

Mr. D. W. Bell, of the Technical Direction Department, is still with us. Mr. Bell hopes to complete his work at Badin in another week.

There is much to be heard these days around the plant about Standards, Efficiency, Relative Importance, etc.

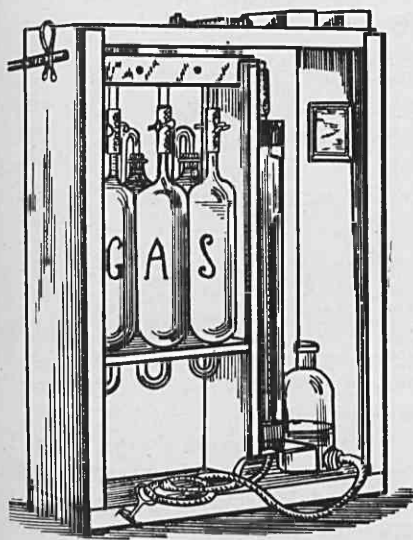

—L. G. DANIEL

Time Department

There was a wedding at the home of Miss Lala Mae Ferabee last week, and it seems that some of the cake drifted down to Badin. The third floor girls slept with a piece of the cake under their pillows. Ferabee dreamed of the same fellow three nights; since then she doesn't believe in dreams.

Mr. Hadley seems a little impatient over something. Making a good guess, it must be on account of the weather, as it keeps him from going fishing. He predicts big catches for the spring and summer.

LABORATORY

Spence Kirk says that his department has a brief (?) day's work since the seventh Pot Room has been put into operation.

Dr. D. W. Bell, of the Research Department, was a pleasant visitor in the Laboratory recently.

Mr. J. F. Dermid has resigned his position as analyst in the Carbon Room, and has accepted a position in the Carbon Plant.

Mr. Mack Arnette has returned from Mars Hill College, and accepted the position formerly held by Mr. J. F. Dermid.

AROUND TOWN

Bell Shoe Store's New Location

The Bell Shoe Store has removed to the building on Falls Road formerly occupied by Mr. Dexter Liles.

Mr. Horton states that the larger space in the new store will give more freedom for the display of goods and shelf-room for his increasing business.

Their friends and customers may expect the same courteous attention, plus the added value of a larger stock from which to make selections. A new department has been opened, in which is carried a full line of trunks, bags, and suitcases.

Opening of the Home Restaurant

Badin's newest business enterprise opened its doors March 1. Mr. Endres, the proprietor, will give the same careful attention to cleanliness and sanitation that characterizes the growing business of the Badin Bakery.

In the quarters formerly occupied by the Bank of Badin, the new restaurant will cater to those who appreciate first-class service and "home" cooking, as implied by the name.

Personals

Mr. B. H. Wallace, our efficient clerk, has been planning fencing his lots, preparatory to raising a garden and rabbits. Guess he figures the rabbits will keep down the grass.

Mrs. Cowles, who has been confined to her home with "flu," is fast improving, and we hope to have Mr. Cowles back at the office in a short time.

We are glad to see Mrs. Biles out again, after suffering with influenza-pneumonia; but sorry to know that Mr. Biles has "flu."

If any of our "flu" patients want a nurse, housekeeper, cook, or a washwoman, just call on Mr. J. W. Tilley.
