

whose little child was hurt by an automobile Tuesday. We hope for it a speedy recovery.

The Taylor Stoker boilers in Building 30 have been shut down, and steam for the plant is now being furnished by the Casey Hedges boilers in Building 50.

Mr. W. G. Nelson and brother will leave Saturday for a two weeks' vacation in Charlotte and the mountains of Western North Carolina.

Mr. L. M. Lovett has been transferred to the day shift, and says he likes it better than the "Wee sma' hours."

All of our machinists now have Wilson goggles, and are playing Safety First by wearing them at the machines.

Mr. J. W. Hearne is spending a vacation at home, with his sister, who is visiting him from California.

Mr. J. H. Mason is with our force again, after being with The Mecklenburg Iron Works for some time.

Mr. Bob Steinett is with the pipe fitting force again, after working in Maryville for several months.

Mr. J. C. Cashatt has sold his new Maxwell to Mr. E. M. Evans.

Mr. Lawrence Maulden is with the pipe fitters again.

Mr. E. M. Evans is spending a few days in Raleigh.

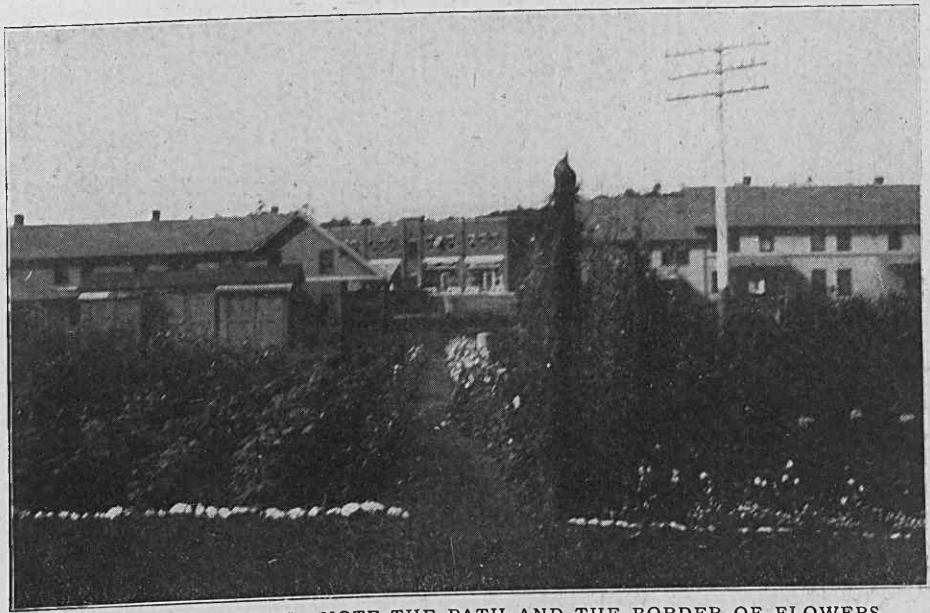

—W. G. N.

### Time Office Notes

Mr. and Mrs. L. S. Currie have returned from their two-weeks' vacation and honeymoon, visiting Mr. Currie's people in Robeson County, and other points of interest in eastern North Carolina. Their many friends wish for them much happiness and a long and prosperous life.

Mr. Joe H. Leonard, of the Distribution Department, began his vacation the thirty-first of July. We haven't any idea as to where Joe went, but we feel sure that he could not possibly go very far from Badin—for "where the heart is, there will he be also."

Mr. L. R. Upchurch has just returned from his vacation, visiting friends in Anson, Union, and Cabarrus Counties; and Mr. J. D. Kirk has just left for Temple, Texas. His wife and baby accompanied him. They are visiting Mr. Kirk's parents.

MR. BOOK'S GARDEN. NOTE THE PATH AND THE BORDER OF FLOWERS

Mrs. Z. Z. Hadley has just returned from New York, where she has been visiting friends for three weeks. While there she visited many places of interest, and reports that she had the time of her life.

BORN—To Mr. and Mrs. T. P. Efird, a girl; this event bringing a double pleasure to Mr. Efird by reason of the fact that it made it necessary to take his vacation.

Miss Johnnie Ferree started on her vacation the thirty-first of July. The writer is unable to ascertain whether she will mix a honeymoon with this trip or not.

Messrs. B. H. and Wade H. Wallace have visited their mother in Rockingham, who is very feeble. We hope for her a speedy recovery.

### Carbon Plant Notes

Somehow we feel that we are very close to the Reclamation Department. We suppose this is because they occupy our back yard. At times we feel that they are too close to us. But we haven't missed very much equipment lately. The Reclamation Department is all right, though. They have the distinction of employing the tallest man in Stanly County, Mr. G. E. Austin, who measures 6 feet 9 $\frac{3}{4}$  inches from tip to tip.

Mr. M. P. Maxwell, of the Efficiency Department of the Alcoa Carbon Plant, was a visitor to the Badin Works last week. We have been hearing quite a

lot, in an indirect way, about the Alcoa Works, but were glad to get some firsthand information, and to learn that the Carbon Plant is now turning out finished electrodes.

The cashier's office advises that Mr. Biddex should order out a truck when coming after his weekly production bonus. Ed says he will get them yet, and maybe some of these times he will make them burn the midnight oil trying to figure out just how much bonus he did make.

We are not demanding an explanation of how half of a perfectly good Slug Press got into the Reclamation Department, but it certainly would be of interest to know just how it found its way out there.

Mr. G. E. Gist, foreman of the plastering gang, has been called to his home at Florence, S. C., on account of his wife's illness. We hope that she will soon be quite well again.

Mr. G. G. Caudle has been promoted from Helper to Operator in the Calciner.

—L. G. D.

Messrs. R. E. Lee and B. S. Liles have been nosing around the Extrusion department for the last few days, looking as though they had lost something. They did not seem inclined to divulge what it was they had lost, but it finally leaked out. Anyone finding three or four points of Green Density wandering
