planning a full report for the next issue of the BULLETIN. These ladies judged our work as being very good. The exhibits were from the industrial as well as the other departments of the school.

Our night school is also a success. We are glad to have any adults come to us; and we also invite our friends, white and colored, to visit our day and night school, that they may see and decide for themselves what it will in time mean to our whole community.

School Band and Home Economics

Our Students' Band, under the training of our manual training teacher, is beginning to play just a little. The boys are doing fairly good work in the shop, and the girls are doing their work nicely in the department of Domestic Science. About two dozen girls are taking this work, and twenty boys are taking the manual training and band. We hope to have our own band for commencement this year, which Mr. Armstrong assures us we can do. Until we shall have the best school open to any of our people anywhere, we will not have reached our aim.

Parent-Teachers' Association

We are now working out the plans for organizing a Parent-Teachers' Association in North Badin, which we shall announce soon. We are doing this with a hope of drawing parents to a realization of what it takes to educate a community, even reasonably well. Some of our parents have not the least idea of what it takes to run a school success-

fully, when it contains three or four hundred children. We hope by these plans to have the full co-operation of all good parents in the execution of all things necessary to make a good school.

—E. G. HARRIS

Principal Colored School

Society News of North Badin

Quite a few of the leading negroes of this State and surrounding States attended the meeting for Welfare Workers, held here during the bazaar last week. Among those who visited the school, and addressed the student-body, were Dr. A. M. Moore, of Durham; Prof. J. T. Arter, principal of the Negro School at the Maryville plant, in Tennessee; Mr. O. Kelly, of Raleigh; and many other most prominent educators and business men. On Wednesday, Educational Day, the school had quite a number of visitors, who made very helpful talks to the boys and girls.

Messrs. Van Brooks & Lee have opened a barber shop in one department of Badin Stock Company's building, which is a credit to Badin. These boys promise to operate there the finest barber shop in Badin. Their outfit is said to have cost over fifteen hundred dollars. We wish for them much success.

The Women's Federation was organized in October, by Mrs. C. H. Brown, of Sedalia. Mrs. Ed. Bell was elected president. Under Mrs. Bell's supervision, we have been very successful. The club made a quilt for the bazaar.

They also served the old folks of Badin on Thanksgiving.

Professor Aggrea, of Livingstone College, Salisbury, and Prof. Leo A. Ray, a United States Commissioner of Education, were in our city Wednesday. They visited the Graded School, and seemed both interested and pleased with the work of the school.

Miss Ida Robinson, of Concord, N. C. has been added to the teaching corps of Badin's Colored School. She is a very promising young lady, a graduate of Scotia Women's College. We gladly welcome Miss Robinson in our midst.

Miss Lillian Taylor, one of the teachers of the negro Graded School, was called away last week on account of the death of her sister, at Oxford, N. C. She will not return to Badin this year.

A number of Badinites motored over to see the football game between Biddle and Livingstone, on Thanksgiving. The game was very interesting and exciting, the score being "nothing—nothing."

Mr. Lattie, the undertaker and embalmer, of Winston-Salem, was the guest of Mlle. Vonlee Farrington on Monday and Tuesday of this week. She's all smiles. I wonder why?

Mrs. C. H. Michael, director of Music School here, left for Salisbury, December 3. The colored people of Badin are very sorry to lose her.

Mrs. Dickerson, of Washington, D. C., with little daughter, is visiting her husband here. Mr. Dickerson is a brick mason of much skill.

Mr. Smith and Miss Willie Brown, welfare workers of Charlotte, N. C., visited Badin during the week of the bazaar.

St. Henry, a Welfare Worker who may return to Badin in January, visited here during the bazaar.

Mr. R. McCant Andrews worked very hard to make the bazaar a great success.

Mr. R. L. Long, of Landis, spent a day here last week, visiting friends.

Fraternal News

The I. B. P. O. of Elks of W. are still growing. They own a nice little piece of land on the suburbs of the town and are figuring on doing some extensive business soon. They are expecting to initiate Lieut. G. E. Nelson and other prominent men into the order Friday evening of this week. It is talked widely among the members that Prof. E. G. Harris will be elected Exalted Ruler at this meeting.
