

LEFT TO RIGHT: B. S. LILES, R. E. PARKS, L. G. DANIEL, J. D. BLACK, J. A. WAYT, G. E. BIDDIX, R. E. LEE, A. D. HOWELL. W. R. YOUNG, ABSENT.

this from the following: Messrs. W. P. Marrie, W. B. Frye, L. E. Billings, and C. M. Bryan.

Some of the boys are wondering why R. L. Kelly isn't wearing the necklace he bought while away on his vacation. Perhaps he didn't buy it to wear himself.

We have with us in the construction department Mr. W. B. Frye. He is one hundred per cent. efficient—at least, when it comes to "pie baking."

Slim Lowder says he has put out more for the past two weeks than he has for some time. Stick to it, Slim, you may get a raise in 1924.

When it comes to cartooning, you will have to hand it to the construction department. How about it, Mr. Rhea?

We understand that Mr. McElhaney is suffering with cramp in his legs. Why not put the pony on stilts, Mac?

If you have any heavy timbers to move, "Brack" Talbert says see Billings.

Falls Notes

We have been told that the little "Red Racer," belonging to Mr. Barnette and Mr. Rodgers, doesn't venture on the Albemarle road since the "speed cop" has made his appearance there. A pretty

wise idea, considering the high cost of gasoline, keeping batch, and Barnette just recently bought a pig.

We have arranged to have services at the Club House every two weeks, beginning Sunday, August 29. Rev. Vick has planned to come, or send someone in his place. We appreciate this interest that is being taken in us, and we all will try to do our part.

Mr. and Mrs. Shoemaker will leave this week for Hickory and Blowing Rock, making the trip in their car. They expect to be gone a week or ten days. On their return, Mr. and Mrs. Mintz will take their vacation.

As Mr. and Mrs. Jones were passing Mr. Williams' home, Sunday, they were met by a large rattlesnake. This makes the third one that has been killed near the houses lately.

The ladies of this place have been very busy for the past month, carrying vegetables to the canning club. They find that it is much easier to can there than at home.

Tom Jackson has our sympathy. His girl (?) is spending her vacation out of town, and he is working on the graveyard shift.

Mrs. Clarence Hoagland and daughter, Nancy Lee, are spending a few days in Fort Mills, S. C., with her parents.

Mr. and Mrs. Shoemaker and Mr. and Mrs. Williams motored to Albemarle Saturday evening.

Mrs. Ike Roberts has returned home, after spending a few weeks in Rock Hill, S. C.

Rev. and Mrs. Vick spent Saturday with Mr. and Mrs. Shoemaker.

Olin Merritt left this morning for his home, in Fort Mills, S. C.

Miss Mary Gill Steele is visiting her sister, Mrs. W. D. Mintz.

Mrs. Eli Craver has been very sick for the past week.

The Electric Shop

After burning out all the Clam Shell motors, and getting all the other Carbon Plant motors going again, we thought we were about to catch up, when trouble started on the Ore Towers. We are now wondering where this is going to stop.

We are glad to have Mr. B. L. Smith with us now, because besides being a real good trouble shooter, he is fast becoming a good armature winder. Roxy's absence is to blame for the armature part of it.

We enjoyed our two weeks' vacation just fine. Now we are enjoying the work that piled up on us, and gee, it's hard to catch up!

Mr. V. L. Rockfield has gone to Norfolk, Va., and New York city, to recuperate from a ten days' sickness.

Ask Mr. O. T. Maynard about that South Carolina doctor. We haven't the heart.

Mr. L. J. Pope returned several days ago from a ten days' vacation.

Mr. F. T. White returned this week from a ten days' vacation.

Gee Whiz! Ain't it hot?

Pot Room Notes

They say we never appreciate the sunshine until we have a little rain. This was illustrated in the Pot Rooms the other day, when the power went off. Men in the Badin Pot Rooms do not know what power troubles really are, and perhaps it takes a shutdown once in a while to make us appreciate what we are getting. In this connection, I wonder what the men were thinking of who laid out Monday afternoon on the three o'clock
